Topic No.: 375-020-010-g

RESOLUTION OF ERRORS, OMISSIONS, AND CONTRACTUAL BREACHES BY PROFESSIONAL ENGINEERS ON DEPARTMENT CONTRACTS

Authority

Florida Statute §20.23(3)(a) - The central office shall establish departmental policies, rules, procedures, and standards and shall monitor the implementation of such policies, rules, procedures, and standards in order to ensure uniform compliance and quality performance by the districts and central office units that implement transportation programs. Major transportation policy initiatives or revisions shall be submitted to the commission for review.

Florida Statute §334.048(3) - The central office shall adopt policies, rules, procedures, and standards which are necessary for the department to function properly including establishing accountability for all aspects of the department's operations.

Benefit/Cost Analysis Guidelines

ERRORS & OMISSIONS GUIDELINES AND FORMS

Figure D.2 – Benefit/Cost Determination (Debatable Issues)

Purpose

To establish a procedure related to Consultant errors, omissions, and contractual breaches (collectively referred to as “E&O”) that addresses the following activities:

- (a) Identify, investigate, and document E&O in Consultant -prepared construction plans and contract documents, or in the performance of Consultant Construction Engineering and Inspection (CEI) services on Department contracts;
- (b) Determine and document the extent of Consultant responsibility for the premium cost of plan revisions and certain added construction costs or claims resulting from Consultant E&O; and,
- (c) Recover premium costs resulting from Consultant E&O.

Scope

The principal users of this procedure include the following:

- Department's Chief Engineer
- Director of Transportation Development (DTD)
- Director of Transportation Operations (DTO)
- District Consultant Project Management Engineer (DCPME)
- District Design Engineer (DDE)
- Design Project Manager (DPM)
- District Errors and Omissions Liaison (EOL)
- District Construction Engineer (DCE)
- Construction Project Manager (CPM)
- Construction Engineering and Inspection (CEI) Personnel
- Office of Comptroller (OOC)
- Office of General Counsel (OGC) Legal Counsel

Definitions (1/8)

Avoidability Code: Construction changes are designated (coded) as Unavoidable and Avoidable. This procedure addresses the designations Avoidable 1 (Production Consultant), and Avoidable 3 (Consultant CEI).

Construction Change Tracking System (CCTS): A function within the SiteManager PrC Construction Management System that contains information on all contract changes such as type of change (e.g., Supplemental Agreements, Work Orders, Time Extensions) cost of change, responsible party and premium cost.

Construction Plans and Contract Documents: Consultant-prepared plans and contract documents as contracted by the Department and defined in the professional services agreement.

Definitions (2/8)

Contractual Breach: Failure to perform or comply with contractual obligations.

Cost Claim: The claim against the Consultant for premium cost recovery. The Cost Claim is based on the Consultant's premium cost responsibility as determined by the Project Manager in the Stage 3 Assessment (E&O Premium Cost). The Cost Claim may later be modified by the Director or the Chief Engineer based on their evaluation.

Engineer's Estimate: The estimate of the cost and time impacts to the Contractor caused by a contract change without regard to whose fault the contract change is or the percentage of those cost and time impacts the Contractor may be entitled to recover. For each contract change issue, the Engineer's Estimate will show the pay items involved along with quantities, unit prices, any time impacts, and the basis for the estimate.

Definitions (3/8)

Entitlement Analysis: A document, **signed and dated** by the preparing **Project Administrator or Engineer**, containing statements as to **each issue** of a contract change, **detailing the reasons** (with specific contract references when appropriate) **why the Contractor is or is not entitled to recover the time and cost impacts** identified in the Engineer's Estimate. If some of the time or cost impacts determined in the Engineer's Estimate are the responsibility of the contractor, the Entitlement Analysis for each issue must include a **numeric percentage of those cost and time impacts** for which the reasons previously detailed justify the Contractor's entitlement. Each contract change issue must include all the pay items associated with that issue.

Definitions (4/8)

Errors and Omissions (E&O): Acts of **negligence** committed by the **EOR** in the performance of **engineering design service or creative work**, and acts of **negligence** committed by **CEI** in the performance of construction engineering **inspection services**. For this procedure, the term “E&O” also includes contractual breaches.

Negligence: As stated in Rule [61G15-19.001\(4\)](#), Florida Administrative Code: “A professional engineer shall not be negligent in the practice of engineering. The term negligence set forth in Section [471.033\(1\)\(g\)](#), F.S., is herein defined as the **failure by a professional engineer to utilize due care** in performing in an engineering capacity or **failing to have due regard** for acceptable standards of engineering principles.”

Definitions (5/8)

Premium Costs: The additional cost of a contract change that would not have been incurred if the work had been included in the original contract. More specifically, premium costs are dollar amounts paid for non-value-added work. Delays, inefficiencies, rework, or extra work as follows, other than those caused by the Department, the contractor and/or subcontractors or suppliers, will be considered as non-value-added work. Non-value-added work can occur in three distinct situations:

- (1) **Work delays or inefficiencies.** The premium costs are the total delay/ inefficiency damages paid to the contractor.
- (2) **Rework.** The premium costs are the dollar amount of the original items of work that must be removed and the costs to remove these items.
- (3) **Extra work.** The premium costs are computed as the net difference between the final agreed prices paid to the contractor and the Engineer's Estimate — what the cost would have been had the extra work been included in the original bid at letting.

Definitions (6/8)

Premium Costs:

Premium costs associated with EOR and CEI **E&O** are **Federal-aid Non-Participating**. Determination of Federal-aid participation in changes to the Department's construction contracts must be in accordance with the [Federal Aid Policy Guide 23, Section 635.120](#), Code of Federal Regulations.

Errors and Omissions

Definitions (7/8)

Project Suite Enterprise Edition (PSEE): A **web-based** Enterprise **Application** developed for **project management**.

Request for Information (RFI): A **written document** initiated by the **Contractor** that is submitted to the **Project Administrator for coordination** with the Department and others on a response to any of the following issues:

- **Interpretation** of a contract document provision
- **Error, omission, or conflict** in the contract documents
- Pay **adjustment or entitlement**

Definitions (8/8)

Resolution Tracking Module (RTM): A **module of PSEE** used to **track** and **document the resolution** of project E&O issues.

Responsible Charge: As stated in Rule **61G15-18.011(1), Florida Administrative Code:** “Responsible Charge” shall mean that degree of **control an engineer** is **required to maintain** over engineering decisions made personally or by others **over which** the engineer exercises **supervisory direction and control** authority.”

Services In Kind: **Services** provided by a consultant, **in lieu of money,** as restitution **for premium costs** resulting from an E&O Issue.

Responsibilities (1/4)

Construction Engineering and Inspection (CEI): All references to CEI within this procedure refer to a **consulting engineering firm**, holding a **certificate of qualification**, and under **contract with the Department** to perform **CEI services** on a construction project.

Construction Project Manager (CPM): The **Department employee** who **manages the Consultant CEI** contract for a construction project.

Consultant: **Engineering entity** under contract with the Department to **provide engineering services**.

Consultant Project Administrator (CPA): The **Consultant employee** who **manages** more than one aspect of the **construction** or is responsible for **administration** of the project CEI.

Responsibilities (2/4)

Contractor: The individual, firm, joint venture, or company contracting under contract with the Department to perform the work.

Department: The Florida Department of Transportation (FDOT).

Department Project Manager (PM): The Department employee serving as the Design Project Manager (DPM) for Design Consultant (EOR) E&O issues or the Construction Project Manager (CPM) for Construction Consultant (CEI) E&O issues.

Design Project Manager (DPM): The Department employee who manages the Consultant design or post-design services contract related to a construction project.

Responsibilities (3/4)

Director: The District Director of Transportation Development (DTD) for Design Consultant (EOR) E&O issues or the District Director of Transportation Operations (DTO) for Construction Consultant (CEI) E&O issues.

Engineer of Record (EOR): As stated in Rule [61G15-30.002\(1\)](#), Florida Administrative Code: “A Florida professional engineer who is in responsible charge for the preparation, signing, dating, sealing and issuing of any engineering document(s) for any engineering service or creative work.” All references to the EOR within this procedure refer to a professional consulting engineer under contract with the Department to provide design or post-design services.

Responsibilities (4/4)

Errors and Omissions Liaison (EOL): The **District employee** who is **responsible for coordinating** with DPM and CPM in **tracking and resolution** of E&O issues.

Project Administrator (PA): The **Department employee** who is responsible for the **everyday construction activity** of the project **under** the direction of the **Resident Engineer/Senior Project** Engineer.

Procedure

1. GENERAL (1/2)

The Department employs professional consulting engineering firms to provide design or CEI services (collectively referred to as “Consultant”). These Consultants are accountable for the technical accuracy and quality of their work. As a result of Errors and Omissions (E&O) in Consultant-prepared construction plans, contract documents, or during CEI project administration, cost and time overruns may occur on a construction project resulting in contract modifications, premium costs and a claim against the Consultant.

Procedure

1. GENERAL (2/2)

When further **evaluation indicates** that the project issue **may be due** to Consultant **E&O**, it becomes a **potential E&O issue**. Such issues may require **design revisions, contract modifications or result in financial losses** to the Department. Use of this **procedure begins upon Discovery** of a project issue that is a potential Consultant E&O issue. Discovery begins the E&O process and **starts the clock for the Statute of Limitations**.

Procedure

1.1 E&O PROCESS OVERVIEW (1/6)

All references to E&O within this procedure includes errors, omissions and contractual breaches.

As stated in Section [337.015\(3\)](#), F.S., ...“the Department shall **vigorously pursue claims** against contractors and consultants for time overruns and substandard work products”. Recovery of E&O Premium Costs must be pursued **regardless of dollar amount**. The Department Project Manager **(PM)** may also consult the Office of General Counsel **(OGC)** to assist with prosecuting the recovery of these costs. If it is determined that a project issue was **caused by a Consultant E&O**, the Department **must not compensate** the Consultant for consultant services associated with the project issue (even if there were no Premium Costs).

Procedure

1.1 E&O PROCESS OVERVIEW (2/6)

At any time during this process, the Consultant may accept responsibility for an E&O issue and offer to settle with the Department. In these cases, the Department and the Consultant will enter settlement negotiations. If the terms of the settlement are agreed upon by both parties, the OGC in consultation with the DDE (for EOR issues) or DCE (for CEI issues), will prepare and execute the Settlement Agreement. The Settlement Agreement must be signed by the Department (Director level or above, or authorized signature authority) and the Consultant (Officer designated in SunBiz.org or authorized signature authority).

Procedure

1.1 E&O PROCESS OVERVIEW (3/6)

At any time after the **E&O Notification Letter** is sent to the Consultant, the Department may determine that the **Consultant is not responsible** for an E&O issue or the **Consultant may decide to settle** the dispute by issuing payment. In these cases, the **PM must document** the resolution by completing the **E&O Closeout Letter** explaining the **reasoning** for the Department's determination. Include **complete documentation** to fully substantiate the Department's position.

Procedure

1.1 E&O PROCESS OVERVIEW (4/6)

If it is **determined** that a project issue was caused by **Consultant E&O**, any Department **decision to not pursue** recovery of those E&O Premium Costs must be **justified and documented** by conducting a **Benefit/Cost (B/C) Analysis** ($B/C \geq 1$). The **Errors and Omissions – Benefit/Cost Analysis Evaluation Guidelines** have been developed for use in these cases. If after an issue is evaluated by the **Director or Chief Engineer** and the decision is made to **not pursue** recovery on the issue any further, a **B/C Analysis is not required** (however, the Department PM must still document the decision in the **E&O Closeout Letter**).

Procedure

1.1 E&O PROCESS OVERVIEW (5/6)

If recovery **efforts are terminated** by the Department, and the issue was determined to **not be due to Consultant E&O**, the Department will **compensate the Consultant** for consultant **services associated** with resolving the project issue. If recovery efforts are terminated by the Department, but the issue was determined to be **caused by Consultant E&O**, the Department **will not compensate** the Consultant for consultant services associated with the E&O issue.

Procedure

1.1 E&O PROCESS OVERVIEW (6/6)

All **actions assigned** to specific Department personnel by this procedure are required to be **conducted by** or otherwise **reviewed and approved** by a Professional Engineer **(PE) in responsible charge** of the non-PE who was assigned the action.

Procedure

1.2 TRACKING AND DOCUMENTATION (1/2)

To ensure communication among disciplines and provide prompt response to management inquiries, each DDE must establish a central point of contact – the District E&O Liaison (EOL) – to be responsible for the resolution status of E&O issues. Each EOL must coordinate with the Department PM to ensure that such issues are entered, updated, and resolved in the Resolution Tracking Module (RTM) in PSEE. The EOL must be copied in all correspondence associated with an E&O issue. The Department PM must:

- Document every stage of the E&O resolution process in RTM with sufficient detail to fully inform future audits or inquiries
- Utilize RTM to track and record all information related to the E&O issue
- Keep the E&O issue data in RTM current by entering new information when available and updating fields when necessary

Procedure

1.2 TRACKING AND DOCUMENTATION (2/2)

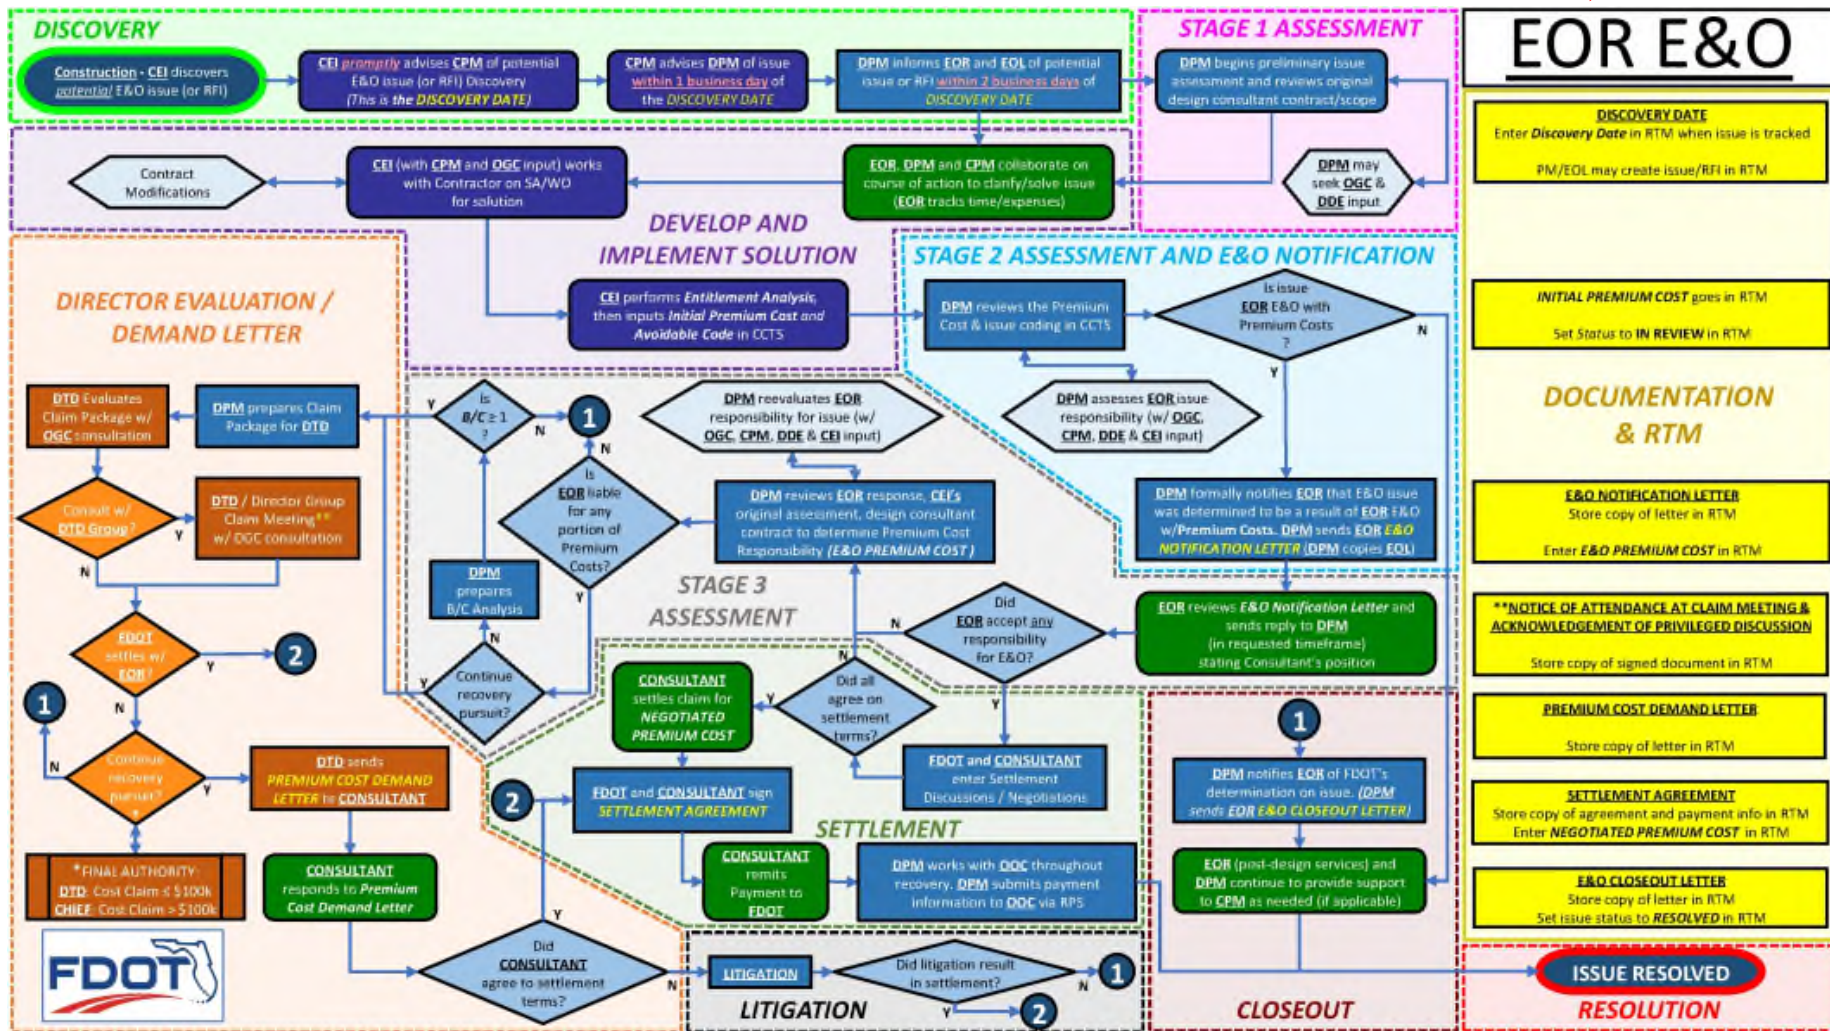

The **District may elect** for the EOL to **assist in managing** E&O issue documentation and tracking in RTM.

