

ROTH ENGINEERING SERVICES

Alfred Roth, P.E.
PE 40224

Mr. Roth is a registered professional engineer with more than 40 years of experience in Transportation in Florida and possesses extensive transportation project experience in engineering management, business administration, marketing and operations in construction, design, survey and right of way. He has been responsible for more than 200 projects for the Florida Department of Transportation (FDOT) and various other public agencies. He is also proficient in Quality Assurance, while providing efficient designs and practical solutions to construction problems.

Mr. Roth retired October 31, 2010 from Greenhome & OMara, Inc. (G&O) an Engineering Consulting firm

Mr. Roth led the company's Transportation full service and project offices in Florida and Georgia for many years. Mr. Roth was appointed G&O's Senior Vice President, Southeast Transportation in 2001.

He was responsible for building transportation markets (both CE&I and Design) throughout the Southeast. His knowledge and expertise in construction and design provided G&O's clients with realistic solutions to any project challenges.

Mr. Roth was instrumental in putting together the design team for the I-595 FPP (DBF) project currently under construction in District Four. He coordinated with three other well respected local firms that sold their services to the prime design consultant that was part of the winning team

Prior to joining G&O, Mr. Roth held positions as Vice President of Highways and Director of Transportation for two other consulting firms in Florida. Before joining the consulting community, Mr. Roth spent 15 years with FDOT in District Four as Project Manager,

Project Director, and Section Leader while working on numerous major projects in many disciplines including construction, design, maintenance, and bridge inspection projects throughout Florida. While in construction Mr. Roth worked on major projects such as 79th street causeway (including 2 bascule bridges), I-95 widening (including 14 bridges) and SR 826 (Palmetto Expressway- including 10 bridges) widening in the Miami area.

Mr. Roth believes that building trust and having strong relationships with clients is the formula for success in any business. He also believes that being humble, fair, honest and treating people like you want to be treated builds a loyal, dedicated and devoted staff which is the backbone of providing outstanding client service.

He holds an Associate's degree from Miami-Dade Community College and has completed many hours of engineering courses at Florida International University. He is a member of the Florida Engineering Society, National Society of Professional Engineers and the Florida Institute of Consulting Engineers.
