

Print TSO Estimate using WEB Trns*port interface or Mainframe interface

There are three different ways to run the TSO estimate for monthly estimates now. All three end up at essentially the same end point.

The three ways to run the estimate are:

1. From the Infonet
2. From inside of SiteManager
3. From Mainframe TSO session

From the Infonet, launch the "[Enterprise Applications](#)" function.

Scroll down towards the bottom of the page and look for the "[Trns*port](#)" function.

Click on it and you move to the next screen. This screen requires you to have a RACF user ID and password. This user ID and password is the same one you

log into the FDOT Mainframe system to run the TSO Estimate there. This will be required by any of the three methods listed in the beginning.

By logging on to a FDOT system, you acknowledge your responsibility to comply with all laws, rules, directives, policies, and procedures related to the use and security of information technology resources. Unauthorized use is strictly prohibited. You are hereby on notice that you should have no expectation of privacy as to your use of Department information technology resources as all data is potentially subject to Florida's public records law.

Sel	Job #	Name	Status	Started	Finished	Elapsed	Output
<input type="checkbox"/>	3861	SIMBJSPayEstimateSubmittal	Ended	07/22/11 10:31 AM	07/22/11 10:32 AM	00:00:23	T3276_SIMPayEstimate.pdf

You may have to click on the refresh button a couple of times for the Output file name field to populate and turn blue. Some larger estimates may take 1, 2, or 3 minutes. This estimate ran in 23 seconds.

The more estimates you select to run, the longer times you will have to wait. When you click the output file, you should see a pdf file of your estimate already formatted.

To save, click on File/Save As and select PDF format.

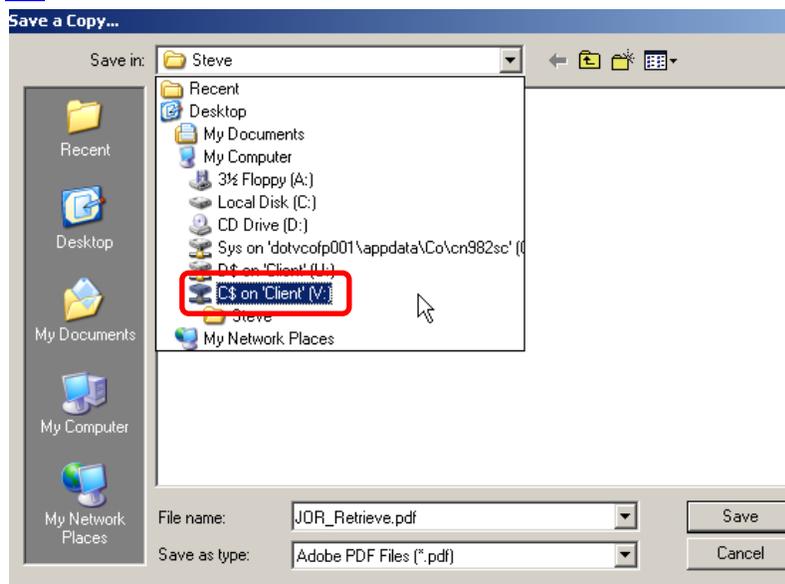

You can then save the file where you

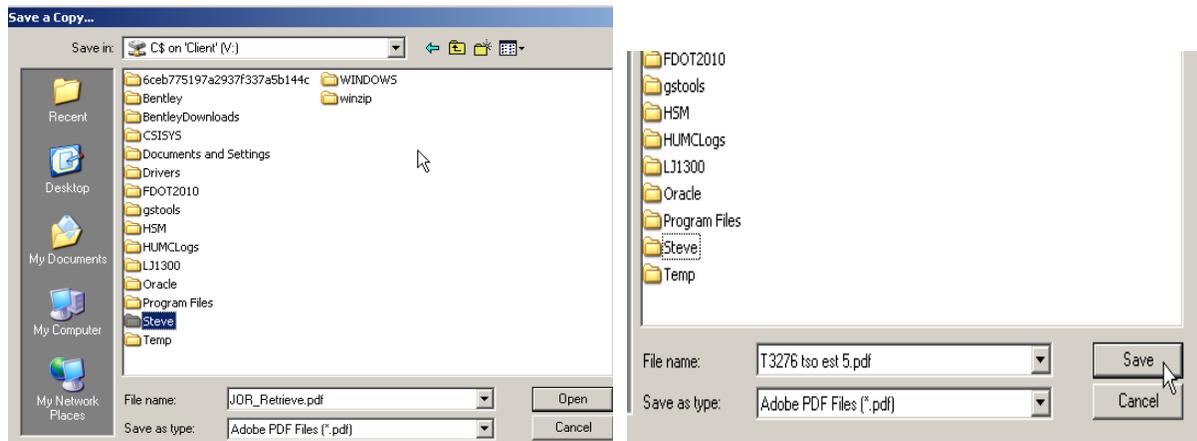

want it.

If you run this application through SiteManager or Citrix, then your "Save As" screen will look a little different.

The drives A, C, and D are located on the Citrix server farm. You need to select C\$ on 'Client'(V:). That is your local hard drive. You may want to have a folder already set up to download these files. Navigate to that folder and give the file a name you can come back to and know what it is.

Click on the **Save** button and then you're good to go. You can move it to where you need it or send it where you need it.

To run the TSO estimate from SM, you need to be able to see the [Accessories](#) icon on the main panel. If you can't, please contact Steve Carter at 850-414-4251.

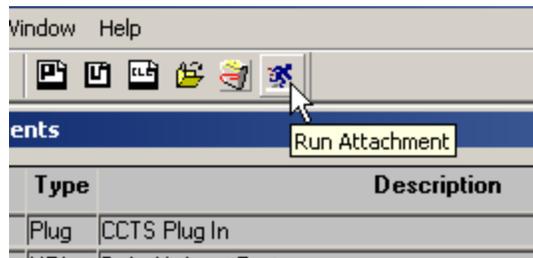

Open up the Accessories box by double clicking on the icon. To the right side of the screen you should see the Systems Attachments icon.

Open up the System Attachments icon and the following screen should come up. This is a list of all the attachments that can be accessed from inside the SM application. You may not be able to see all of them, but the one you need has the name [Pay Estimate](#). The description is the *Mainframe SiteManager Pay Estimate Report PESPJ11*.

Name	Type	Description	Aut
CCTS Plug In	Plug	CCTS Plug In	<input type="checkbox"/>
DGBINFONET	URL	Dales' Infonet Test	<input type="checkbox"/>
DataQualUpdate	Plug	Data Quality Updating	<input type="checkbox"/>
SIM Web Reports	URL	SIM Web Reports	<input type="checkbox"/>
MMS	Plug	Maintenance MMS	<input type="checkbox"/>
CopyContract	Plug	Maintenance CopyContract	<input type="checkbox"/>