All formal documents, which are specifically referred to in this procedure by title (e.g., **E&O Notification Letter**, **Premium Cost Demand Letter**) and sent to an Officer at the Consulting Firm, **must be transmitted** in a way in which **receipt of delivery** is acknowledged (e.g., **DocuSign**, Certified Mail).

The E&O Recovery **files must include** the Consulting **Firm Name**, the Financial Project **Identification Number**, the **Construction** Contract Number, and the applicable **Consultant** Contract Number.

Consultant Errors & Omissions

Procedure

2. DESIGN CONSULTANT (EOR) ERRORS AND OMISSIONS

During the construction phase, project issues may occur that require clarification or evaluation of the construction plans or contract documents. Project issues are generally resolved through a Request for Information (RFI). When further evaluation indicates that a project issue may be due to an error or omission by the Design Consultant (EOR), design revisions or contract modifications may be required. This section applies to E&O related to contract documents produced by a Design Consultant.

DISCOVERY

Construction - CEI discovers potential E&O issue (or RFI)

CEI *promptly* advises CPM of potential E&O issue (or RFI) Discovery
(This is *the DISCOVERY DATE*)

CPM advises DPM of issue *within 1 business day* of the *DISCOVERY DATE*

DPM informs EOR and EOL of potential issue or RFI *within 2 business days* of *DISCOVERY DATE*

Procedure

2.1 DISCOVERY (1/2)

When a project issue is discovered, the CEI (or CPA when there is no CEI for the project) must promptly notify the CPM. The date the issue is discovered is the Discovery Date. If the project issue is ultimately determined to be an EOR E&O issue, the Discovery Date is entered in RTM. The CPM must notify the DPM of the project issue discovery within one business day of the CPM being notified of discovery. Although the notification of discovery to the DPM may be initiated by verbal communication, the notification must be promptly documented in writing.

Procedure

2.1 DISCOVERY (2/2)

The DPM must notify the EOR and EOL of the project issue discovery within two business days of the DPM being advised of discovery with a response deadline indicated. Alternatively, the CPM may include the EOR and EOL in the initial notification of discovery to the DPM. Although this initial notification of discovery to the EOR may be initiated by verbal communication, that verbal communication must be promptly documented in writing to the EOR. The initial written notification of discovery must describe the nature and scope of the project issue, and advise the EOR to separately track their time expended on the resolution of the issue so they may later be compensated for their services if the Department determines the issue was not caused by an EOR E&O.

Discovery – Initial Email Notification

Mailbox, Behls

From: [Redacted]
Sent: Tuesday, October 25, 2022 4:53 PM
To: [Redacted]
Cc: [Redacted]
Subject: Issue: 2022-0018, Discovery of Design Issue (XXXXXXXXXXXXXXXXXXXX) (Method of Compensation – 4" Non-Reinforced Concrete Slope Pavement)

Thank you for the notification and working with the EOR to resolve the 4" non-reinforced concrete slope pavement.

Project [Redacted] **issues have been identified in the referenced contract that require immediate attention.** The Department respectfully requests your assistance to fully evaluate the attached email issue and determine the appropriate course of action to continue contract administration.

Issues of this nature may impact costs and contract time; please give this your immediate and full consideration. Compensation for on-site **participation and any additional engineering services may be billed as post-design services unless the project issues are caused by Errors and Omissions.** **Please track all additional services separately** for potential compensation and submit documentation with each invoice showing all hours and costs incurred addressing this issue.

Thank you for your prompt assistance. Please respond within 15 business days of receiving this email. In your response, please state if you concur that this is a designer error/omission, and if you do not concur, please explain.

Best Regards,

Subject: Discovery of Design Issue (XXXXXXXXXXXXXXXXXXXX) (Method of Compensation – 4" Non-Reinforced Concrete Slope Pavement)

Discovery – Initial Email Notification

Consultant Errors & Omissions

Procedure

2.2 STAGE 1 ASSESSMENT

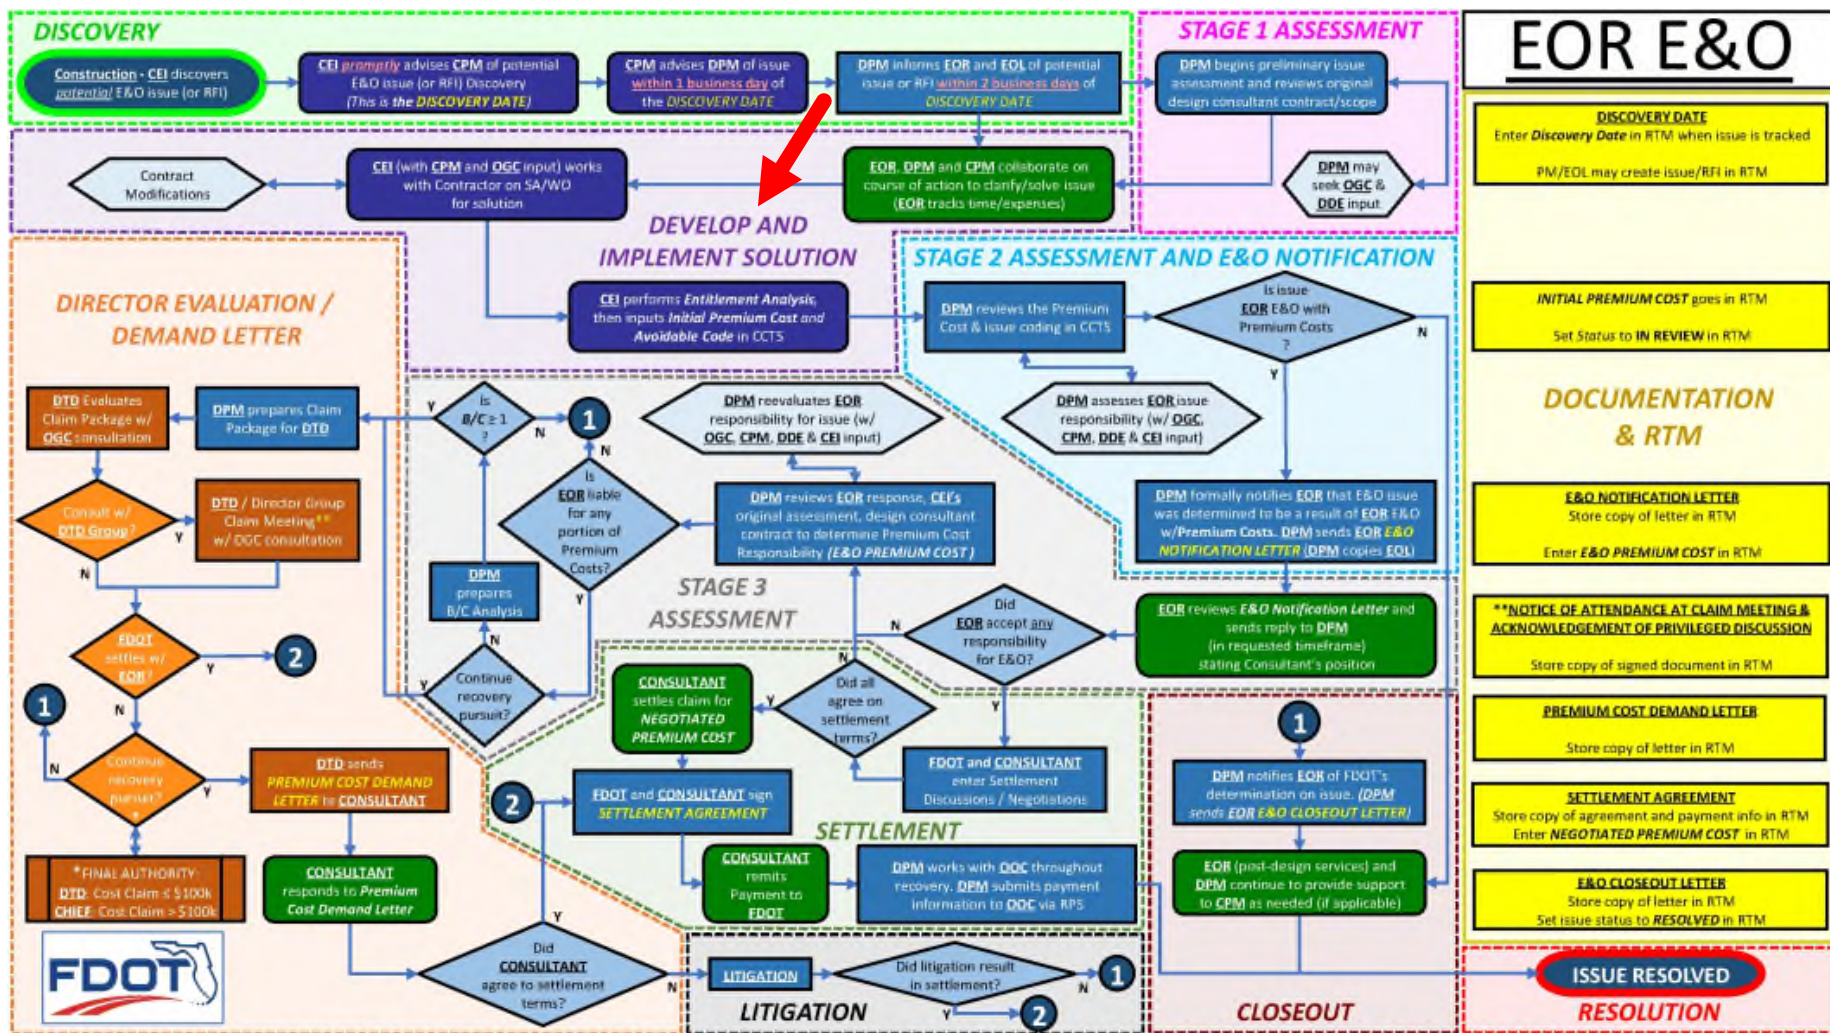

The Stage 1 Assessment is the **DPM's initial assessment** of the project issue to **determine if the EOR** may have **potential liability** for any portion of the issue. This may include a review of the issue details with consideration to the Consultant's **original design scope** and any **relevant correspondence** with the Consultant.

If it is unclear whether a project issue is **a potential EOR E&O**, the DPM should **consult the DDE and the OGC** to assist in this assessment.

If it is determined that the project issue **does not appear** to have been caused by EOR E&O, **or if it is unclear**, the DPM will **further assess** the issue during the **Stage 2 Assessment**.

ISSUE RESOLVED RESOLUTION

*FINAL AUTHORITY:
DTD: Cost Claim < \$100K
CHIEF: Cost Claim > \$100K

Consultant Errors & Omissions

Procedure

2.3 DEVELOP AND IMPLEMENT SOLUTION (1/3)

The **Department and EOR** must continue to **collaborate** on the project issue, and the **CPM and DPM** must determine an appropriate **course of action** for the solution. The EOR may need to provide **revised drawings, cost estimate, calculations, and specification changes** to resolve the project issue.

With DDE, DPM, and CPM approval, the **EOR may work directly** with the **CEI and Contractor** to resolve the project issue, provided the Department incurs **no premium economic or time costs** as a result. If approval is given, the EOR, CEI and Contractor must **include the DDE, DPM and CPM** in all **correspondence** relating to the project issue.

Procedure

2.3 DEVELOP AND IMPLEMENT SOLUTION (2/3)

The DPM must not approve any Consultant invoices for post-design services that include the EOR's time associated with resolving a project issue that is a potential EOR E&O (e.g., site visits, design changes). Such services may only be compensated if it is determined the issue is not an EOR E&O.

Implementation of the solution often results in a construction contract modification through the execution of a Supplemental Agreement (SA), a Work Order (WO), or a Unilateral Payment (UP). The CEI negotiates additional cost and time required to implement the proposed solution with the Contractor. For each SA and WO, the CEI must determine the premium costs associated with resolving the project issue and perform an Entitlement Analysis.

Procedure

2.3 DEVELOP AND IMPLEMENT SOLUTION (3/3)

To ensure an accurate assessment of premium costs, the CEI should prepare the SA, WO, or UP with input from the CPM, OGC, and the Contractor. **Topic No. 700-000-000, Construction Project Administration Manual (CPAM), Section 7.3**, defines the Department's method to initiate, document, and execute SA, WO, and UP documents.

For each SA and WO, the CEI must enter the premium cost amount and assign the initial Avoidability Code in CCTS (with input from the CPM and DPM). For an explanation of the codes involved in a contract modification, see the attachment to **Construction Project Administration Manual Section 7.3** on the State Construction Office website.

Develop and Implement Solution – Entitlement Analysis

SA Entitlement Analysis Form page # 1 of 1

Financial Project No. [REDACTED] Date Prepared: 06/11/2021
 Contract No. [REDACTED] CEI Consultant: [REDACTED]
 Engineer of Record: [REDACTED] Design Project Manager: [REDACTED]
 SA/WO Number: [REDACTED]

Engineer of Record Notification
 Date: 01/05/2021 Email: [REDACTED]
 Contractor's Notice to Proceed: 03/25/2021 [Order Meeting - Meeting Minute](#) [Email Letter-See Attached](#)

Description of Change (attach additional page, if needed)
 Contractor to adjust the pedestrian signal foundation on the NE corner of County Route 92. The work consists of dismantling and setting back side to the SE corner pull boxes and reconstructing pedestrian signal cables, adjusting and setting corner signal pedestrian foundations, setting pedestrian signal cables, raising foundations, forming additional new curb, setting second foundations, removal and replacement of existing and second pull boxes on the NE corner, adjusting grades of the pull boxes on the NE corner, and replacing performance top coat.

Entitlement Analysis (attach additional page, if needed)
 Pedestrian signals were required to be adjusted after the curb returns on the NE and SE corners of [REDACTED] were reconstructed to accommodate the Engineer of Records revised cross walk grades across [REDACTED]. The height to the pedestrian signal push button from the sidewalk was not meeting the 3'-6" height requirement and therefore required adjustments. This is considered extra work in accordance with specification 4-3.2. The labor and equipment tracked for work performed, and the Engineer's actual total cost estimate, is \$8,282.83 including any allowable markups. The Contractor's total requested cost is \$7,612.39 which is less than the Engineer's actual cost estimate; therefore, the Contractor's price has been determined to be reasonable and the Contractor is entitled to \$7,612.39.

Time Extension Analysis - Attach DCE Approval if greater than 30 days or 5% of original contract amount
 Number of days greater: [REDACTED] (more than 30 days or 5%) Yes/No

Premium Cost Analysis - Explanation and Calculation Premium Cost Amount: \$ 7,612.39
 Premium Cost Analysis: The additional cost of a contract change that would not have been incurred if the work had been included in the original contract. When specifically, premium costs are dollar amounts paid for extra work, design, inefficiency, rework, or extra work as shown below. Other than those caused by the contractor or the subcontractors or suppliers, will be considered as non-value added work. Non-value added work can occur in three distinct situations (Reference Guidance Document 7.0-2, page 7.0-20 to 7.0-22 in CPMS).

Premium Reason: [REDACTED] (select. The premium costs are the dollar amount of the original items of work that have to be removed and the costs to replace those items.)
 Basis of Estimate:
 Statement explaining the methods used to compute estimated costs and time associated with the contract change.
 [REDACTED]
 Other: [REDACTED]
 If Other, explain: [REDACTED] (Track actual labor, material, and equipment effort to perform the extra work.)

