SUBJECT: July 2015 FDOT Standard Specifications for Road and Bridge Construction

BACKGROUND

The State Program Management Office has released the July 2015 FDOT Standard Specifications for Road and Bridge Construction. The July 2015 Standard Specifications is a consolidation of the January 2015 Standard Specifications eBook with approved revisions through June 2015. The July 2015 Standard Specifications is electronic only and published as an eBook on the Specifications web site at the following address:

<http://www.dot.state.fl.us/specificationsoffice/Implemented/Specbooks/Default.shtm>

The eBook is provided in Adobe Acrobat (.pdf) format and includes bookmarks, hyperlinks and search capabilities. It may be viewed online, downloaded or printed.

The July 2015 Standard Specifications shall be implemented on all projects let July 1, 2015 through December 31, 2015. All Plans beginning with the July 2015 letting shall include a reference to the new July 2015 Standard Specifications for Road and Bridge Construction on the key sheets. This will ensure uniform reference to this new publication.

We are re-releasing the July 2015 eBook for the FDOT Standard Specifications for Road and Bridge Construction dated March 3, 2015 due to the inadvertent omission of the Mandatory Specification modifications from the January 2015 eBook. Please delete the February 27, 2015 version of the July

2015 eBook and replace with the current version. We apologize for any inconvenience that this may have placed on you.

If you have any questions, please contact Dan Scheer at (850) 414-4130 or by e-mail at daniel.scheer@dot.state.fl.us.
