Comments/Commitment Update History

Discipline	Status	Comment/Commitment Update	Comment Date	Made By
Proj Development & Environment	Commitment Added	1)Archaeological monitoring by a professional Archaeologist meeting the Secretary of the Interior's Professional Qualifications Standards and approved by both Monroe County and the FDOT District Six Cultural Resources	6/12/2020	Andre Goins

Coordinator is required for ground disturbing activities associated with this project. The contractor must coordinate with the archaeologist contracted by Monroe County, providing at least 72-hours' notice prior to excavation. 2) Upon completion of the required Archaeological Monitoring for this project, an Archaeological Monitoring Report must be prepared by the SOI-qualified professional Archaeologist who performed the monitoring in the field. This report, along with a draft transmittal letter summarizing the findings of the archaeological monitoring, must be submitted through the FDOT D6 LAP Construction Office to the FDOT D6 Cultural Resources Coordinator for review and comment. Once complete, the FDOT D6 Cultural Resources Coordinator will submit the final Archaeological Monitoring Report for this project to the State Historic Preservation Officer (SHPO) for their records.