Reason Codes: [REDACTED] [REDACTED] [REDACTED] [REDACTED]

PA Signature: [REDACTED] Digitally signed by Chris A. Dean Date: 2021.06.01 15:50:11 -0400
 SPERE Signature: Wayne A Woerner Digitally signed by Wayne A Woerner Date: 2021.06.01 11:21:52 -0400

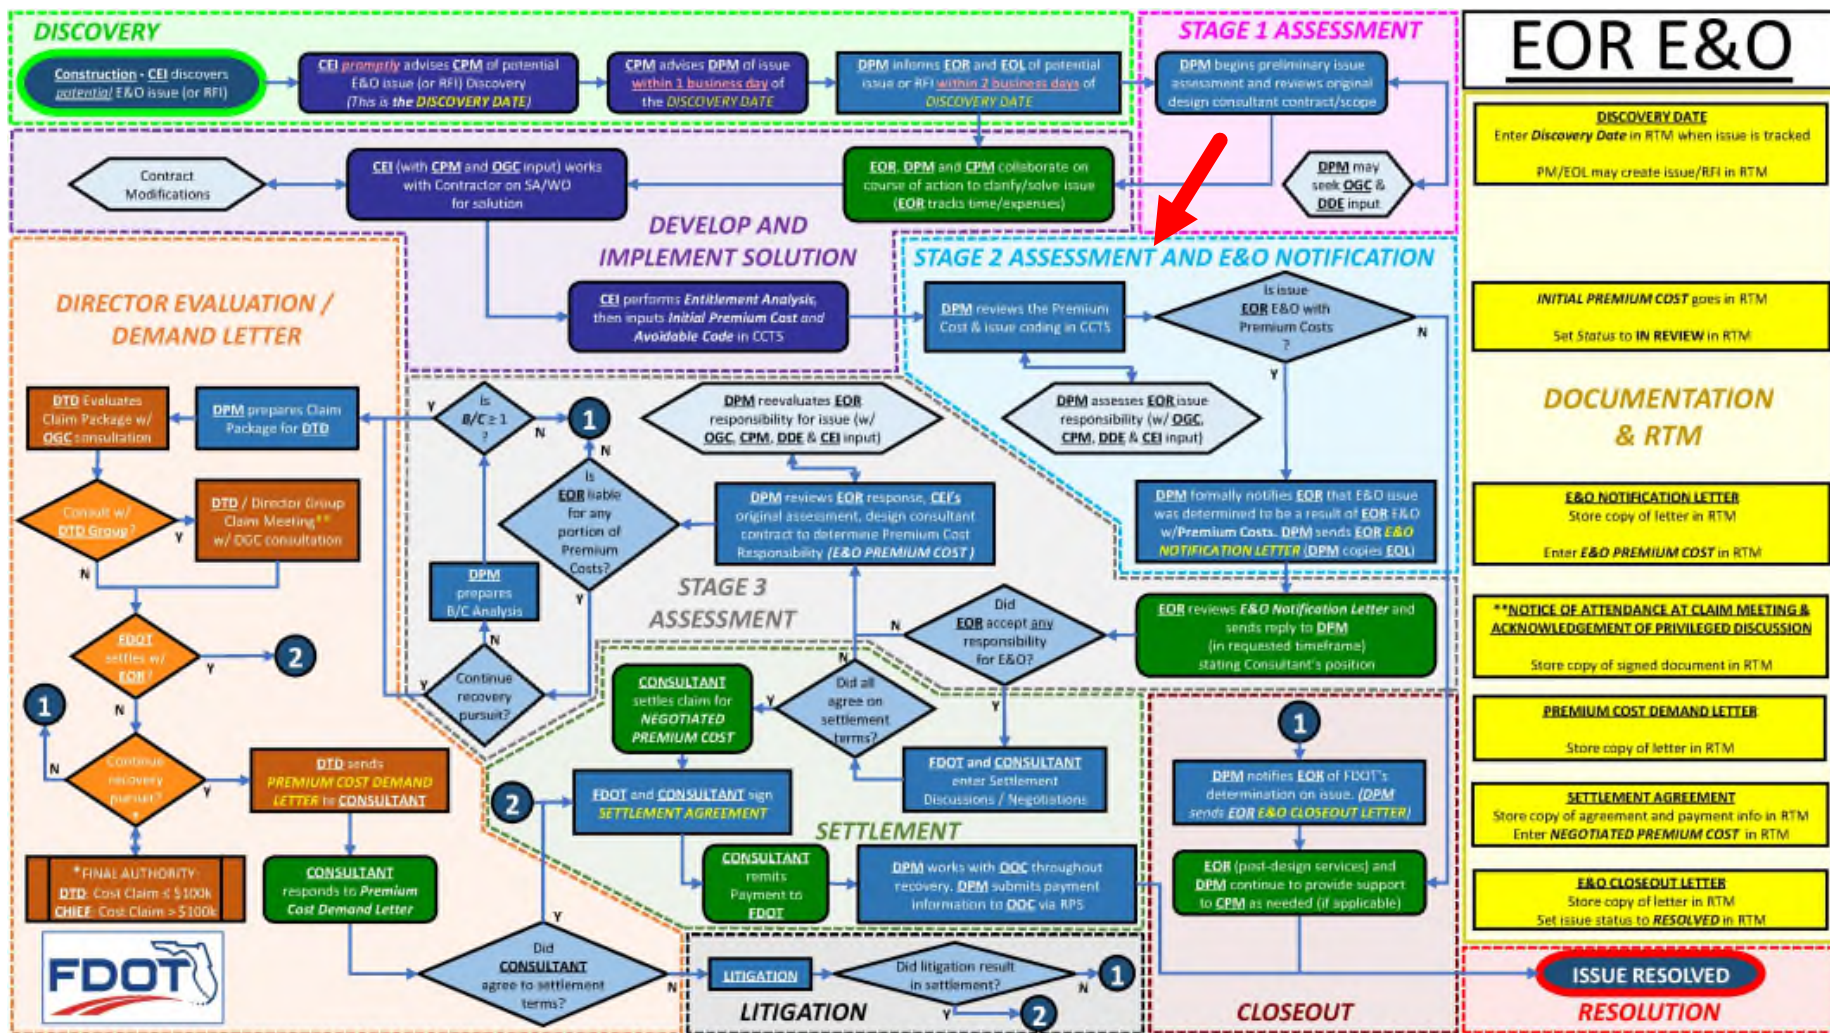

Rev: 03/20/17

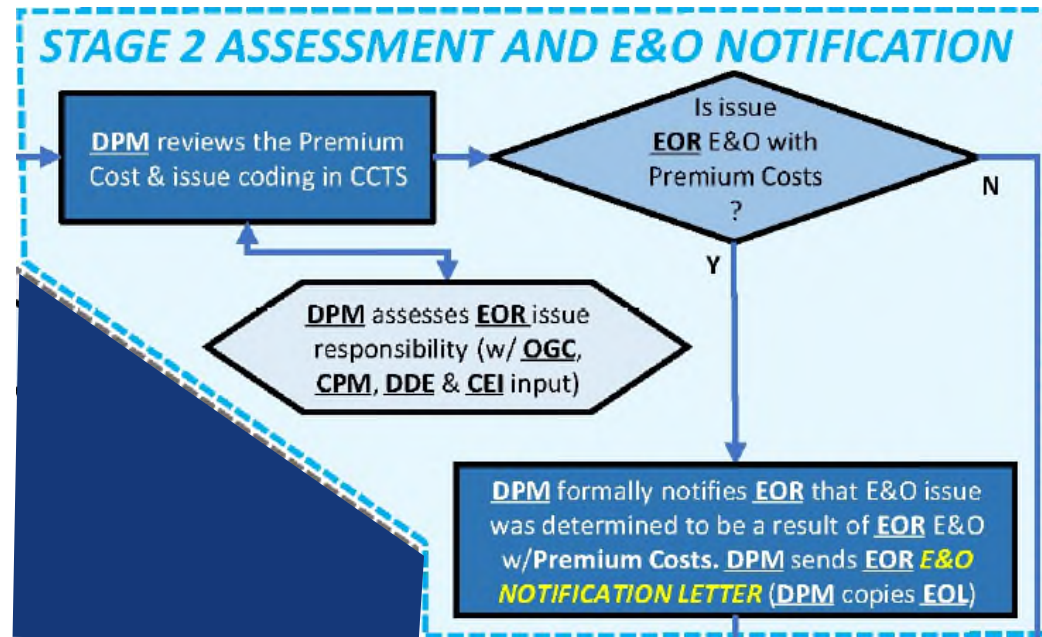

Entitlement Analysis (attach additional page, if needed)

Pedestrian signals were required to be adjusted after the curb returns on the NE and SE corners of [REDACTED] were reconstructed to accommodate the Engineer of Records revised cross walk grades across [REDACTED]. The height to the pedestrian signal push button from the sidewalk was not meeting the 3'-6" height requirement and therefore required adjustments. This is considered extra work in accordance with specification 4-3.2. The labor and equipment tracked for work performed, and the Engineer's actual total cost estimate, is \$8,282.83 including any allowable markups. The Contractor's total requested cost is \$7,612.39 which is less than the Engineer's actual cost estimate; therefore, the Contractor's price has been determined to be reasonable and the Contractor is entitled to \$7,612.39.

Consultant Errors & Omissions

Procedure

2.4 STAGE 2 ASSESSMENT AND E&O NOTIFICATION (1/3)

The Stage 2 Assessment is the **DPM's in-depth assessment** of the project issue to determine what **degree of responsibility or liability the EOR** has for the issue and related premium costs. This assessment takes place **after** **contract modifications** have been made and **premium costs** have been calculated, and includes reviewing the following:

- Contract modification **coding**
- **Entitlement Analysis**
- **Plans and specifications**
- Consultant's original design **contract** and **scope** of services
- Relevant **correspondence** and project-specific information
- Specific **requirements or instructions** the Department imposed on the EOR
- Department **procedures** standards and criteria in effect when the contract was executed

Procedure

2.4 STAGE 2 ASSESSMENT AND E&O NOTIFICATION (2/3)

A project issue may initially appear to be an EOR E&O but subsequently determined to be beyond the EOR's contractual obligations. The DPM should seek legal advice from the OGC and input from the DDE, DCPME CPM and CEI, in assessing the EOR E&O premium cost responsibility.

If the DPM determines that the project issue appears to have been caused by EOR E&O, the DPM must provide the EOR with a formal written notification that describes the following:

- Discovery Date
- Nature and scope of the project issue
- Contract modifications executed to correct the issue
- Department's assessment of EOR E&O premium cost responsibility
- A response deadline

Procedure

*DocuSign
anyone?*

2.4 STAGE 2 ASSESSMENT AND E&O NOTIFICATION (3/3)

This formal written notification is communicated using the **E&O Notification Letter**. The **E&O Notification Letter** also reminds the EOR to separately track their time expended on the resolution of the issue so they may later be compensated for their services if the Department determines the issue was not caused by an EOR E&O.

If the DPM determines that the project issue was not caused by an EOR E&O, the project issue is resolved. The DPM must provide the EOR a written notification of the Department's determination that the EOR is not responsible for the project issue and that the EOR may invoice applicable post-design services. If the issue is being tracked in RTM, the DPM must mark the issue as "Resolved" and document the issue resolution.

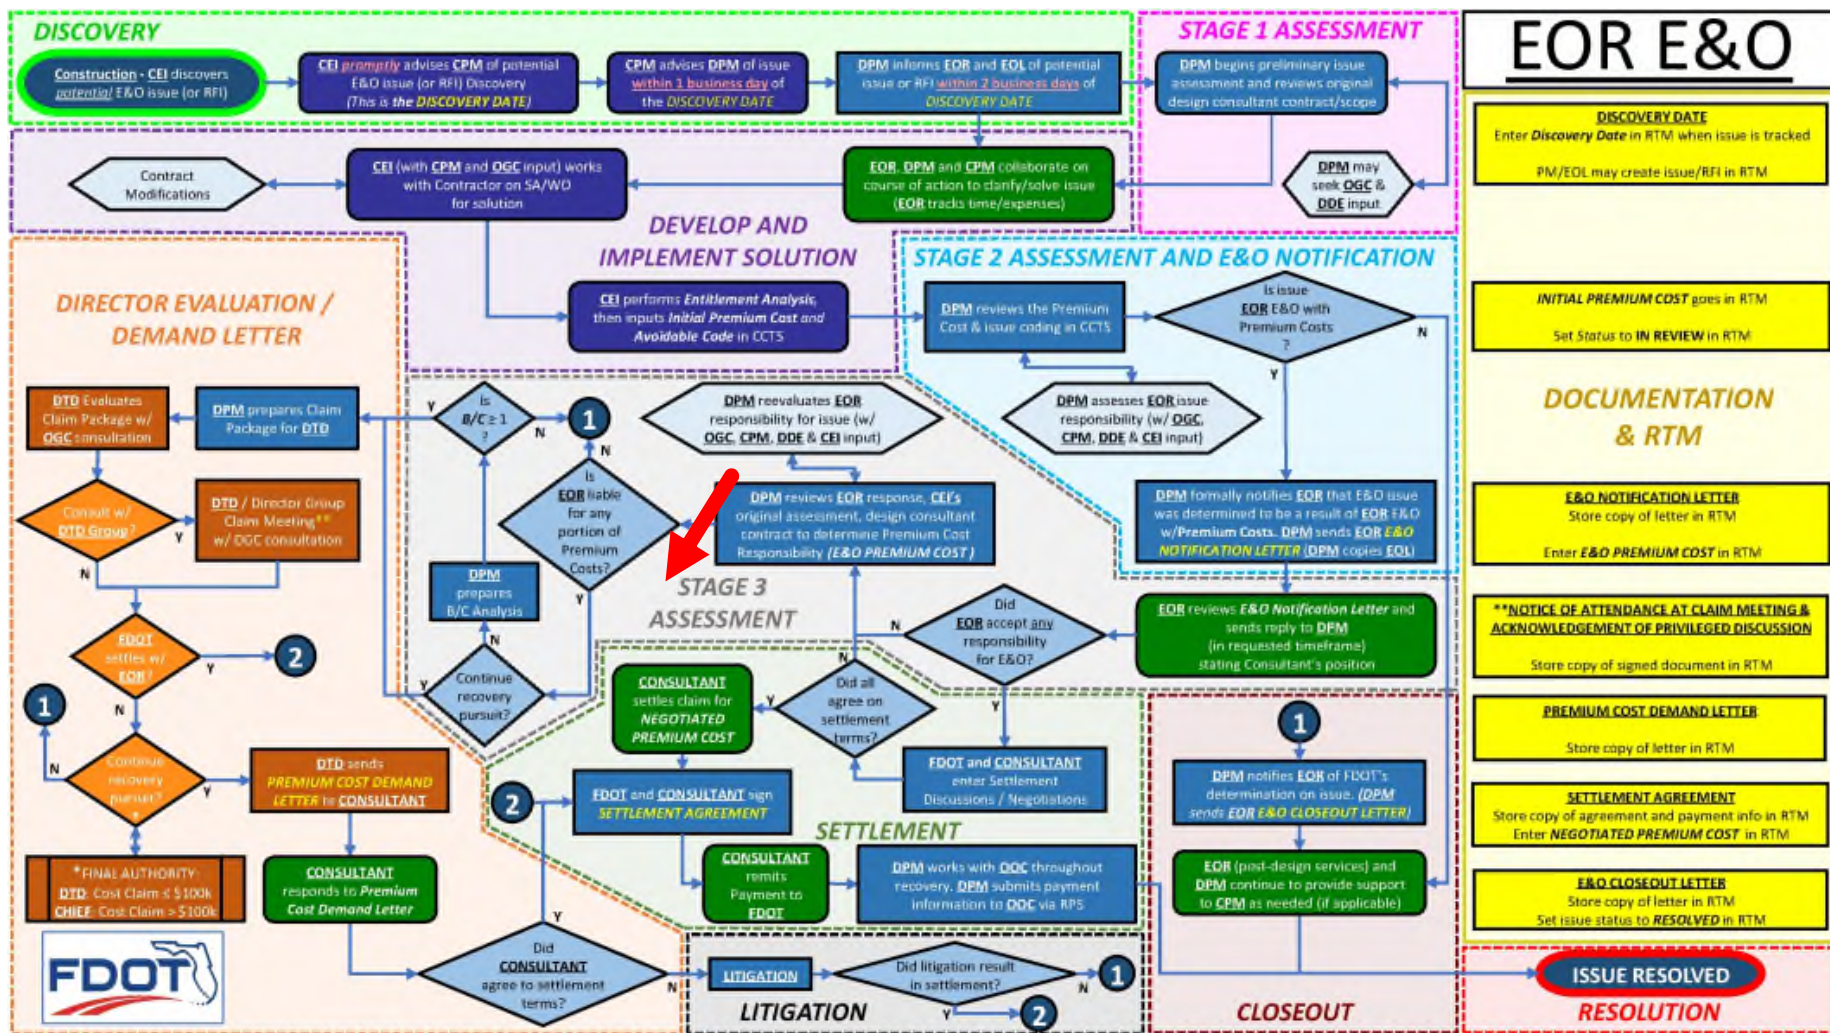

Discovery – E&O Notification Letter

In preparing the referenced **Supplemental Agreement**, the Department determined that premium costs, as a result of your Errors and Omissions in the construction plans and contract documents, exist in the amount of **\$ 87,785.81**. These premium costs **do not add value** to the project and should have been avoided. Further, the Department intends to pursue recovery of these costs.

