**SUBJECT: CHANGES TO MATERIAL IDS FOR AGGREGATE BASE**

This memo details the changes to the Laboratory Information Management System (LIMS) and Sample Testing and Reporting Guide (STRG). The goal of these changes is to unify the various aggregate base materials into one material ID.

For projects let after September 22, 2008, the STRG will list requirements for aggregate base materials under 032F (Field Testing) and 032L (Lab Testing).

If you have any questions, please contact Ben Watson in the State Materials Office at (352) 955-2935 or Sastry Putcha in the State Construction Office at (850) 414-4148.
