

William R. Adams, III, P.E.

📍 Florida | 📞 [813-927-6011] | ✉ [bill.adams@bctrc.com] | PE: FL #45794, SC #30089

Professional Summary

Accomplished Civil Engineer and Construction Management Professional with 38 years of diverse experience in infrastructure development, transportation engineering, and project controls. Specialized expertise in CPM scheduling, claims analysis, construction engineering and inspection (CEI), and dispute resolution. Proven leadership in high-value FDOT projects, with a track record of optimizing project delivery through technical excellence, contractor coordination, and stakeholder engagement.

Core Competencies

- CPM Scheduling (Primavera P6)
- Construction Claims & DRB Presentations
- FDOT Project Management & CEI
- Estimating & Cost Control
- Large-Scale Infrastructure Projects
- QA/QC & Regulatory Compliance
- MS Office Suite
- Schedule Analysis Tools

Certifications & Qualifications

- DRBF FDOT/FTBA DRB Administration & Practice Workshop
- Primavera P6 Advanced Training
- FDOT QC Manager Training
- FDOT Final Estimates Level II
- Florida Advanced MOT Certification
- FDEP Stormwater, Erosion, and Sedimentation Control Inspector Training

Education

Bachelor of Science in Civil Engineering

Clemson University, 1987

Professional Licensure

- Professional Engineer – Florida (#45794)
- Professional Engineer – South Carolina (#30089)

Memberships

- American Council of Engineering Companies (ACEC) Florida

Professional Experience

Senior Scheduler / Claims Analyst / Senior Project Engineer

Multiple FDOT Projects – Various Locations, Florida

Led scheduling, claims analysis, and project engineering across some of Florida's largest and most complex transportation initiatives. Served as expert liaison for FDOT Central Office and Districts in resolving schedule disputes and evaluating contractor claims.

Highlights:

- Reviewed baseline and monthly CPM updates across 12 contracts during the Polk Parkway Expansion (\$115M+)
- Key participant in DRB presentations; provided analysis that shaped FDOT delay review practices
- Delivered CEI Management for the \$389M I-4/Selmon Expressway Connector and \$230M Tampa Airport Interchanges
- Supported claim validation, DRB documentation, and construction oversight across multiple CEI assignments

Key Project Experience

- I-4/Selmon Expressway Connector – \$389M elevated connector in Tampa
- Tampa Airport Interchanges – \$230M multi-interchange rebuild
- Memorial Causeway Bridge – \$47M segmental bridge replacement
- SR 56/I-75 Interchange – Multi-route realignment and widening
- Polk Parkway (Florida's Turnpike) – Oversaw construction, claims, and CEI for 25-mile toll road
- SR 52 Widening (Land O Lakes) – \$12.5M expansion project
- US 301 Widening (Parrish) – \$6.9M infrastructure and safety improvement
- SR 54 Widening Design-Build (Lutz) – \$16M project delivery
- I-275 Rest Area Replacement – \$19.2M design-build

- Pedestrian/Wildlife Overpass, I-95 (Fellsmere) – \$4.6M greenway infrastructure

Early Career Roles

- Highway Contracting Firm (Clearwater, FL) – Estimator & Project Manager
- Marine & Bridge Contractor (Tampa, FL) – Estimator
- Heavy & Commercial Construction (Charleston, SC) – Project Engineer & Manager
- Heavy Civil Contractor (Hickory, NC) – Estimator
