Commentary/Background:

Updated naming convention for all signs. Changed all MOT signs to TTC signs. Worked details to clean up inconsistencies, add structure to sign assignment, and allow for an easier addition of new signs. The requested Index updates reflect consistency with MUTCD, TEM, Sign Library and Highway Signing Program.

FTP-85-13 removed because it is already covered in the MUTCD.

MOT Signs G20-1 and G20-2 removed because they are already covered in the MUTCD.

Radii updates based on sign shop direction to better reflect what is done currently.

Any Indexes with references to these FTP and MOT numbers have also been updated accordingly.
