## WORK HISTORY OF CHARLES F. TAYLOR

Mar 2010 – Present On March 1, 2010 C W Roberts Contracting (CWR) purchased the construction division of Hewitt Contracting, Myself, the entire engineering staff and most of the Skilled Employees at Hewitt came over to C W Roberts. An Engineering and Estimating office was set up at the CWR Wildwood Florida Location. I am currently the Area Manager at that facility.

1976 - 2010 Employer: <u>Hewitt Contracting Company, Inc.</u>

Leesburg, Florida

Position: Chief Engineer and Const. Division Manager

Duties: Estimating, performing take-offs for bidding on major road and

bridge projects, airports, water control structures, subdivisions

and shopping centers.

Purchasing, subcontracting and administration of projects under

construction, reviewing and approving subcontractor and

supplier's shop drawings and change orders.

1969-1976 Employer: <u>Diversacon Industries Inc.</u>

Orlando, Florida and Jackson, Miss.

Position: Project Manager on \$2.5 million dam and water control structure

on the Cross Florida Barge Canal.

Position: Project Engineer on East-West Expressway construction project

that interchanged with I-4 in downtown Orlando, Florida.

Position: Estimator performing take-offs and bidding Florida D.O. T.

projects.

Position: Project Manager on \$5.5 million bridge over the Inter-coastal

Waterway at Lake Charles, LA.

Position: Estimator performing take-offs and bidding Mississippi and

Louisiana D.O.T. projects.

1966-1969 Employer: <u>U.S. Army Corps of Engineers</u>

Tulsa Oklahoma District

Position: Field Engineer (Survey Party Chief)

Duties: Responsible for all surveys and layout of two lock and dam

projects on the Arkansas River Navigation project. Total value of

the two projects was \$41 million.

1964-1966 Employer: <u>State of Oklahoma, Dept. of Highways</u>

Position: Survey Party Chief.
