FLORIDA RAIL SYSTEM PLAN

DECEMBER 2022

DRAFT

Appendix D:

Characteristics of Florida Amtrak Stations

FDOT FREIGHT & RAIL

TABLES

Table D-1 | Deerfield Beach, Deland, and Delray Beach Station Characteristics 3

Table D-2 | Fort Lauderdale, Hollywood, and Jacksonville Station Characteristics..... 4

Table D-3 | Kissimmee, Lakeland, and Miami Station Characteristics 5

Table D-4 | Okeechobee, Orlando, and Palatka Station Characteristics 6

Table D-5 | Sanford, Sebring, and Tampa Station Characteristics..... 7

Table D-6 | West Palm Beach, Winter Haven, and Winter Park Station Characteristics..... 8

Appearing in the following six tables are characteristics of the 18 Amtrak stations in Florida. Amtrak is the only passenger operator at 11 of these stations. It shares station facilities with Tri-Rail at five stations, and with SunRail at two stations. Amtrak is planning to relocate its Miami stop to the Miami Intermodal Center in the near future. As of March 2022, Amtrak has begun active preparations to begin service to the Miami Intermodal Center.

The characteristics below were obtained through various means, including Google Earth, the Great American Stations website, 2015 Florida Rail System (2018 Update) and Amtrak's National Timetable.

Table D-1 | Deerfield Beach, Deland, and Delray Beach Station Characteristics

Location	Deerfield Beach	Deland	Delray Beach
