AWARD CONDITIONS

1.

The purpose of this award is to fund CVISN-related deployment and non-deployment projects that include: consultant support to complete Permit Application System enhancements and CVISN program support and maintenance costs for CVISN-related systems.

The FMCSA approves the total project plan, line item budget, and budget narrative at a reduced funding amount from the amount requested in the original application. Funds for 7 non lead State agency employees to attend the annual CVSA conference (\$14,700) is disallowed. Within 30 days of execution of this notice of grant award, the recipient agrees to submit a revised line item budget, budget narrative, and (if applicable) project plan reflecting the annualized figure to the FMCSA Florida Division Office for review and approval.

In addition to the statutory authority located in Block 13, this program is extended by the Surface Transportation and Veterans Health Care Choice Improvement Act of 2015, Pub. L. 114-41, Sec. 1102 (July 31, 2015). This program is extended through October 29, 2015. If enactment of this program authorization does not occur by October 29, 2015, then the Recipient may continue project activities and may expend funds under this grant agreement up to the approved amount in Block 11. However, FMCSA will not be able to reimburse program costs made after October 29, 2015 until the enactment of an authorization extension or reauthorization act.

If the recipient is requesting indirect costs, the recipient may not request these costs for reimbursement until it has submitted a valid indirect cost rate agreement in force to the FMCSA Division Office.

All other terms and conditions remain unchanged.

AWARD ATTACHMENTS

Florida Department of Transportation

FM-CVN-0098-15-01-00

1. FY 2015 FMCSA Financial Assistance Agreement General Provisions and Assurances

FEDERAL MOTOR CARRIER SAFETY ADMINISTRATION
FINANCIAL ASSISTANCE AGREEMENT GENERAL PROVISIONS AND ASSURANCES
November 2014

Section 1. Grant Authority

a. Contract Authority.

The Federal Motor Carrier Safety Administration (FMCSA) authorizing legislation, The Safe, Accountable, Flexible, Efficient Transportation Equity Act: a Legacy for Users (SAFETEA-LU), Pub. L. 109-59, 119 Stat.1144 (2005), *as amended* by Moving Ahead for Progress in the 21st Century (MAP-21), Pub. L. No. 112-141, 126 Stat. 405 (2012) granted FMCSA contract authority. Pursuant to SAFETEA-LU, Pub. L. 109-59, §4101, 119 Stat. 1144, 1725 (2005), as amended by MAP-21 Pub. L. No. 112-141, § 32603, 126 Stat. 405, 805-808 (2012) and codified in 49 U.S.C. §31104, the Secretary of Transportation's approval of the grant funds made available imposes a contractual obligation upon the United States for payment of the Government's share of costs in carrying out the grant objectives.

b. Lapse in Appropriations and/or Authorization.

Except in limited circumstances, the absence of FMCSA appropriations and/or authorization prevents the continuation of Federal supervision and support to the performance of a grant. In the absence of such supervision or support, the Recipient may only continue to proceed with its work if (1) the performance of such grant is not incurring obligations from the lapsed appropriations; (2) if continued grant management supervision or support is not critical to the recipient's continued performance of the work; (3) and FMCSA has approved the continuation of such work. FMCSA will make such determinations in accordance with the Executive Office of the President, Office of Management and Budget, Memorandum "Planning for Agency Operations During a Lapse in Government Funding"(April 7, 2011), and any amendments or updated guidance thereto.

Section 2. Effective Date.

Recipient acknowledges that Federal funds are obligated on the effective date of the Grant Agreement. The effective date is the date that the Grant Agreement contains the authorized signatures of both parties to this agreement. Where the dates accompanying the signatures differ from party to party, the effective date of the Grant Agreement shall be the most recent of these dates.

Section 3. Electronic Signatures.

The Recipient understands that electronic signatures are binding. An electronic signature to the Grant Agreement commits the Recipient to these Provisions and Assurances, as well as all requirements denoted in Section 4.

Section 4. General Requirements.

a. Obligation of Recipient to Comply.

The Recipient understands that by signing the Grant Agreement, the Recipient is agreeing to carry out the approved project plan and the approved budget and to comply with all applicable Federal laws and requirements imposed by the FMCSA concerning special requirements of law, program requirements, and other administrative requirements. This includes, but is not limited to: (1) 49 U.S.C. Chapter 311 (2012), as applicable and denoted in the Notice of Grant Agreement; (2) SAFETEA-LU, Pub. L. No.109–59, § § 4101-4134, 119 Stat. 1144, 1715-1745 (2005), *as amended by* MAP-21, Pub. L. No. 112–141, §32603, 126 Stat. 405, 808 (2012), as applicable and denoted in the Notice of Grant Agreement; (3) U.S. Department of Transportation (DOT) regulations, "Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (2 CFR Part 200) ", and the Federal Grant and Cooperative Agreement Act of 1977.

b. Application of Federal, State, and Local Laws and Regulations.

i. Federal Laws and Regulations.

