Project Controls Management

EDUCATION: B.S., Industrial Engineering, Georgia Tech
M.S., Operations Research, Georgia Tech

ASSOCIATIONS: Registered Professional Engineer, Florida
Member, American Society of Civil Engineers

CITIZENSHIP: United States of America

EXPERIENCE: Significant experience in directing the planning, design and construction of infrastructure projects with particular emphasis on project controls and design-build delivery.

ANDERSON COLUMBIA COMPANY

Fort Myers, FL

Project Director

07/2006 – Present Project Director for the Joint Venture team of Anderson Columbia Company and Ajax Paving Industries for the I-75 Design-Build-Finance project in Lee and Collier Counties, Florida. Directed successful pursuit efforts, including development of detailed technical proposal and fixed cost price proposal and resulting in award of \$430M project. Completed design and permitting efforts ahead of schedule. Currently leading project team in construction which is on track to earn an incentive bonus for early completion.

BLACK & VEATCH

Various U. S. and International Locations

Project Manager/Project Director

In addition to the specific assignments listed below, provided the following services on an on-call basis in support of company operations worldwide: (1) best practices consultant for project specific performance metrics, project execution procedures, project start-up plans, and project close-out plans; (2) active participant in client development and project pursuits including proposal preparation, presentations, and contract negotiations.

07/2003 – 07/2006 Project Manager – Project Controls and Start-up (on site) for design-build-operate 80 MGD advanced water treatment plant for the City of Phoenix, AZ valued at \$229M. Coordinated design and permitting resulting in early construction start. Directed cost control, scheduling, and procurement resulting in overall savings of 11% to budget and early commissioning start. Developed comprehensive start-up and project close-out plans, delivering project on-time.

08/2001 – 06/2003 Design-Build Support Services Manager at corporate headquarters in Overland Park, KS. Directed specialist staff providing estimating, procurement and cost control support for all design-build projects in North America. Also functioned as Project Manager for (1) design-build 20MGD ultra-filtration water treatment plant for California Water Services, (2) design-procure-commission Brazos Power Plant raw water and cycle make-up water system, and (3) design-build 30 MGD conventional water treatment plant for the City of Longmont, CO. All three projects completed early and under budget.

03/2000 – 07/2001 Project Director (on site) for design-build-operate replacement and upgrade of Ringsend Wastewater Treatment Plant for the City of Dublin, Ireland valued at \$169M. Assumed lead of troubled project nine months after start with design and construction six months behind schedule. Directed all design-build activities, coordinating with ongoing plant operation, and succeeded in achieving an on time start-up.

09/1996 – 02/2000 Project Manager (Owner's Representative on site) for North South Carrier Project in Botswana, including 225 mile raw water pipeline (design-bid-build), three pump stations (design-build), and three treatment plants (design-build) valued at \$326M. Assumed lead of troubled project seven months after start with pipeline construction three months behind schedule and design-build elements not started. Directed field engineering, inspection and testing, inter-project coordination, and contract administration activities. All project elements were placed into operation on schedule.

ANDERSON COLUMBIA COMPANY

Lake City, FL