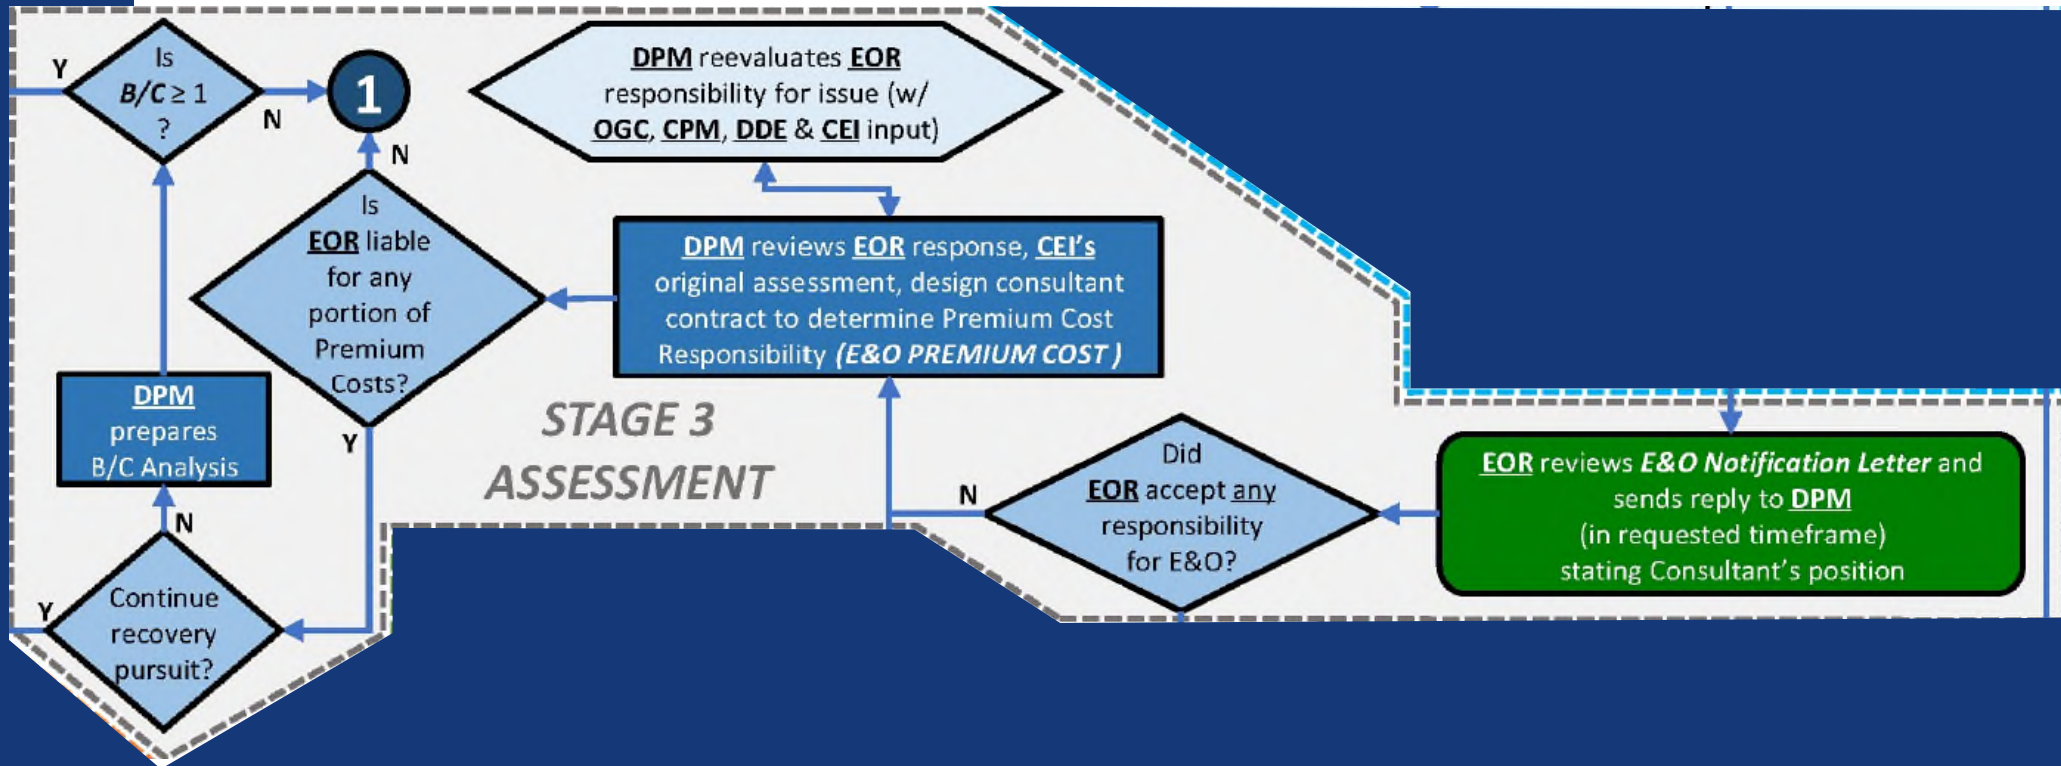

Please respond to this letter within **45 calendar days** and state your position on the Department's assessment of costs and responsibility for the following:

SA-16: In order to **address an error** in the design of sheet pile wall RW-06, the Engineer of Record (EOR) modified and **increased the lengths of the steel sheets** as revised in Plan Revision No. 13. The direction to fabricate longer steel sheets was after the price of steel had increased from the original bid price. This revision to RW-06 resulted in a compensation to the contractor for **337.64 additional tons** at a higher price than the one at the bid time.

Consultant Errors & Omissions

Consultant Errors & Omissions

Procedure

2.5 STAGE 3 ASSESSMENT (1/4)

The Stage 3 Assessment is the **DPM's final assessment** of the project issue to conclude what **degree of responsibility or liability** the EOR has for premium costs.

The **EOR's response to the E&O Notification Letter** should state their **position and provide** any supporting documentation. The DPM, CPM and CEI **should meet with the EOR to discuss** the response to the **E&O Notification Letter** and **gain a better understanding** of the EOR's position. If the **EOR accepts full or partial responsibility** for the project issue, or agrees to **discuss settlement**, the Department and the EOR **will begin settlement** discussions and negotiations. For partial settlements, **be careful not to compromise the Department's position** on the balance of the issue.

Procedure

2.5 STAGE 3 ASSESSMENT (2/4)

With **consideration of the facts** and information received from the EOR, the DPM will **make a final determination** of EOR E&O premium cost responsibility. **When determining the premium cost** responsibility, the following **additional costs may be included:**

- **Administrative costs** incurred by the Department to process the SA, WO, or UP
- Additional **CEI costs**
- Any **post-design services** related to the project issue that **were invoiced and paid prior** to the determination that the issue was due to an EOR E&O.

Procedure

2.5 STAGE 3 ASSESSMENT (3/4)

If it is determined that the EOR is only partially responsible for the premium costs, the DPM must determine a lower amount which will be the basis for negotiation with the EOR. The DPM should seek legal advice from the OGC and input from the DDE, DCPME, CPM and CEI, in assessing the EOR's premium cost responsibility.

The DPM must enter the EOR's premium cost responsibility into RTM as the **E&O Premium Cost**. This is the basis for the Cost Claim.

If the EOR does not accept responsibility for the project issue or does not agree to negotiate a settlement, or if negotiations were attempted but a settlement could not be reached, the DPM (with input from the OGC, DDE and DCPME) must decide whether to continue pursuing the recovery of premium costs.

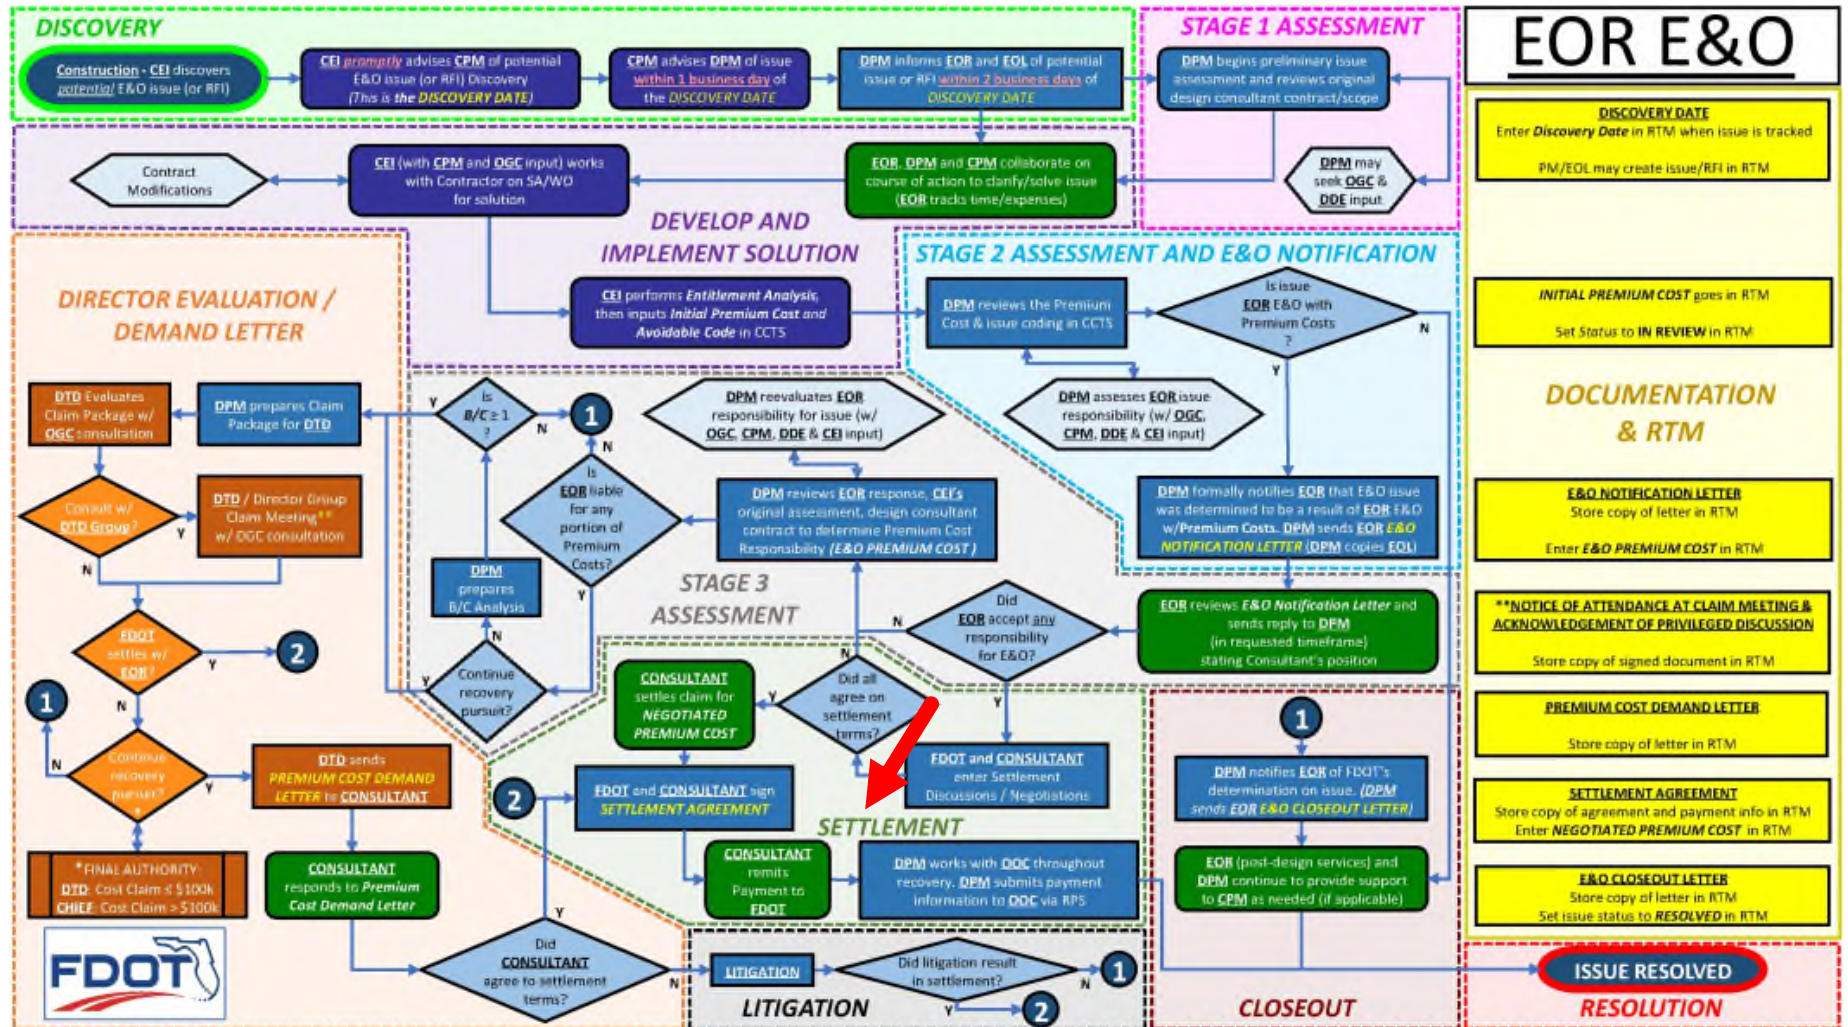

Procedure

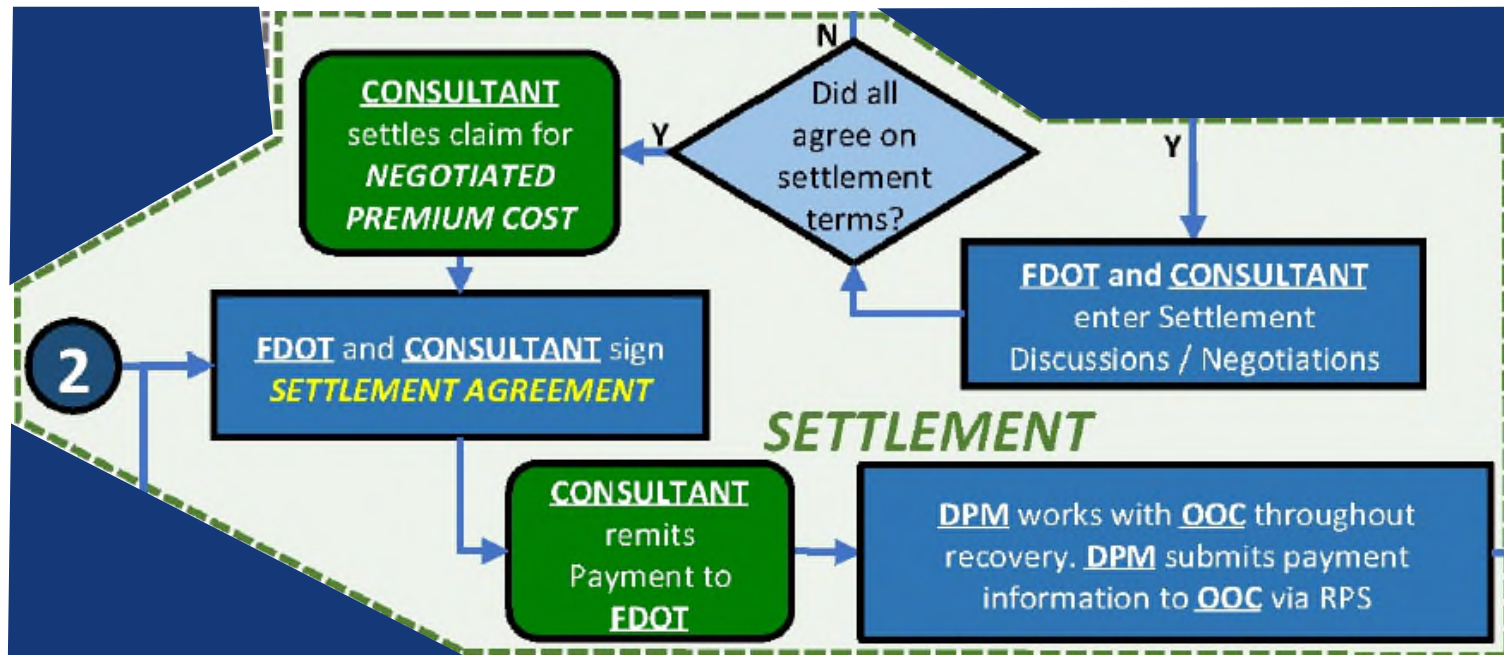

2.5 STAGE 3 ASSESSMENT (4/4)

If the DPM determines that the project **issue was not caused by an EOR E&O**, or if the **Department decides not to pursue recovery** (supported by a **B/C Analysis**), the DPM will **close** the issue and **document** the project issue resolution in RTM. The DPM must also **notify the EOR** of the issue resolution using the **E&O Closeout Letter**. The Department **may reopen** the project issue, **and reevaluate** the EOR's premium cost responsibility, **if new facts or information become available indicating an increased responsibility** for the premium costs.

Consultant Errors & Omissions

Procedure

2.6 SETTLEMENT

If the EOR **accepts responsibility for the project issue** or **is willing to discuss settlement**, the Department and the EOR **will begin negotiations**. If the Department and EOR **agree on terms** for a settlement, **preparation of the Settlement Agreement will be coordinated with the OGC**. If the Department and EOR are **unable to agree on terms** for a settlement, the Department must decide **whether to continue pursuing recovery** of premium costs.

