

BRIAN M. McKISHNIE, P.E.
720 Penfield St, Longboat Key, Fl. 34228
(813) 957-2341
bmckishnie@verizon.net

PROFESSIONAL SUMMARY: Accomplished Construction Management Engineer with over 35 years of experience in FDOT projects. The first 30 years were as an FDOT Employee almost exclusively managing FDOT Construction projects as a Project Engineer, Construction Resident Engineer, District Seven (D7) Construction Engineer (2004-2014) and finishing his FDOT career as the D7 Director of Transportation Operations. After leaving FDOT in 2019, Mr. McKishnie worked as a CEI Senior Project Engineer for Consor Engineers on a variety of projects in FDOT District One and the Tampa Hillsborough Expressway Authority until he retired in January 2025.

He has CEI expertise in all types of FDOT projects (large and small) and a comprehensive understanding of FDOT specifications and procedures, CPM scheduling and claims analysis/resolution. Mr. McKishnie's experience with DRBs began as an FDOT Project Engineer on the Clearwater Pass Bridge replacement project in 1995 and he has been involved in numerous DRB meetings and hearings over the last 30 years. He has a keen understanding of the role that a DRB can play in the successful delivery of a FDOT construction project.

EDUCATION: Bachelor of Science in Civil Engineering (w/Honors), University of Florida 1989

REGISTRATION/LICENSES: Florida Professional Engineer , PE FL # 47767

TRAINING/CERTIFICATIONS: DRB Foundation DRB Administration and Practice Workshop, DRBF Best Practices for Working with DRBs, CPM Scheduling, FDOT Claims Specification training, Florida Advanced MOT, FDOT CTQP QC Manager and many other technical and administrative courses for FDOT.
