THE FLORIDA CROWN is the crown-shaped area of Northeast Florida, historic site of the first permanent European settlement in North America and timeless setting for the mighty St. Johns and scenic Suwannee rivers.

THE LAKE COUNTRY encompasses many of the state's countless thousands of named lakes, dotted everywhere in a region of forested land and sparkling citrus groves and gushing springs.

THE SURF COAST is named for the long Atlantic combbers that roll in on this noted U.S. East Coast resort area, by lush hammocks of subtropical growth.

THE SUN COAST is noted for its consistently high rate of sunshine, which sparkles on the area's golden-hued Gulf beaches, bustling cities

THE ISLANDS COAST derives its name from the serene islands and uncharted maze of mangrove that lie offshore from the Lower Gulf Coast region merging into the Everglades at the southern tip of the Florida peninsula.

THE GLADES comprise the great expanse of swamps-blanketed watery wilderness, the famed "River of Grass" that flows from Lake Okechobee southward to the sea.

THE TROPICAL COAST is the assimilated East Coast area of golden beaches, white sand resorts, where the pace of entertainment quickens.

THE FLORIDA KEYS, a chain of coral islands curving south from the mainland for more than 100 miles, is described as "a land that's mostly water and a sea that's mostly sand."