Settlement Agreement

DocuSign Envelope ID: 05842A37-F594-4CFC-6867-3394856EEF78

SETTLEMENT AGREEMENT #1

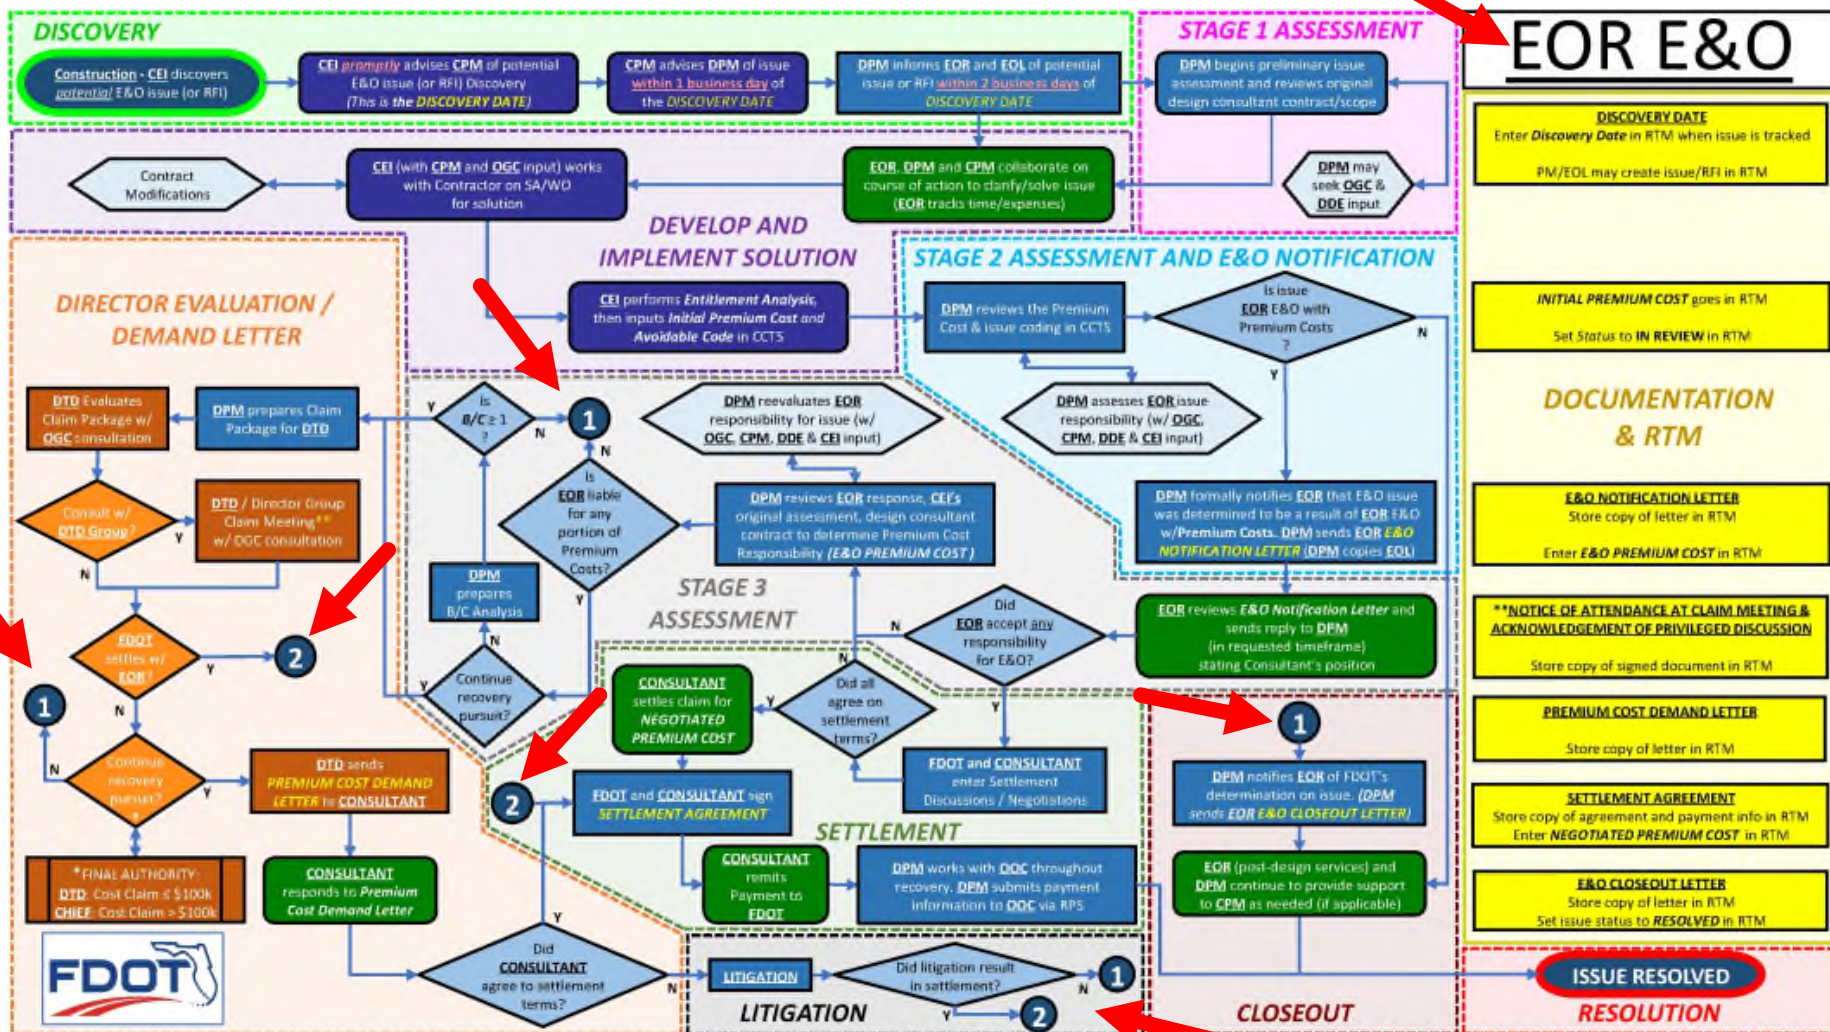

THIS SETTLEMENT AGREEMENT (Agreement) is made by and between: [REDACTED] Engineering Inc. (FIRM) and the State of Florida, Department of Transportation (the "Department"). The Department and FIRM are collectively referred to in this Agreement as the "Parties."

RECITALS

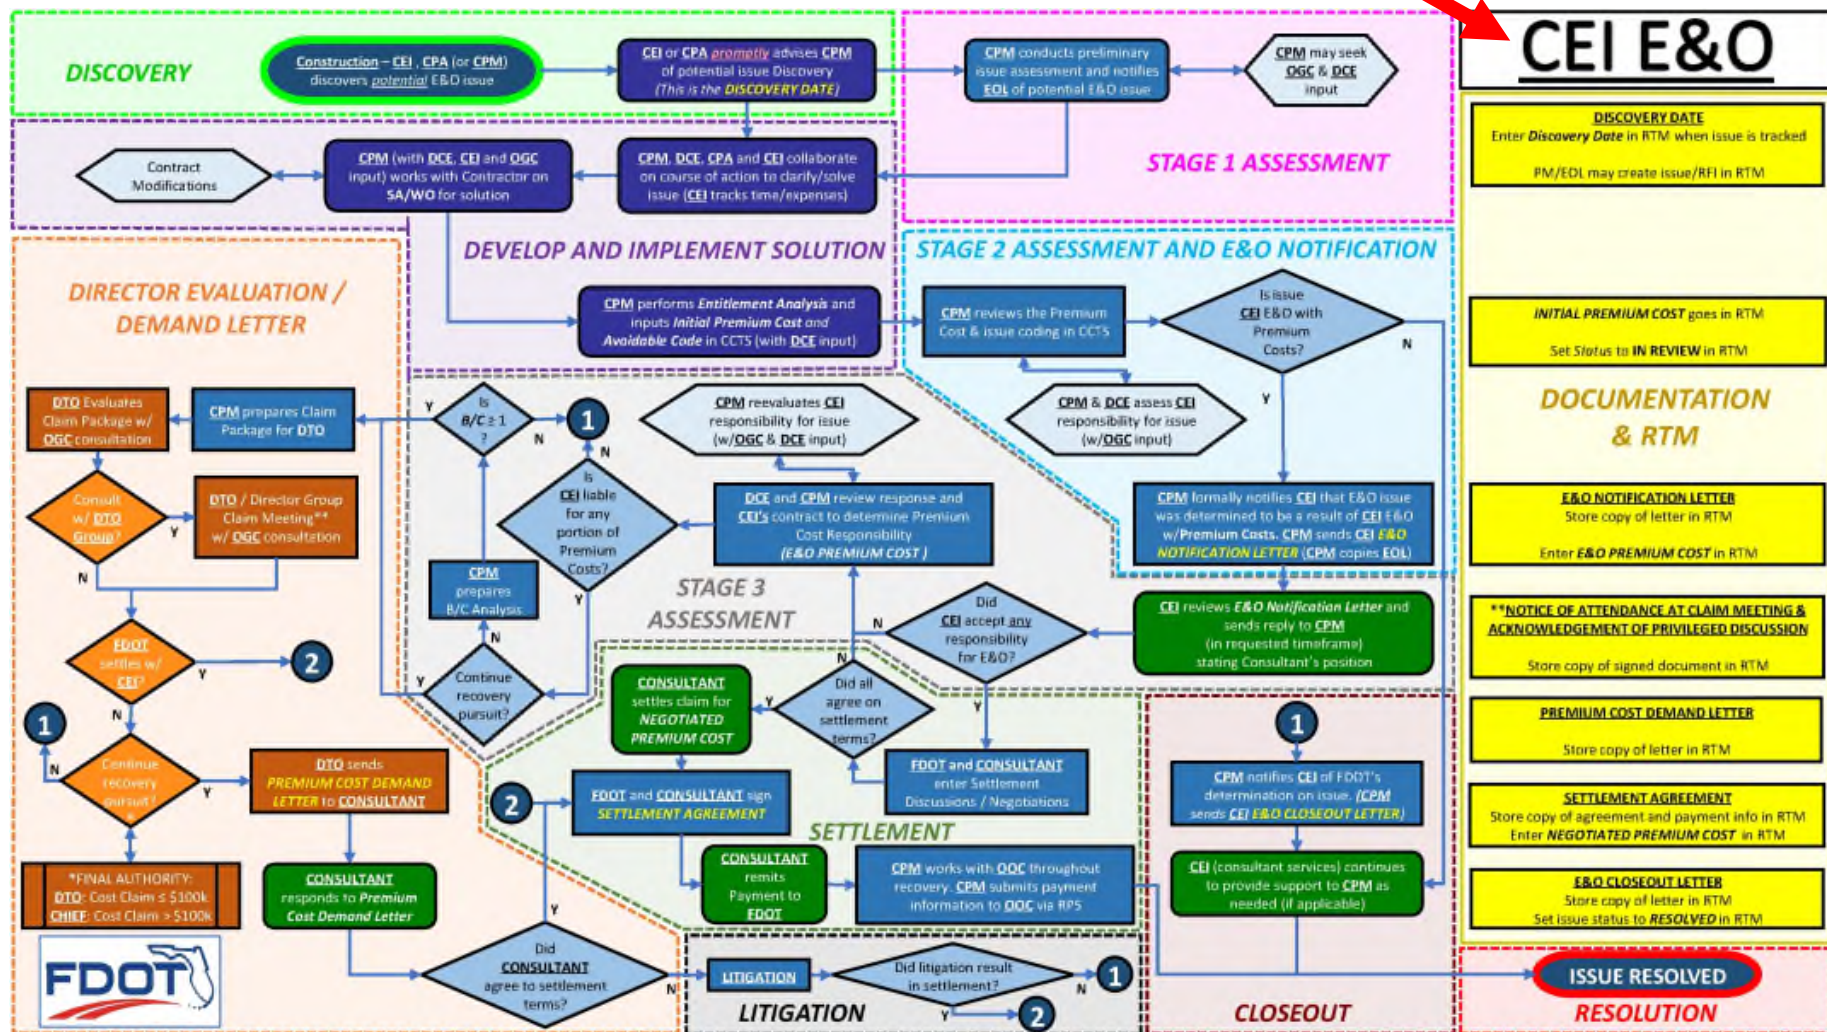

A. The Department advised design contractor of design errors in the plans prepared by FIRM for the [REDACTED]-52-01: [REDACTED] (Construction Contract No. [REDACTED]) (Project) by letter "Notification of E&O" dated 1/27/2022, & meetings between January of 2022 and subsequent in-person/virtual meetings through February 2022. The copies of which are attached hereto as Composite Exhibit "A"; and

a. As full and final settlement of the Design Issues, FIRM shall pay the Department premium costs in the amount of five thousand six hundred thirty and ⁰⁰/₁₀₀ dollars (\$5630) ("Settlement Amount") by check made payable to the State of Florida, Department of

Consultant Errors & Omissions

Consultant Errors & Omissions

Procedure

3. CEI CONSULTANT ERRORS & OMISSIONS

During the construction phase, a project issue may occur that may be due to an error or omission by the Consultant CEI as part of its contract administration and inspection. This section applies to E&O related to Consultant CEI contract administration and inspection.

DISCOVERY

Construction – CEI, CPA (or CPM)
discovers *potential* E&O issue

CEI or CPA *promptly* advises CPM
of potential issue Discovery
(This is the **DISCOVERY DATE**)

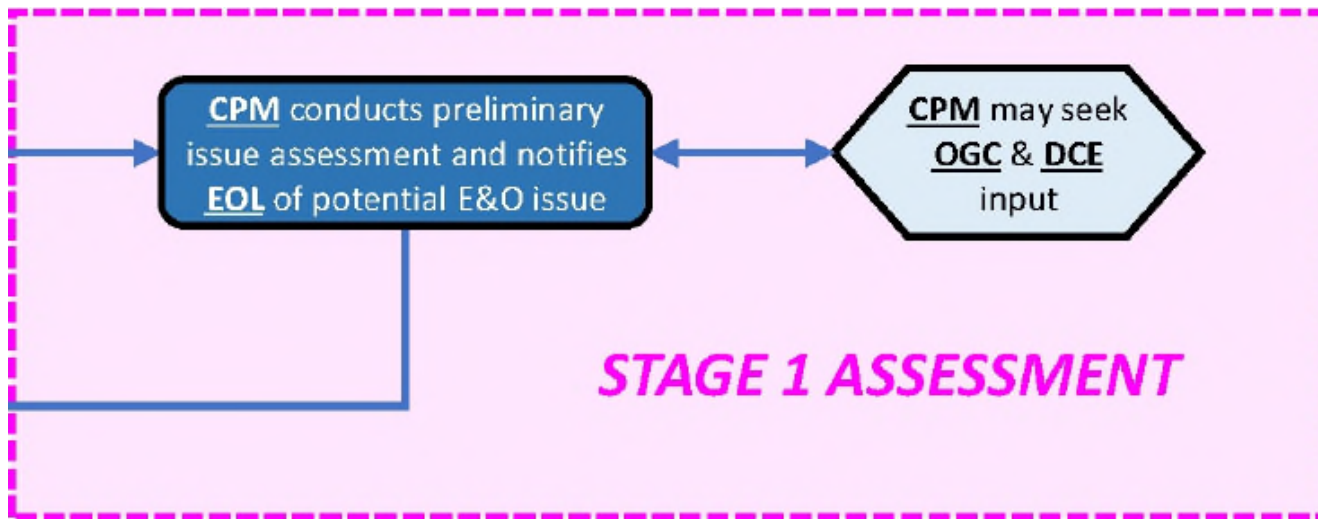

Procedure

3.1 DISCOVERY

The **discovery** of a project issue **typically occurs** during periodic **reviews** of the CEI's work **products (e.g., Supplemental Agreements, time extensions, project records)**. **Inspection issues** may also be discovered if contractor **workmanship or material issues** are **overlooked** and then **later identified**.

When a project **issue is discovered**, and that project issue is a **potential** CEI E&O issue, the **CEI or CPA must promptly notify the CPM**. The date the project issue is discovered is the **Discovery Date**. If the project issue is **ultimately determined** to be a CEI E&O issue, that **Discovery Date** is **entered in RTM**. Although **the notification** of discovery to the CPM may be **initiated by verbal communication**, the notification **must be promptly documented in writing**.

Procedure

3.2 STAGE 1 ASSESSMENT (1/2)

The Stage 1 Assessment is the CPM's initial assessment of the project issue to determine if the CEI may have potential liability for any portion of the issue, determine the appropriate corrective action, and establish a reasonable time frame to implement the solution.

If it is unclear whether a project issue is a CEI E&O issue, the CPM should consult the DCE and the OGC to assist in this assessment.

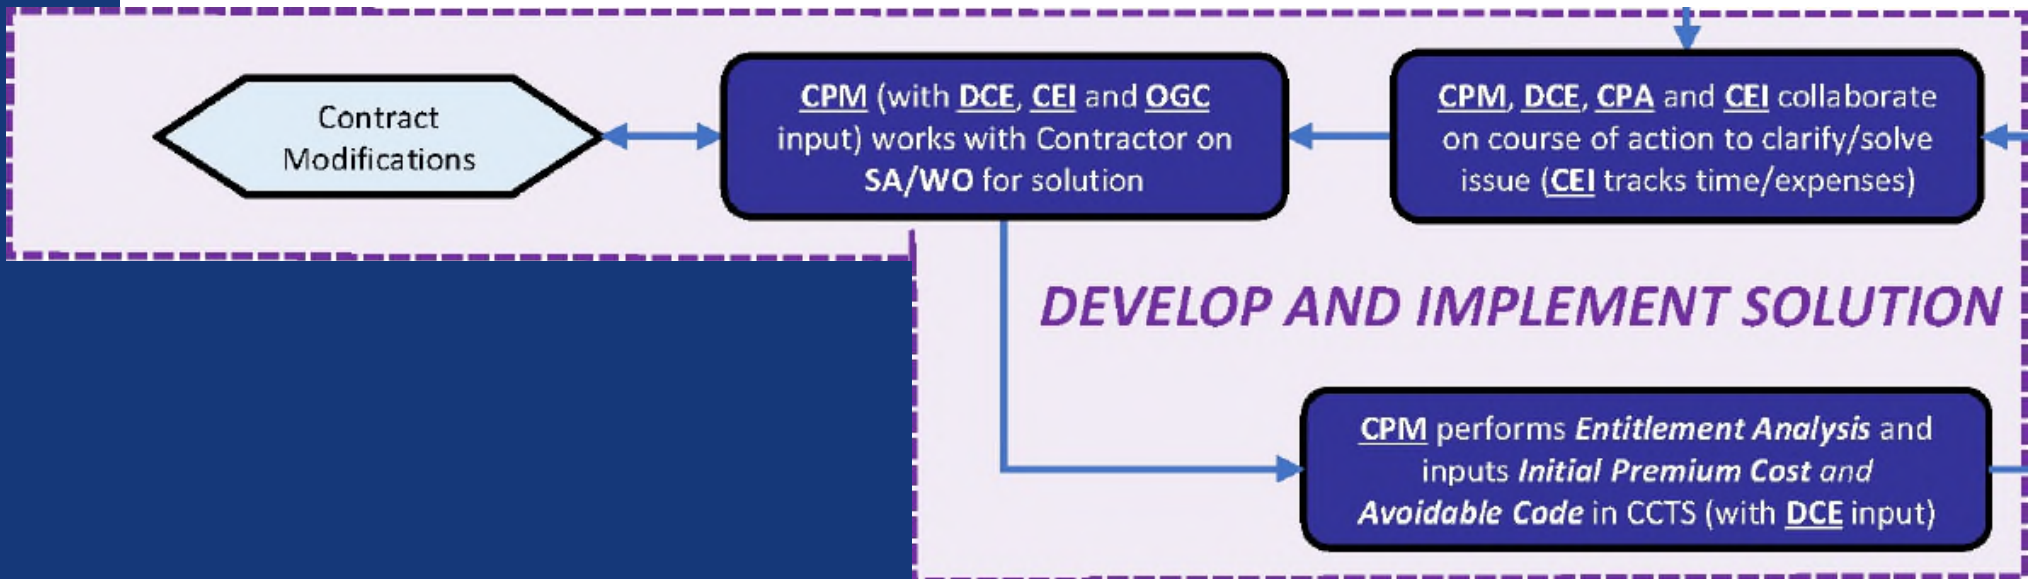

Procedure

3.2 STAGE 1 ASSESSMENT (2/2)

If it is determined that the project issue appears to have been caused by CEI E&O, the CPM must notify the EOL, and may begin tracking the issue in RTM.

