THIS MEMO HAS EXPIRED

MEMORANDUM NO: 17-02

TO: DISTRICT CONSTRUCTION ENGINEERS

FROM: Greg Xanders, State Construction Engineer *Inamitrosad*

COPIES: Bob Burleson-FTBA, Jim St. John-FHWA

SUBJECT: DESIGN-BUILD – PAYMENT FOR REPLACEMENT OF VEHICULAR ATTENUATORS

In order for the sub-article 7-10.4 included in the Design-Build contracts to be consistent with sub-articles 102-8.6 (temporary attenuators) and 544-4 (permanent attenuators) of Standard Specifications, please process a \$ 0.00 specification change to delete sub-article 7-10.4 and replace with the following:

7-10.4 Traffic Signs, Signal Equipment, Highway Lighting and Guardrail: Protect all existing roadside signs, signal equipment, highway lighting, and guardrail, for which permanent removal is not indicated, against damage or displacement. Whenever such signs, signal equipment, highway lighting, or guardrail lie within the limits of construction, or wherever so directed by the Engineer due to urgency of construction operations, take up and properly store the existing roadside signs, signal equipment, highway lighting and guardrail and subsequently reset them at their original locations or, in the case of widened pavement or roadbed, at locations designated by the Engineer.

The Contractor is responsible for any repairs, replacement, etc., for such temporary and permanent features and shall not be entitled to any compensation.

This memo serves as a blanket approval to process a specification change and should be attached as back-up documentation.

If you have any questions, please feel free to call David Sumner at 850-414-4198 (sc 994-4198).
