**DCE MEMORANDUM NO. 22-11**  
*(FHWA Approved 7-18-22)*

**TO: DISTRICT CONSTRUCTION ENGINEERS**

**FROM:** Tim Lattner, P.E., Director, Office of Construction FOR TIM

DocuSigned by:

A handwritten signature in blue ink that reads "Ashley Anderson".

47050742AE004DA...

Lattner, P.E.

**COPIES:** Dan Hurtado, Ananth Prasad (FTBA), Mark Musselman (ACAF), Mark Clasgens (FHWA), Ashley Anderson

**SUBJECT: STEEL SIGN STRUCTURES AND MAST ARMS MATERIAL PRICE INDICES**

Due to recent volatility in prices of steel sign structures and mast arms materials beyond what the Contractor could have historically anticipated at the time of bid, the Department, at the request of the Contractor, will process a \$0.00 specification change to provide for indexing for steel sign structures and mast arms as provided for in the attached modification to Specification Section 9-2.

For active construction contracts, the Contractor has up to six weeks from the date of this memo to request or decline adoption of the attached specification. If the Contractor submits such a request, material price adjustments shall be made retroactively from the beginning of the contract through final acceptance to produce a cost adjustment which will be applied to the last estimate prior to final acceptance. This adjustment will be calculated by comparing the applicable Index value at the time of letting to the Index value at the time of invoiced material acquisition for new steel sign structures and mast arms materials that are permanently incorporated into the project. The Contractor must submit Contractor Certification of Quantities for all applicable materials purchased. The Contractor must submit a Certification of Quantities for each month prior to the date of this memo and monthly thereafter through the completion of the project. Contractor Certification of Quantities are attached to this memo.

If the Contractor requests to adopt the attached specification into a given contract, the specification shall apply to all pay items listed in the attached Contractor Certifications of Quantities for the entire duration of the contract, from beginning to end. If the Contractor declines adoption of the attached specification, the Contractor shall provide a written Certification that any applicable subcontractors have been notified of this memo and made aware of the Contractor's decision.

The following conditions apply:

1. Material Price Adjustments will not be made for materials which were purchased prior to award of the contract.
2. Materials must be stored in locations accessible for inspection by the Department per Section 9-5.5 of the Specifications.
3. Any materials receiving an adjustment must be incorporated into the specific contract on which material price adjustments are made.
4. The material must be approved as meeting applicable specifications.
5. For material purchased by subcontractors, the unit price will be the subcontractor unit price as submitted on the accepted Form 700-010-36, Certification of Sublet - Schedule "A".  
Material price adjustments are not eligible for Contractor markup.
6. For material purchased by the prime contractor, the unit price will be the bid unit price or, the unit price reflected in the accepted contract schedule of values for design build contracts.
7. The contractor is responsible for ensuring quantities are clearly identified on the invoices per the attached specification. In some cases, the quantity submitted on the Contractor Certification of Quantities will not match the invoice quantity.
8. Adoption of this Specification will apply to all pay items listed in the attached Certifications of Quantities and will cause adjustments to be made to steel sign structures and mast arms. Contractors may not elect to apply this Specification to one pay item, but not others.
9. For contracts which had previously been approved to receive steel tariff compensation in accordance with the attached June 12, 2018 letter, the Contractor must notify the Engineer within six weeks from the date of this memo to either request adoption of the attached specification or, continue to participate in steel tariff compensation. Adoption of the attached specification will remove eligibility for steel tariff compensation in accordance with the attached letter. No contract may participate in both steel tariff compensation and the attached specification.
10. Additional project specific guidance for MPAs can be found on the Department's website:  
<https://www.fdot.gov/construction/material-price-adjustment>

Construction contracts with letting dates between January 1, 2016 and June 30, 2021 are eligible to participate in this memo. Contracts final accepted on or before the date of this memo are not eligible to participate in this memo.

Payment adjustments shall be coded as Federal-aid non-participating using the appropriate the Line-Item Adjustment Type in SiteManager:

- Material Price Adjustment Steel – MPAS

**This memorandum serves as blanket approval to process a \$0.00 contract change to incorporate the attached specification and should be attached to the Work Order or Supplemental Agreement.**

If you have any questions, please contact Ashley Anderson, P.E. at 850-414-4184 or by email at [Ashley.Anderson@dot.state.fl.us](mailto:Ashley.Anderson@dot.state.fl.us).

## MEASUREMENT AND PAYMENT

ARTICLE 9-2 is expanded by the following:

**9-2.1.4 Material Adjustments for Steel Sign Structures and Mast arms:** The Department will make price adjustments for steel sign structures and mast arms materials included in the list of Pay Items attached to DCE Memo 22-11 in accordance with the following procedures.

Prepare separate Contractor's Certification of Quantities for each material invoice month using the Department form for Material Price Adjustment attached to DCE Memo 22-11. Submit certifications for materials purchased prior to the date of incorporation of this specification within 60-days of incorporation. Submit certifications for subsequent estimate periods to the Engineer no later than Twelve O'clock noon on Monday after the estimate cut-off or as directed by the Engineer, based on the quantity of each material purchased within the estimate period. Material certifications reflecting quantities beyond the final contract quantity shall not be accepted. Ensure each certification includes the Contract Number, Financial Project Identification (FPID) Number, Certification Date and Number, the period the certification represents, and the quantity represented by each invoice for each pay item. Submit material invoices with each certification and clearly identify the following:

- a. Pay Item Number
- b. Certification Quantity
- c. Invoice Number
- d. Invoice Date
- e. Invoice Quantity
- f. Invoice Unit Price
- g. Invoice Total

On Contracts with an original Contract Time of more than 120 days, the Department will adjust the unit price to reflect increases or decreases in material costs from those in effect during the month in which bids were received. The contractor will not be given the option of accepting or rejecting these adjustments. Price adjustments will be made only when the invoice month material price index (IMP) varies by more than 5% from the price index prevailing in the month when the bids were received (BMP), and then only on the portion that exceeds 5%.

The Department will use factors to determine the percentage of unit price applicable to material only.

Price Adjustments will be based on the USDOL monthly Producer Price Index (PPI). The Material Price indices will be available on the Construction Office website before the 15<sup>th</sup> of each month at the following URL: <https://www.fdot.gov/construction/material-price-adjustment>

Payment on progress estimates will be adjusted to reflect adjustments in the prices for steel sign structures and mast arms materials in accordance with the following:

$$\text{\$ Adjustment} = (\text{quantity})(\text{unit price})(\text{material factor})(\text{ID})$$

Where ID = Index % Difference =  $[\text{IMP} - 0.95(\text{BMP})] / \text{BMP}$  when the IMP has decreased between the month of bid and the month of material invoice.

Where ID = Index % Difference =  $[\text{IMP} - 1.05(\text{BMP})] / \text{BMP}$  when the IMP has increased between the month of bid and the month of material invoice.

A line-item adjustment will be made on the last progress estimate prior to the final estimate to each applicable pay item to reflect the cumulative value of all Contractor Certification of Quantities submitted throughout the duration of the contract.

Adjustments will be paid or charged to the Prime Contractor only. Any Contractor receiving an adjustment under this provision for work performed by a subcontractor shall distribute such adjustment to subcontractors who perform applicable work.

The Department reserves the right to audit the Contractor's records pertaining to the material certifications submitted for this Contract.

## Steel (Sign Structures and Mast Arms) Price Adjustment Worksheet

Worksheet No.		Base Index	Month/Year	Material Index
Contractor:				
Financial Project ID:			Current Index