If it is determined that the project issue does not appear to be caused by CEI E&O, or if it is unclear, the CPM will further assess the project issue during the Stage 2 Assessment.

Procedure

3.3 DEVELOP AND IMPLEMENT SOLUTION (1/3)

The Department and CEI **must continue to collaborate** on the project issue, and the **CPM must determine an appropriate course of action** and the solution.

With DCE and CPM approval, the **CEI may work directly with the Contractor** to resolve the project issue, provided the Department **incurs no premium economic or time costs** as a result. If approval is given, the CEI and Contractor **must include the CPM** in all correspondence relating to the project issue.

Procedure

3.3 DEVELOP AND IMPLEMENT SOLUTION (2/3)

The CPM must not approve any Consultant invoices for services that include the CEI's time associated with resolving a project issue that is a potential CEI E&O. Such services may only be compensated if it is determined the issue is not a CEI E&O.

Implementation of the solution often results in a construction contract modification through the execution of a Supplemental Agreement (SA), a Work Order (WO), or a Unilateral Payment (UP). The District Construction Office negotiates additional cost and time required to implement the proposed solution with the Contractor. For each SA and WO, the CPM must determine the premium costs associated with resolving the project issue and perform an Entitlement Analysis.

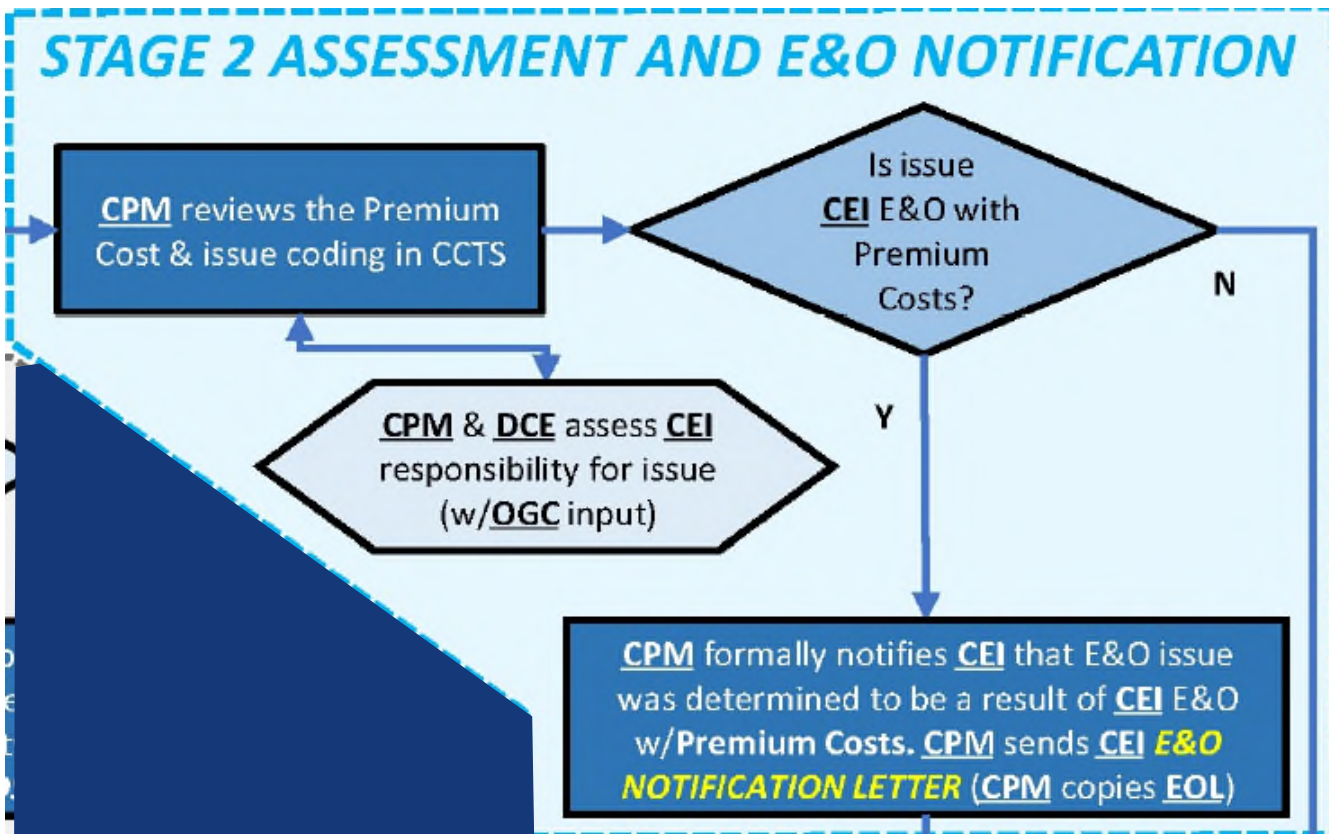

Procedure

3.3 DEVELOP AND IMPLEMENT SOLUTION (3/3)

To ensure a fair and accurate assessment of premium costs, the CPM should prepare the SA, WO, or UP with input from the CEI, DCE, OGC, and the Contractor. **Topic No. [700-000-000](#), Construction Project Administration Manual (CPAM), Section 7.3** defines the Department's method to initiate, document, and execute SA, WO, and UP documents.

For each SA and WO, the CPM must enter the premium cost amount and assign the initial Avoidability Code in CCTS. For an explanation of the codes involved in a contract modification, see the attachment to **Construction Project Administration Manual Section 7.3** on the State Construction Office website.

Procedure

3.4 STAGE 2 ASSESSMENT AND E&O NOTIFICATION (1/3)

The Stage 2 Assessment is the CPM's in-depth assessment of the project issue to determine what degree of responsibility or liability the CEI has for the issue and related premium costs. This assessment takes place after contract modifications have been made and premium costs have been calculated, and includes reviewing the following:

- Contract modification coding
- Entitlement Analysis
- Plans and specifications
- Consultant's contract
- Relevant correspondence and project-specific information
- Specific requirements or instructions the Department imposed on the CEI
- Department procedures standards and criteria in effect when the contract was executed

Procedure

3.4 STAGE 2 ASSESSMENT AND E&O NOTIFICATION (2/3)

A project issue **may initially appear** to a CEI E&O but subsequently **determined to be beyond** the CEI's contractual obligations. When **determining CEI** E&O premium cost responsibility, the **CPM should seek legal advice** from the OGC and input from DCE.

If the CPM determines that the project issue **appears to have been caused** by CEI **E&O**, the CPM must provide the CEI with a **formal written notification** that **describes** the following:

- **Discovery Date**
- **Nature and scope** of the project issue
- **Contract modifications** executed to correct the issue
- **Department's assessment** of CEI E&O premium cost responsibility
- A **response deadline**

Procedure

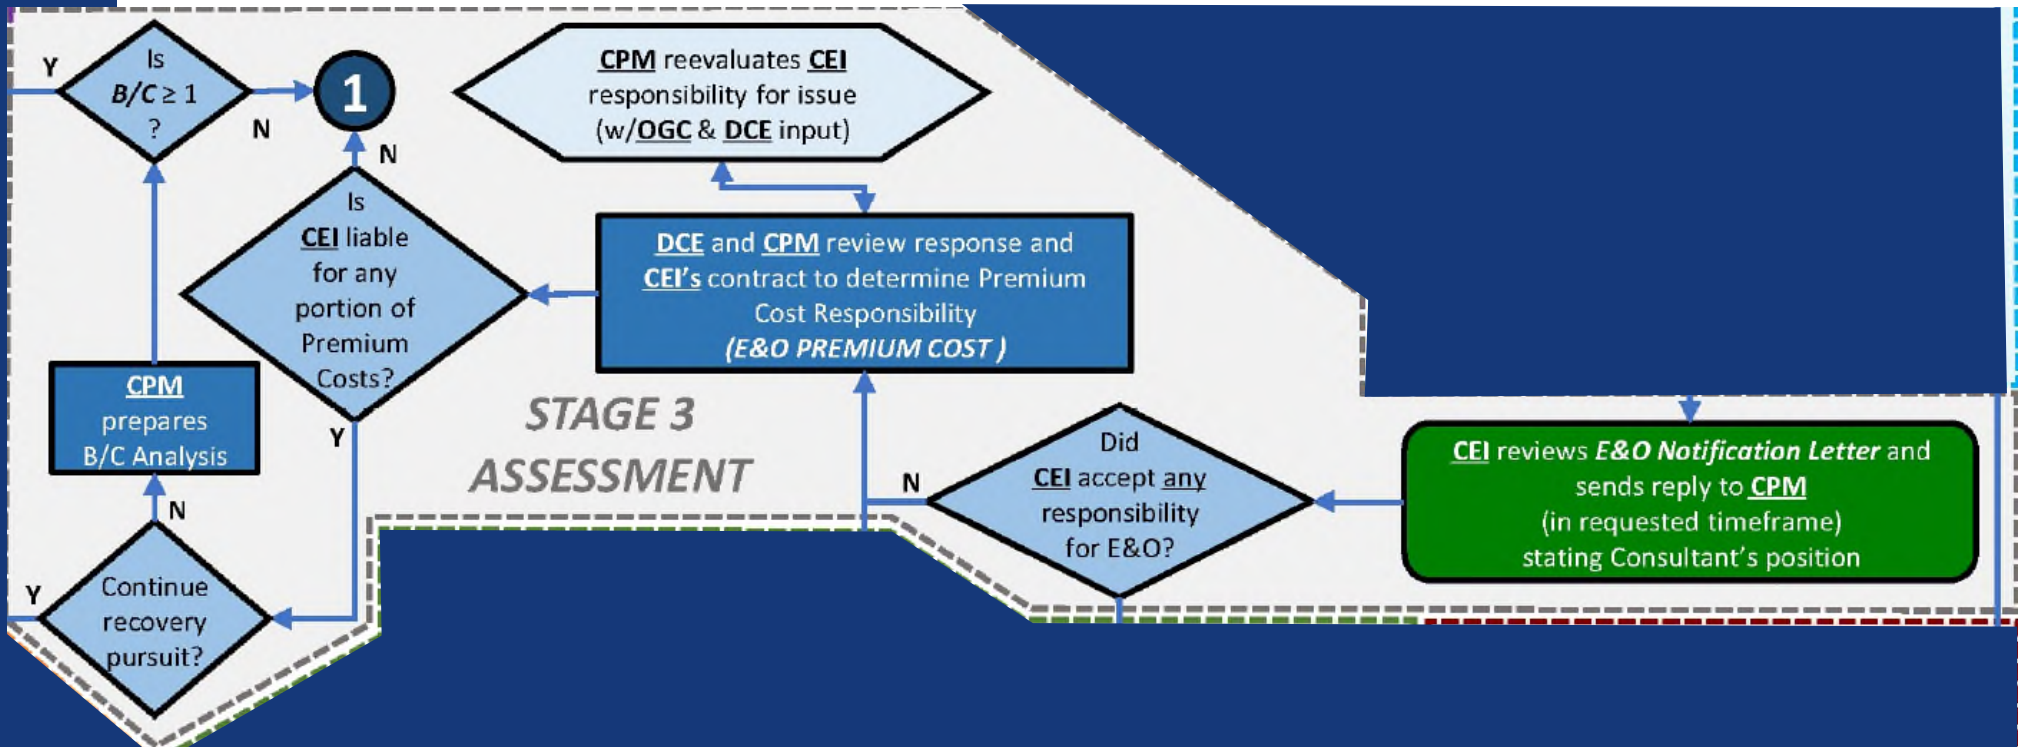

3.4 STAGE 2 ASSESSMENT AND E&O NOTIFICATION (3/3)

This formal written notification is communicated using the **E&O Notification Letter**. The **E&O Notification Letter** also reminds the CEI to separately track their time expended on the resolution of the issue so they may later be compensated for their services if the Department determines the issue was not caused by an CEI E&O.

If the CPM determines that the project issue was not caused by a CEI E&O, the project issue is resolved. The CPM must provide the CEI a written notification of the Department's determination that the CEI is not responsible for the project issue. If the project issue is being tracked in RTM, the CPM must mark the issue as "Resolved" and document the issue resolution.

Consultant Errors & Omissions

Procedure

3.5 STAGE 3 ASSESSMENT (1/4)

The Stage 3 Assessment is the **final assessment** of the project issue to conclude what **degree of responsibility or liability** the CEI has for premium costs. This assessment is **conducted by the DCE with input from the CPM.**

The **CEI's response** to the **E&O Notification Letter** should state their **position and provide** any supporting documentation. The DCE and CPM **should meet with the CEI to discuss** the response to the **E&O Notification Letter** and gain a better **understanding** of the CEI's position. If the CEI **accepts full or partial responsibility** for the project issue, or agrees to discuss **settlement,** the Department and the CEI will begin **settlement discussions** and **negotiations.**

Procedure

3.5 STAGE 3 ASSESSMENT (2/4)

With **consideration of the facts** and information received from the CEI, the DCE will **make a final determination** of the CEI E&O premium cost responsibility. **When determining** the premium cost responsibility, administrative costs incurred by the Department to process the **SA, WO, or UP** may be included.

If it is determined that the CEI is only **partially responsible** for the premium costs, the DCE must conclude a **lower amount** which will be **the basis for negotiation** with the CEI. The DCE should seek legal advice from the OGC, and **input from the CPM** in assessing the CEI's premium cost responsibility.

Procedure

3.5 STAGE 3 ASSESSMENT (3/4)

The **CPM must enter** the CEI's premium cost responsibility into RTM as the **E&O Premium Cost**. This is the **basis for the Cost Claim**.

If the CEI does not accept responsibility for the project issue or does not agree to negotiate a settlement, or if negotiations were attempted but a settlement could not be reached, the DCE (with input from the OGC and CPM) must decide whether to continue pursuing the recovery of premium costs.

