SUBJECT: SPECIFICATION 710-9.1 REVISION

The Department has revised Standard Specification **710-9.1 Submittal Instructions**, which clarifies the submittal process for certification of quantities for Lump Sum pay item 710-90, Painted Pavement Markings (Final Surface). The revised language was implemented in January 2018 and is as follows:

710-9 Submittals.

710-9.1 Submittal Instructions: Prepare a certification of quantities, using the Department’s current approved form, for each project in the Contract. Submit the certification of quantities and daily worksheets to the Engineer. For Lump Sum pay item 710-90, document the quantity as an estimated percentage (in decimal form) of the total lump sum amount on the daily worksheet. The Department will not pay for any disputed items until the Engineer approves the certification of quantities.

This memorandum serves as a blanket approval to process a \$0.00 contract change to use the new 710-9.1 specification language and should be attached to the Work Order or Supplemental Agreement for all active contracts that include the pay item 710-90.
