

This map was compiled from a variety of Federal, State, and local data sources. Florida Department of Transportation (FDOT) aerial photography completed on March 2015, and previously published County General Highway Maps. This map was prepared on the NAD 83 datum. The railroad stations on this map do not necessarily denote the presence of a depot or the facility. It may be only a point, such as a platform or siding, designed for the receipt or delivery of freight. No attempt has been made to show all drainage canals or ditches.

All populations are taken from the United States Census Bureau, in 2010 the population of Monroe County was 73,903. There are 365 square miles in the county.

The Public Land Survey System (PLSS) is shown for reference only and is a compilation of information based on the United States Geological Survey (USGS). If the county contains half Townships and or Ranges those are labeled as room permits within the map.