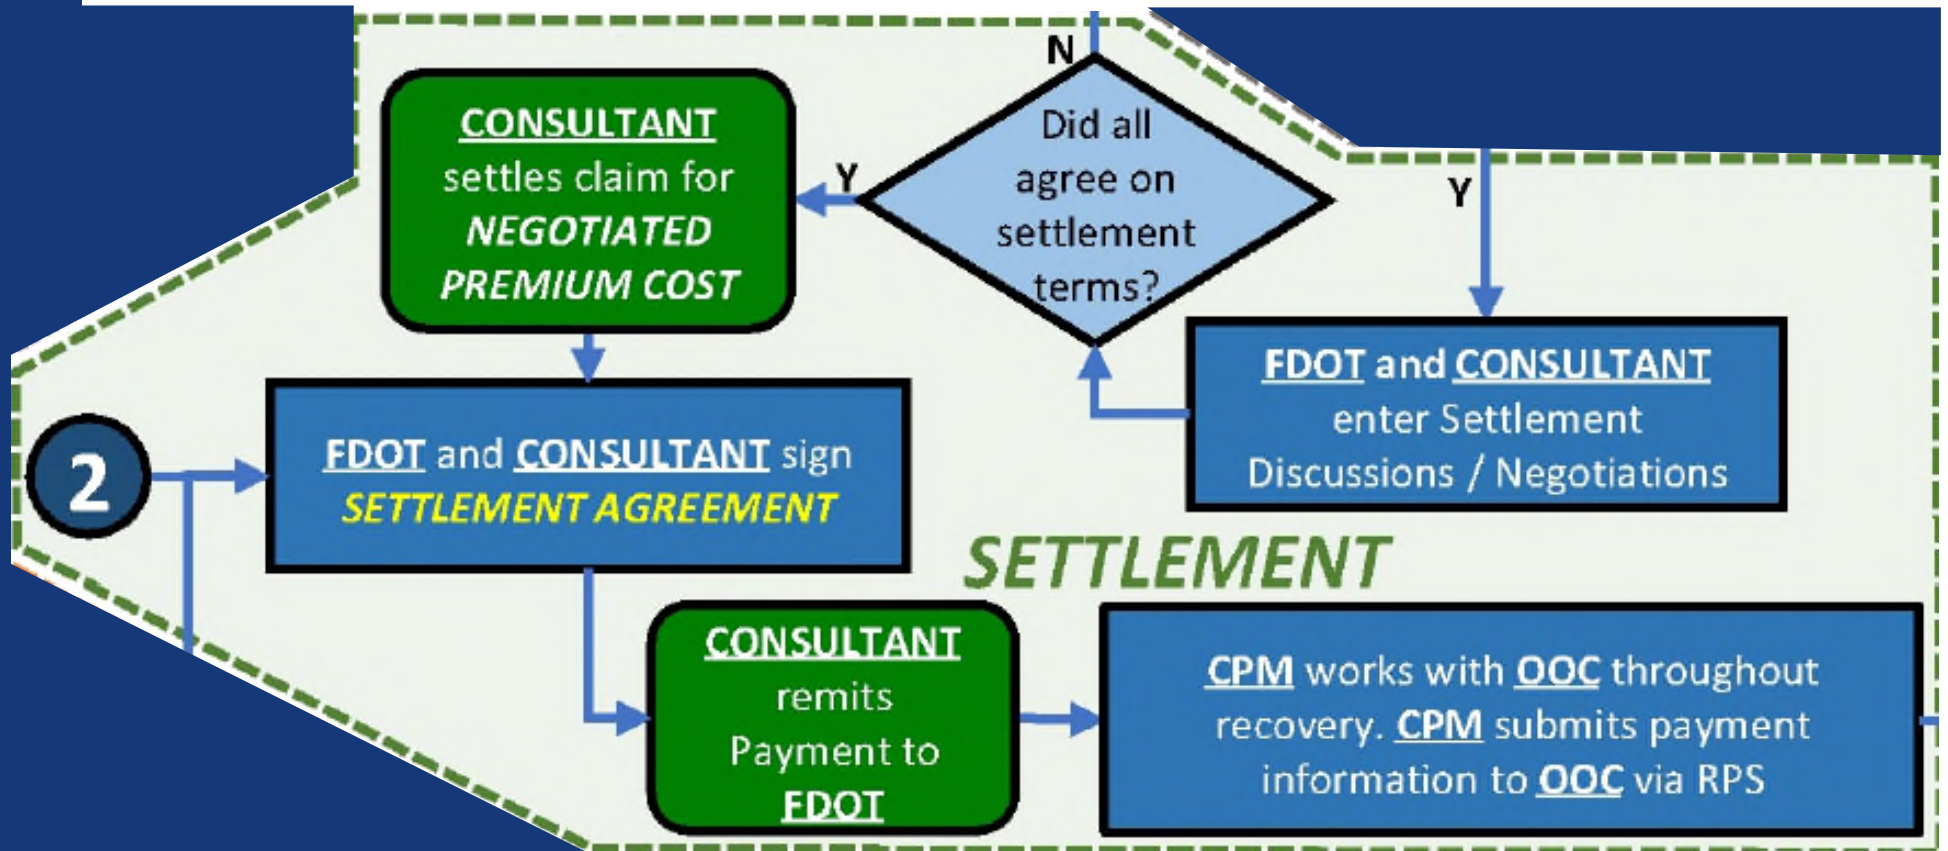

Procedure

3.5 STAGE 3 ASSESSMENT (4/4)

If the DCE determines that the project issue was not caused by a CEI E&O, or if the Department decides not to pursue recovery (supported by a **B/C Analysis**), the CPM will close the project issue and the issue resolution in RTM. The CPM must also notify the CEI of the project issue resolution using the **E&O Closeout Letter**. The Department may reopen the project issue and reevaluate the CEI's premium cost responsibility if new facts or information become available indicating an increased responsibility of premium costs.

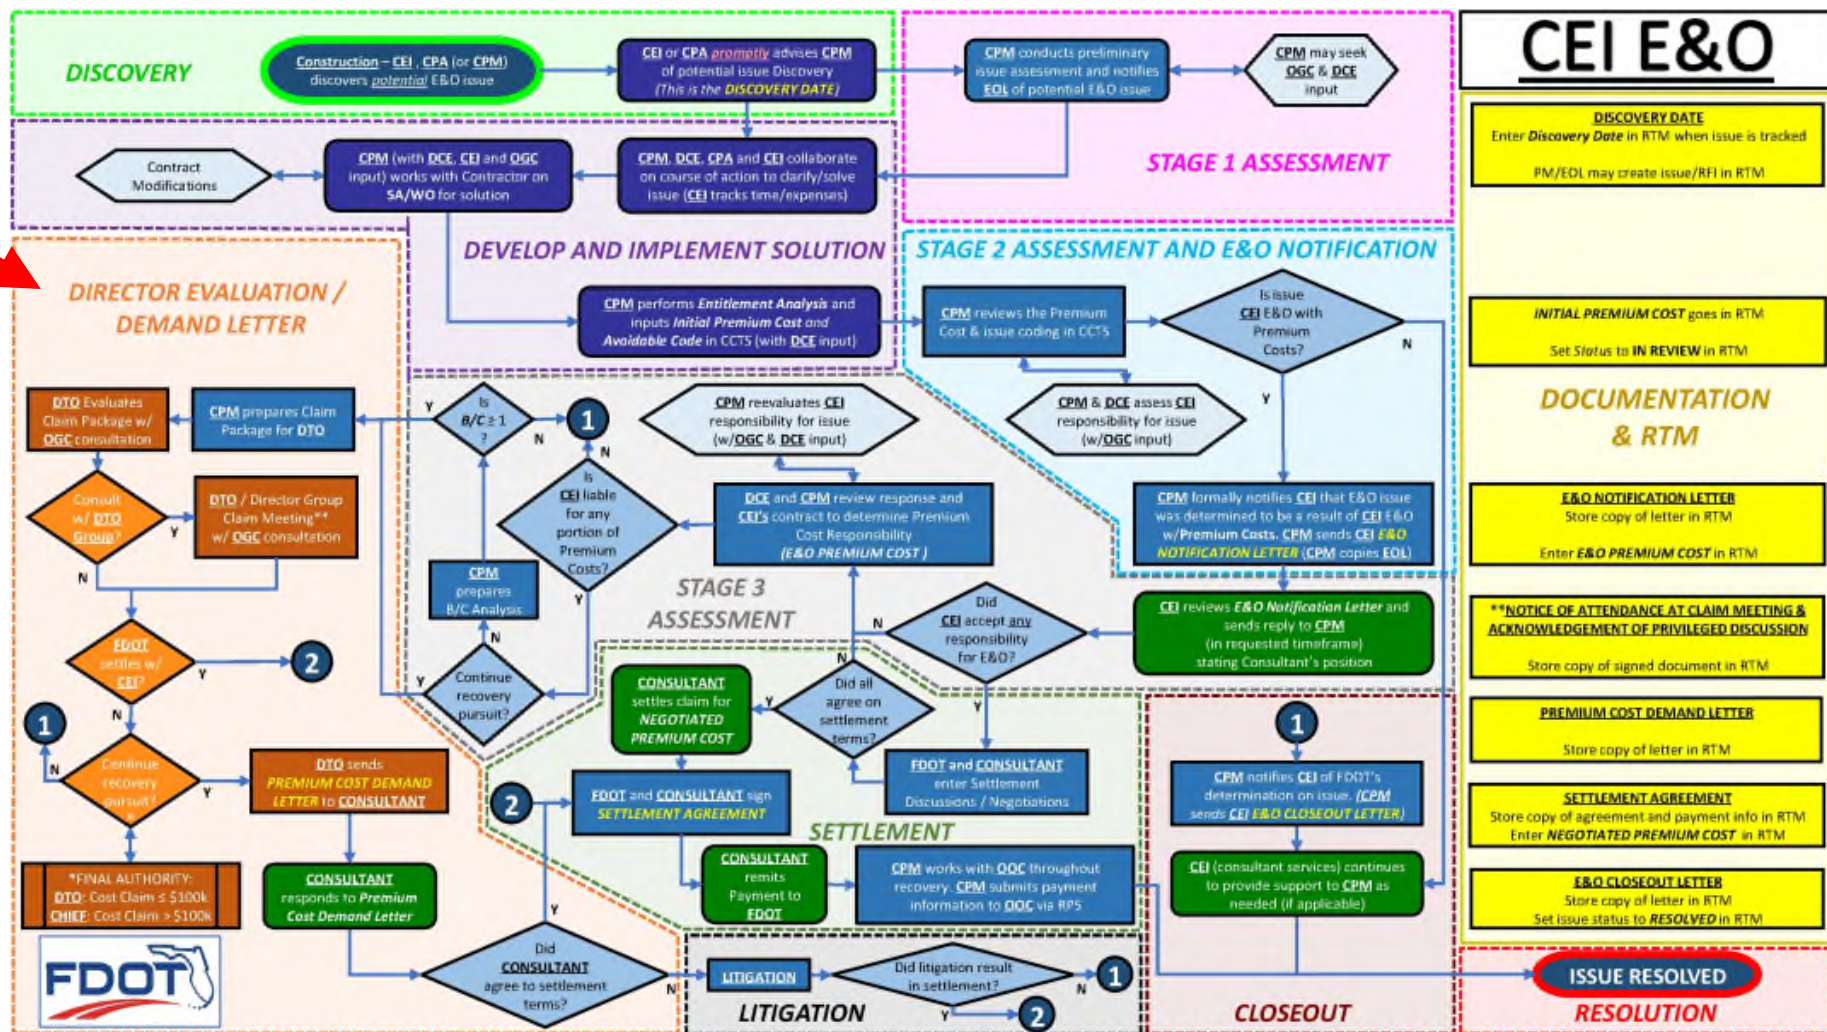

Procedure

3.6 SETTLEMENT

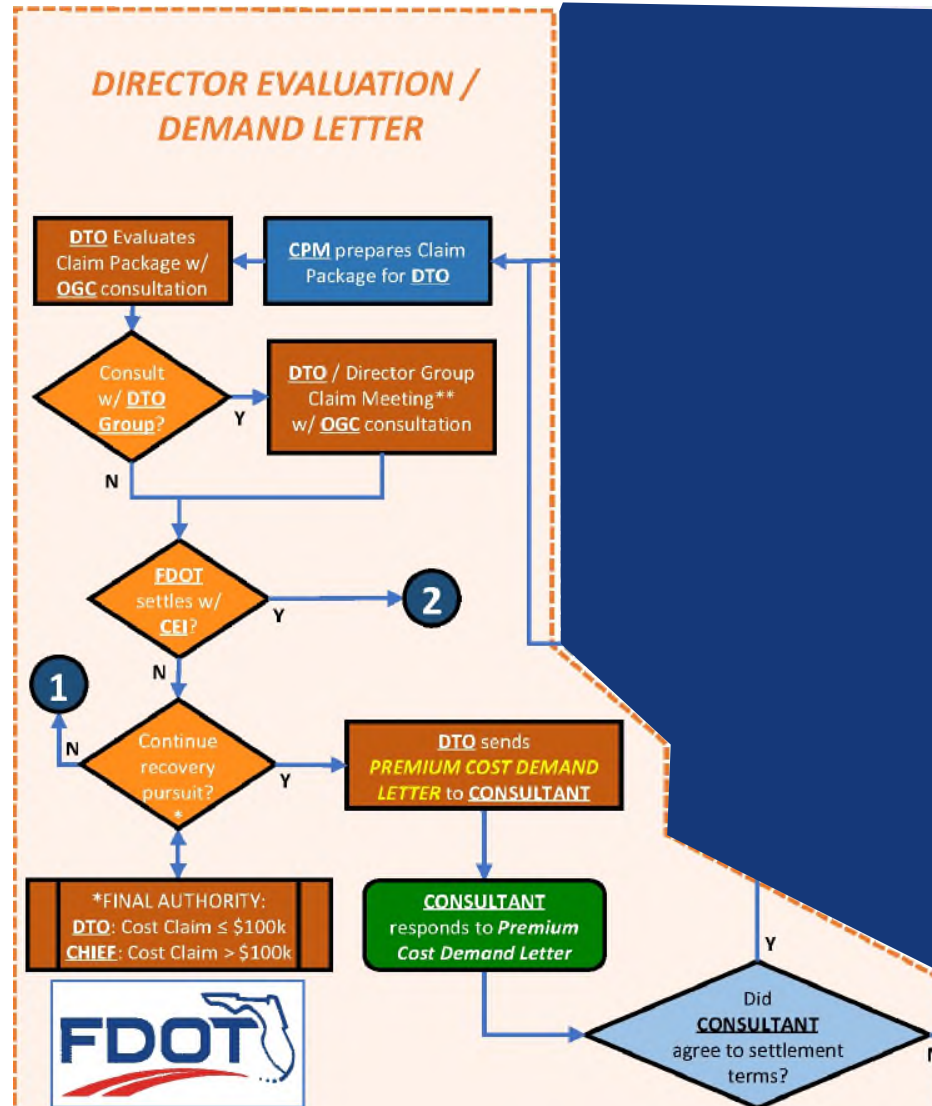

If the CEI **accepts responsibility for the project issue** or **is willing to discuss settlement**, the Department and the CEI **will begin negotiations**. If the Department and CEI **agree on terms** for a settlement, **the OGC will prepare the Settlement Agreement and oversee its execution**. If the Department and CEI are **unable to agree on terms** for a settlement, the Department must decide whether **to continue pursuing** the recovery of premium costs.

Consultant Errors & Omissions

Consultant Errors & Omissions

Procedure

4 DIRECTOR LEVEL

This section applies to both EOR and CEI E&O, and occurs when a Settlement Agreement cannot be reached, and a decision is made to continue pursuing the recovery of premium costs.

The term Director refers to the Director of Transportation Development for EOR issues, or the Director of Transportation Operations for CEI issues.

The term Department PM refers to the DPM for EOR issues, or the CPM for CEI issues.

The term Consultant refers to the design firm responsible for the EOR E&O, or the CEI firm responsible for the CEI E&O.

Procedure

4.1 DIRECTOR EVALUATION

The Department PM must provide the Director (or Designee) a Claim Package containing all pertinent supporting documentation for evaluation. For evaluation of the Claim Package, the Director may be assisted by a group of advisors (Director Group). The Director Group is typically made up of the following participants: Director, DPM, CPM, DDE, DCPME, and DCE. The Director should also consult the OGC and the EOL regarding the liability of the Consultant for the premium costs (Cost Claim).

Procedure

4.2 CLAIM MEETING (1/2)

The Director **should schedule a Claim Meeting** with the **Director Group** and the **Consultant** to discuss resolution of the Cost Claim. If the Consultant **declines to attend or participate** in the Claim Meeting, then the **Director may conduct the Claim Meeting without the Consultant**.

Procedure

4.2 CLAIM MEETING (2/2)

If **attending the Claim Meeting**, the Consultant **may include** personnel, **attorneys, consultants, and experts** it deems necessary to represent its interests at the Claim Meeting. The Department, Consultant and their representatives **must agree that all discussions, representations, and documents** made and utilized in the Claim Meeting **are deemed settlement discussions and therefore subject to applicable privileges set forth by law.** Attendees must **sign the Notice of Attendance at Claim Meeting and Acknowledgement of Privileged Discussions.**

Procedure

4.3 FINAL DETERMINATION (1/3)

If the Consultant does **not participate** in the **Claim Meeting** or **does not reach a settlement** with the Department as a result of the meeting, then the Department **will make a determination on whether or not to pursue** recovery of the Cost Claim. If the Cost Claim is **\$100,000 or less, the Director** has final decision authority for the resolution of all pending issues with the Consultant. If the Cost Claim is **greater than \$100,000, the Director has initial authority** to approve the proposed resolution, which is **subject to approval by the Chief Engineer**, who has final authority. The **decision of the Chief Engineer is final.**

Procedure

4.3 FINAL DETERMINATION (2/3)

If it is determined not to pursue recovery of the Cost Claim, the Director will inform the Department PM to notify the Consultant of the decision using the **E&O Closeout Letter**. The Department PM must mark the issue as “Resolved” and document the issue resolution in RTM.

If it is determined to pursue the recovery of the Cost Claim, the Director will notify the Consultant using a **Premium Costs Demand Letter**. The letter must summarize the following:

- Nature and scope of the project issue
- Premium Costs and any additional terms for settlement
- The Department’s intent to pursue recovery through litigation

