EXPERIENCE:

Since 1989: Oxley & Brannon Construction Consultants, Inc. (Previously Oxley Construction Consultants, Inc.). Schedule and construction claims research and consulting, including schedule development and dispute consultation on projects to \$150 million. Expert testimony experience in trial, arbitration and mediation.

1986 - 1989: Seecorp, Constructors and Engineers, Inc., Jacksonville, Florida. President, responsible for all company operations in the design and construction of industrial facilities from feasibility analysis and conceptual design through construction and start-up. Primary involvement was in providing engineering and construction management services to manufacturing firms undergoing facility expansion.

1984 - 1986: Southeastern Constructors and Engineers, Inc., Jacksonville, Florida. Vice-President, responsible for engineering design and management of construction operations for design/build firm. Duties included marketing, contract negotiation, engineering design, and management of professional and field staff.

1982 - 1983: Maxwell House Div. of General Foods Corp., Jacksonville, Florida. Project Engineer/Utilities Dept. Head, responsible for development of capital projects, including feasibility analysis, design engineering, and construction management for coffee processing facility. Additional responsibilities included management of plant utilities, including steam generation facilities and personnel.

1980 - 1981: Enrolled as full time engineering student at the University of Florida.

1978 - 1979: The First Gainesville Corp., Gainesville, Florida. Project Superintendent, responsible for all on-site operations in the construction of 152 unit and 206 unit apartment complexes. Responsible for management of company personnel (100) and for coordination with regulatory agencies and subcontractors from design stages through completion and start-up.

1974 - 1977: Trade experience with general contracting and subcontracting firms involved in commercial and residential construction. Positions included carpenter, foreman, trade superintendent, and GC assistant superintendent.

Schedulers, Engineers, Consultants Since 1983
