

Florida Department of Transportation

JEB BUSH
GOVERNOR

605 Suwannee Street
Tallahassee, FL 32399-0450

JOSÉ ABREU
SECRETARY

DATE: January 1, 2005

TO: Pavement Type Selection Manual Users

FROM: 
Bruce Dietrich, P.E.
State Pavement Design Engineer

SUBJECT: IMPLEMENTATION – PAVEMENT TYPE SELECTION MANUAL
JANUARY 1, 2005 UPDATE

The changes in pavement type selection requirements are to be implemented as follows:

SUMMARY OF CHANGE:

Pavement Type Selection analyses are now also required on high volume resurfacing projects greater than one half mile where there is a history of poor performance.

Design, MOT, and CEI costs should also be included in life cycle cost analyses.

Copies of annual pavement type selection reports and specific project pavement type selection analyses should be sent to the Central Office Pavement Management Section for Quality Assurance review.

IMPLEMENTATION:

Implementation should be as soon as practical without impacting current production schedules.