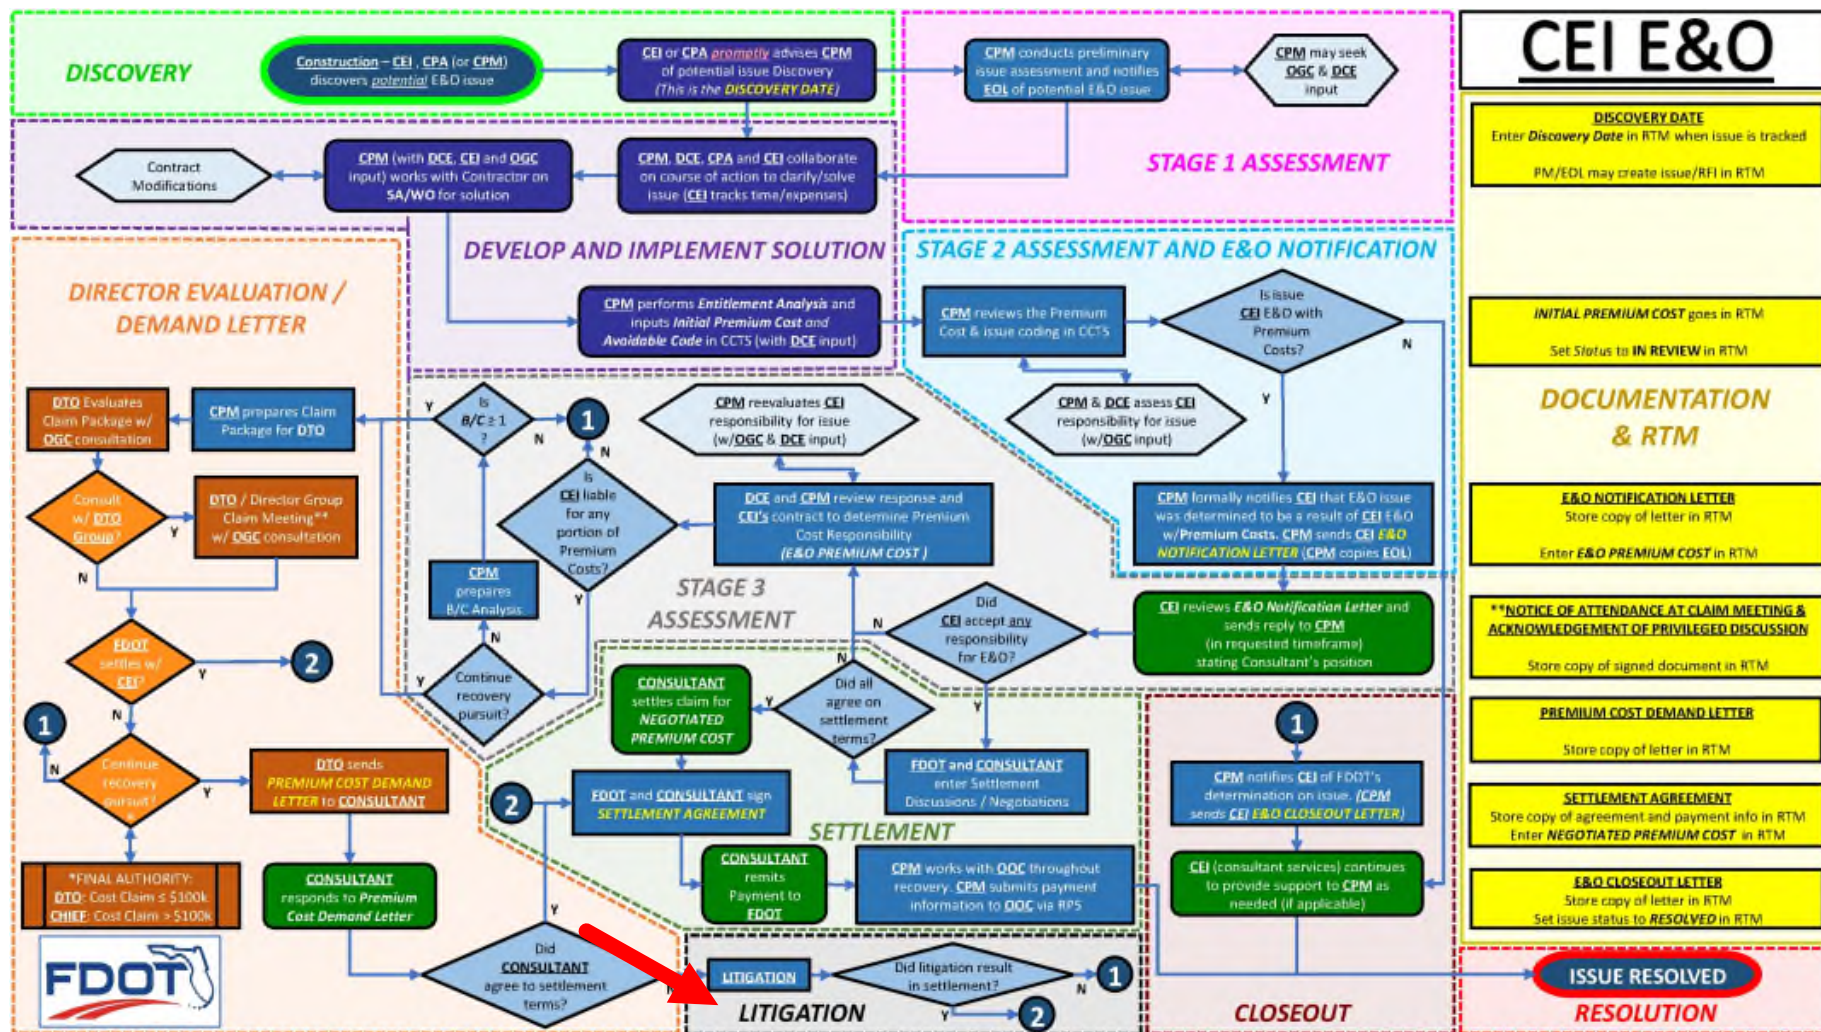

Procedure

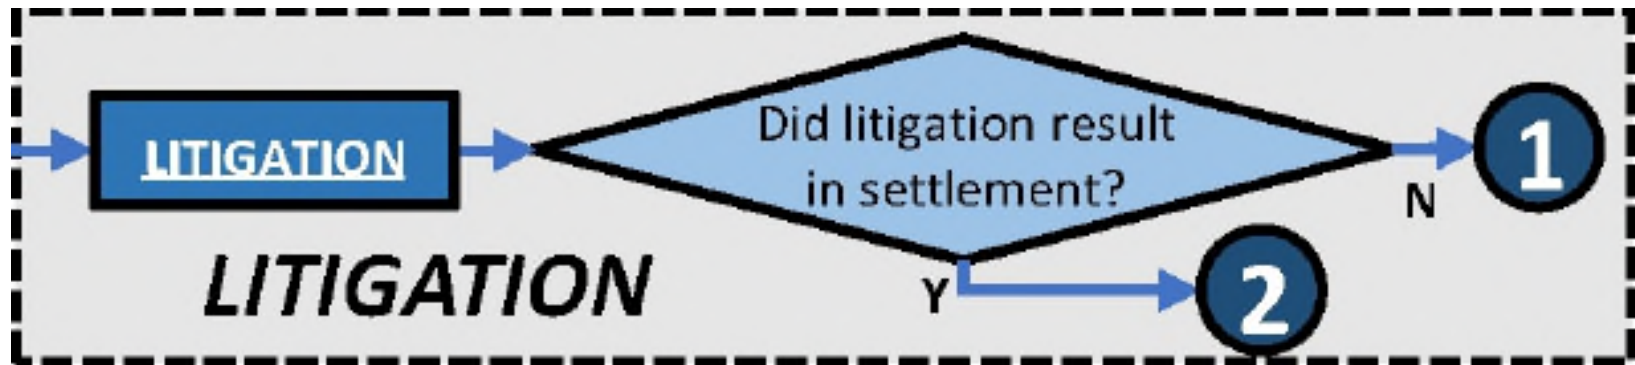

4.3 FINAL DETERMINATION (3/3)

The Consultant may resolve the Cost Claim by written acceptance of the terms of the **Premium Costs Demand Letter** within 15 calendar days of the date of the letter. If the Consultant accepts the terms within the 15-day period, the OGC will prepare a **Settlement Agreement** and oversee its execution. The **Settlement Agreement** must be signed by authorized representatives of the Department and the Consultant. The proposed resolution must resolve all pending issues and provide for a full release by both parties. Each party must bear its own attorney's fees and costs related to the resolution of the Cost Claim.

Consultant Errors & Omissions

Procedure

5 LITIGATION

If the **Consultant does not respond** to the **Premium Costs Demand Letter** within the 15-day period or **does not accept the terms** for settlement, the **offer expires and the Department may pursue recovery through litigation.**

Once **litigation is initiated**, all settlement **discussions should be handled** through the **OGC**. The District will **designate its representative** with authority to settle all pending matters.

If **litigation** is initiated, the Department **PM must continue maintaining** the issue **in RTM and provide available documents** to the OGC upon request. This includes all correspondence and documentation pertaining to each E&O Cost Claim.

Procedure

6 RECOVERED AMOUNTS

The OGC must advise the Department PM of the amounts recovered through litigation to be entered into the RTM. The Department PM must provide documentation to the Office of Comptroller (OOC), General Accounting Office (GAO), Accounts Receivable Section (ARS) and Cashier's Office for all funds recovered or services in kind rendered.

Procedure

6.1 RECEIVED PAYMENTS

The Department **must collect moneys from Consultants** in accordance with the following:

- Procedure No. [350-060-303](#), **Accounts Receivable**
- Procedure No. [350-080-300](#), **Receipt Processing**
- [Federal Aid Policy Guide 23](#), [C.F.R.](#)

The Department **PM must submit received payments** to the Office of Comptroller (OOC), Cashier's Office **via** the Department's Receipt Processing System (**RPS**) in accordance with **Procedure No. 350-080-300, Receipt Processing.**

Procedure

6.2 SERVICES IN KIND (1/3)

The Department may accept Services In-Kind (SIK) when requested by the Consultant, in lieu of money as restitution for damages caused by E&O. Such services must be equivalent to the value of the damages incurred by the Department and stipulated in a Settlement Agreement (describing the services to be provided, including the proposed consultant personnel and their compensation rates). SIK agreements must be completed, approved, and monitored in accordance with Procedure No. [350-060-303](#), **Accounts Receivable**. The Department PM must provide the Deputy Comptroller and the Accounts Receivable Section (ARS) a copy of the settlement agreement using the **Reporting, Collection, and Cash Received (Services in Kind)** letter (or through another means which conveys the same information as the letter).

Procedure

6.2 SERVICES IN KIND (2/3)

The **DDE** (for EOR issues) or **DCE** (for CEI issues) **must determine** the **scope of equivalent services** that will satisfy the Consultant's obligation to reimburse the Department. With **input** from the District Professional Services Unit (**PSU**) or Procurement Office, the DDE or DCE **must also determine** the **appropriate Consultant personnel** (number, level, compensation rate) to accomplish the scope of equivalent services.

Procedure

6.2 SERVICES IN KIND (3/3)

Acceptance of SIK is completely at the discretion of the Department and should only be considered when the district has an appropriate contract already in place with the Consultant. Services in kind may not be used to circumvent the **Consultants' Competitive Negotiation Act (CCNA)** (Section [287.055](#), F.S.) or to provide an advantage to the Consultant in CCNA selection for services on future projects. Refer to **Errors and Omissions Guidelines and Forms** for additional information on using SIK.

Procedure

6.3 TRACKING RECOVERY (1/3)

The Department PM must monitor and document the receipt of services in kind and provide quarterly updates to the ARS. When the Consultant's obligation to provide services has been satisfied, the Department PM must notify the Consultant and the OOC-GAO and mark the issue as "Resolved" in RTM.

Procedure

6.3 TRACKING RECOVERY (2/3)

The ARS must maintain a system to document and track recovery of all funds received from Consultants for E&O. This is handled through the RPS. Reimbursement may be received in a lump sum or through a set schedule of payments, when approved by the Deputy Comptroller (or delegate). For lump-sum payments, initial recovery efforts are handled at the District level. If payment is not timely, the Department PM must notify the ARS, who will continue the collection effort. This can be done using the **Reporting, Collection, and Cash Received (Request for Assistance to Recover Funds)** letter (or through another means which conveys the same information as the letter). If further collection efforts are not successful, the account may be turned over to the State's contracted collection agency.

Procedure

6.3 TRACKING RECOVERY (3/3)

The ARS must coordinate and collect any approved series of payments. The Department PM must notify the Deputy Comptroller to request approval of the recovery payment schedule, and the ARS to track payment and report recovery. This can be done using the **Reporting, Collection, and Cash Received (Request for Assistance to Recover/Track a Series of Payments)** letter (or through another means which conveys the same information as the letter). Refer to **Procedure No. [350-060-303](#), Accounts Receivable** for more detailed information.

Procedure

6.4 REPORTING

In July of each year, the OOC, Cashier's Office must report the amount collected for E&O Cost Claim in the previous fiscal year, by District, to the Program and Resource Allocation Office. In mid-September, the Program and Resource Allocation Office must allocate in **Schedule A** the collected amount back to each respective District and statewide program, as appropriate.

Training

The **Production Support Office**, with assistance from the State Construction Office and the Office of General Counsel, **will provide training** in the application of this procedure.

Forms (1/2)

This procedure requires use of the following forms contained in the **Errors and Omissions Guidelines and Forms:**

- (a) E&O **Notification** Letter
- (b) Premium Costs **Demand Letter**
- (c) Notice of **Attendance** at Claim Meeting and **Acknowledgement** of Privileged Discussion
- (d) E&O **Closeout** Letter

Forms (2/2)

Use of the following forms is optional, however the information contained within them must still be submitted:

- (a) Reporting, Collection and Cash Received - (Request for assistance to recover funds)
- (b) Reporting, Collection and Cash Received - (Request for assistance to recover/track a series of payments)
- (c) Reporting, Collection and Cash Received - (Services in Kind)

Production Support

Welcome to Production Support

The Production Support Office is one of 3 divisions under the [Office of Design](#), along with [Roadway Design](#) and [Structures Design](#). Our Office provides leadership, guidance and support for managing and delivering the design phase of projects. We assist designers, project managers, consultants and FDOT employees in meeting production schedules and delivering a quality design product. Our Program Areas include:

[Americans with Disabilities/Accessibility \(ADA\)](#)

[Bulletins](#)

[CADD](#)

[Cost Savings Initiatives](#)

[Design Training](#)

[Electronic Review and Comment \(ERC\)](#)

[Landscape Architecture](#)

[Project Management](#)

[Scenic Highways](#)

[Value Engineering](#)

[Wildflower Program](#)

State Production Support Office

The role of the FDOT State Production Support Office is to help District Designers and Project Managers meet their production obligations. We touch every area within the State Office...

Project Management

Project Management is the application of knowledge, skills, tools and techniques to project activities to meet or exceed stakeholder needs and expectations for the project. The Project Management Section is responsible for coordinating with all offices under the Office of Design and throughout the Department to provide tools necessary to deliver quality projects on schedule, on budget. We develop and implement consistent and efficient Project Management practices for the delivery of safe transportation projects in Florida. Our mission is to preserve and improve the Florida Transportation System through consistent and efficient use of Project Management tools and Practices. We often hire Consultant Project Managers to help deliver the transportation Work Program as well.

Consultant Evaluation

The Department contracts with consultants to provide a variety of services. The Consultant Evaluation Process provides the Department with a means of evaluating the work performance of those consultants. For all professional services contracts, the consultant's work performance for each advertised major type of work must be evaluated by the Department's project manager. The consultant for each contract will be evaluated in the following areas: Schedule, Management, Quality & Constructability (for those contracts that produce construction plans).

Errors and Omissions

The Department employs professional consulting engineers to provide design engineering and construction engineering and inspection services. The Department is committed to the highest quality of these services and to the highest quality of the work product.

Website: Errors & Omissions

- <https://www.fdot.gov/designsupport/pm/EandO>

Errors and Omissions

The Department's [Procedure Number 375-020-010](#) (Updated January 2022) prescribes the process to identify and investigate Errors and Omissions by Design consultants and CEI consultants. A companion [Errors & Omissions Guidelines and Forms](#) document (Redline Dated 3/23/2023) contains additional details to assist with using the procedure. A brief overview training of the procedure can be found in the 2021 Symposium Webinar Series [E&O Webinar Recording](#). Also, the E&O Training provided for the 2021 Construction Academy webinar series can be found [here](#).

Districts track resolution of E&O issues using the **Resolution Tracking Module (RTM) of ProjectSuite Enterprise Edition (PSEE)**, which is an internal FDOT application. Districts also have Errors and Omissions Liaison Contacts to assist project managers with E&O issues. See the list below.

Governor Ron DeSantis Announces Moving Florida Forward Infrastructure Initiative

Governor DeSantis announced the Moving Florida Forward initiative to expedite transportation projects over the next four years. If passed by the legislature, this proposal would invest \$4 billion of general revenue, redirect an average of \$131 million annually to the State Transportation Work Program, and leverage additional funding over the next four years for a total of \$7 billion to strengthen Florida's transportation infrastructure to accommodate the growing number of people that rely on Florida's roadways.

Consultant Errors & Omissions

	A	B	C	D	E	F	G	H	I	J	K
1	3/1/2023	<== DATA DOWNLOAD DATE									
2	Flag Descriptions: for Format tab.										
3	1. Col. F (Construction Contract) - flags EMPTY cells. [<i>Should be directly tied to a Constr. Contract if it's in the system.</i>]										
4	2. Col. G (Consultant Contract) - flags EMPTY cells. [<i>Should be associated with a Consult. Contract soon after Created Date.</i>]										
5	3. Col. H (Avoidable Code) - flags 3 - AVOIDABLE-CONSULTANT CEI . [<i>Historical data shows that Avoidable Code 3 is very rare. These are not currently included in our annual report; however, they should be resolved following the same performance metrics.</i>]										
6	4. Col. I (RFI) - flags YES . [<i>Is this truly just an RFI and not an E&O? RFI can be used to track potential issues early in the process until issue is determined to be (or not to be) an E&O.</i>]										
7	5. Col. J (Created Date) - flags EMPTY cells; returns N/A if pre-2019. [<i>Dates must be entered immediately to keep data "clean."</i>]										
8	6. Col. K (Discovery Date) - flags EMPTY cells. [<i>Dates must be entered immediately to keep data "clean."</i>]										
9	7. Col. L (Resolution Date) - flags NOT EMPTY cells. [<i>If there's a Resolution Date, why is the issue still "In-Review"?</i>]										
10	8. Col. M (Final Acceptance Date) - [<i>no flags currently defined.</i>]										
11	Note: Col. N (Passed Date) - [<i>no flags currently defined.</i>]										
12	9. Col. O (# days beyond Passed Date) - [<i>See Color Legend.</i>]										
13	Color Legend										
14	0 < x days ≤ 90										
15	90 < x days ≤ 180										
16	180 < x days ≤ 270										
17	270 < x days ≤ 365										
18	x days >365										
19	10. Col. P (Premium Cost Initial) - flags EMPTY cells. [<i>Premium Cost must be entered as soon as determined.</i>]										
20	11. Col. Q (EO Premium Cost) - [<i>flags issues that have Final Negotiated Amount but no EO Premium Cost.</i>]										
21	Note: Col. R (Negotiated Recovery Amount) - [<i>no flags currently defined, but see FLAG defined for Col. Q.</i>]										
22	12. Col. S (Total Amount Recovered) - flags NOT EMPTY cells [<i>Recovered issues are not typically still IN REVIEW</i>]										
23	13. Col. T (Status) - flags NEW . [<i>NEW is for issues imported automatically into RTM. NEW issues must be changed to IN REVIEW as soon as realized and prior to entering data into any other fields.</i>]										
24	14. Col. U (# days beyond Discovery Date) - [<i>See Color Legend.</i>]										
25	Color Legend										
26	0 < x days ≤ 180										
27	180 < x days ≤ 365										
28	365 < x days ≤ 540										
29	540 < x days ≤ 730										
30	x days >730
