

THIS MEMO IS EXPIRED

November 3, 2000

MEMORANDUM NO. 30-00

TO: DISTRICT CONSTRUCTION ENGINEERS

FROM: William N. Nickas, State Structures Design Engineer
Greg Xanders, State Construction Engineer

COPIES: Charles Goodman, Archie Montgomery, Bill Domico, Robert Robertson,
Larry Sessions

SUBJECT: POST-TENSIONING GROUTS

The Department recently mandated the use of a new specification for post-tensioning grout. At present, only Master Builders GS 1205 cable grout complies with our new grout specification. The following companies are developing products for this market: *Euclid Chemical; 5 Star Products; DSI Post-Tensioning.*

The bulk market (truckload) price for these products is approximately \$15.00 for a 55 lb. bag.

As soon as new products are approved by the Materials Office, a memo will be sent out to you with the approved product information.
