FDOT ROADS — Reliable, Organized, and Accurate Data Sharing (ROADS) Initiative

RELIABLE, ORGANIZED, ACCURATE DATA SHARING

Seeking to improve data reliability and simplify data sharing across FDOT in order to have readily available and accurate data to make informed decisions.
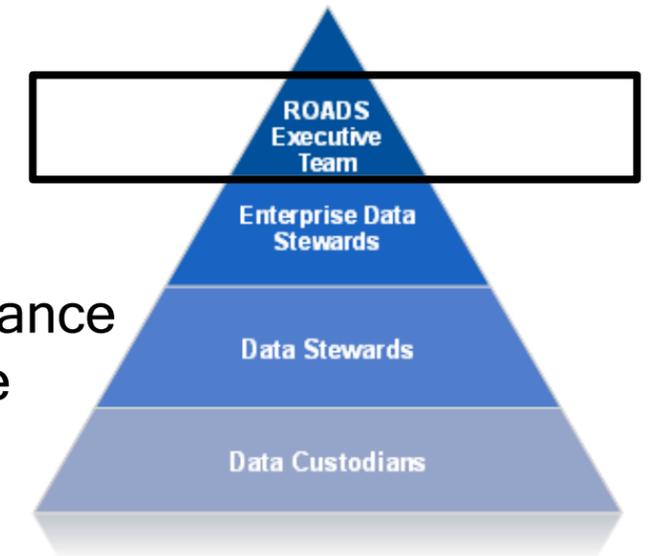

ROADS EXECUTIVE TEAM

Leadership from across the Districts, Turnpike, and Central Office supporting the ROADS Initiative. The ROADS Executive Team members are responsible for overall data governance and provide decision-making, oversight, and strategic direction to the organization. High level responsibilities include:

- Set overall data governance policies and procedures
- Provide decision-making, oversight, and strategic direction to the organization and recommend strategic direction to the executive sponsor
- Act as a strong facilitator, communicator, and champion of data governance
- Serve as champions for data quality improvement
- Approve actions and provide feedback to the Enterprise Data Stewards
- Represent data governance stakeholders and prioritize data issues

Key ROADS Executive Team Activities

The following provides an overview of most activities that a ROADS Executive Team member will be involved in as part of the overall data governance structure.

- ➤ Attend weekly ROADS Executive Team meetings and other key events (Town Halls, etc.)
- ➤ Review information when it is distributed to the group
- ➤ Remain informed regarding ROADS status, issues, and activities
- ➤ Bring issues/concerns related to data or ROADS implementation to the ROADS Executive Team
- ➤ Champion the improvements to the data process
- ➤ Make decisions to guide ROADS

Business Intelligence Tools, Solutions & Services

The ROADS Executive Team plays a critical role in the defining requirements and business rules related to data and business intelligence tools, solutions, and services.

Implement Architecture | Implement Data Governance | Implement Solution Management | Implement Change Management

Implement Organizational Alignment | Address Bandwidth Issues | Streamline Data Security | Establish Data Awareness

Move and Synchronize Data | Enable Data Consistency and Accountability Solution | Institute Enhanced Reporting Capabilities

Set strategic direction for data and solutions