The Recipient understands that Federal laws, regulations, policies, and related administrative practices applicable to this Agreement on the date the Agreement was executed may be modified from time to time. The Recipient agrees that the most recent of such Federal requirements will govern the administration of this Agreement at any particular time. Likewise, new Federal laws, regulations, policies and administrative practices may be established after the date the Agreement has been executed and may apply to this Agreement. To achieve compliance with changing Federal requirements, the Recipient agrees to include in all subrecipient agreements and third party contracts financed with FMCSA assistance, specific notice that Federal requirements may change and the changed requirements will apply to the Project as required. All limits or standards set forth in this Agreement to be observed in the performance of the Project are minimum requirements.

ii. State or Territorial Law and Local Law.

Except to the extent that a Federal statute or regulation preempts State or territorial law, nothing in this Agreement shall require the Recipient to observe or enforce compliance with any provision thereof, perform any other act, or do any other thing in contravention of any applicable State or territorial law; however, if any of the provisions of this Agreement violate any applicable State or territorial law, or if compliance with the provisions of this Agreement would require the Recipient to violate any applicable State or territorial law, the Recipient agrees to notify the FMCSA immediately **in writing** in order that FMCSA and the Recipient may make appropriate arrangements to proceed with the Project as soon as possible.

c. Subrecipients

State Recipients shall follow State law and procedures when awarding and administering subawards to local and Indian tribal governments in accordance with 2 CFR § 200.317.

All other non-federal entities, including subrecipients of a state, will follow 2 CFR §§ 200.318 General procurement standards through 200.326 Contract provisions.

Subrecipient means a non-Federal entity that receives a subaward from a pass-through entity to carry out part of a Federal program; but does not include an individual that is a beneficiary of such program. A subrecipient may also be a recipient of other Federal awards directly from a Federal awarding agency.

d. Subawards

Subaward means an award provided by a pass-through entity to a subrecipient for the subrecipient to carry out part of a Federal award received by the pass-through entity. It does not include payments to a contractor or payments to an individual that is a beneficiary of a Federal program. A subaward may be provided through any form of legal agreement, including an agreement that the pass-through entity considers a contract.

e. Pass-Through Entity

Pass-through entity means a non-Federal entity that provides a subaward to a subrecipient to carry out part of a Federal program. All Pass-Through Entities must comply fully with 2 CFR §§ 200.330, 200.331, 200.332 and 200.505.

f. Prohibition Against Transferring An Award

The Recipient is prohibited from transferring or subrogating their rights and responsibilities of the grant program and funds associated with that grant to another entity. Subrogation is when a non-federal entity substitutes another entity, not awarded the subject grant by FMCSA, to a lawful claim, demand, or right, so that that entity succeeds to the rights of the other in relation to the debt or claim, and its rights, remedies, or fund access. The act of subawarding to a subrecipient is not considered as the subrogation of the recipient's award.

Section 5. Internal Controls

The Recipient must:

- a.** Establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award. These internal controls should be in compliance with guidance in “Standards for Internal Control in the Federal Government” issued by the Comptroller General of the United States and the “Internal Control Integrated Framework”, issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO);

- b. Comply with Federal statutes, regulations, and the terms and conditions of the Federal awards;
- c. Evaluate and monitor the non-Federal entity's compliance with statute, regulations and the terms and conditions of Federal awards;
- d. Take prompt action when instances of noncompliance are identified including noncompliance identified in audit findings; and
- e. Take reasonable measures to safeguard protected personally identifiable information and other information the Federal awarding agency or pass-through entity designates as sensitive or the non-Federal entity considers sensitive consistent with applicable Federal, state and local laws regarding privacy and obligations of confidentiality.

Section 6. Ethics.

a. Written Code of Ethics

The Recipient agrees to maintain a written code or standards of ethical conduct that shall govern the performance of its officers, employees, board members, or agents engaged in the award and administration of contracts supported by Federal funds. The code or standards shall provide that the Recipient's officers, employees, board members, or agents may neither solicit nor accept gratuities, favors or anything of monetary value from present or potential contractors, subrecipients, or regulated entities. The Recipient may set minimum rules where the financial interest is not substantial or the gift is an unsolicited item of nominal intrinsic value. As permitted by State or local law or regulations, such code or standards shall provide for penalties, sanctions, or other disciplinary actions for violations by the Recipient's officers, employees, board members, or agents, or by contractors or subrecipients or their agents.

b. Personal Conflict of Interest.

The Recipient's code or standards must provide that no employee, officer, board member, or agent of the Recipient may participate in the selection, award, or administration of a contract supported by Federal funds if a real or apparent conflict of interest would be involved. Such a conflict would arise when any of the parties set forth below has a financial or other interest in the firm selected for award:

- i. The employee, officer, board member, or agent;
- ii. Any member of his or her immediate family;
- iii. His or her partner; or
- iv. An organization that employs, is considering to employ, or is about to employ, any of the above.

c. Organizational Conflicts of Interest.

The Recipient's code or standards of conduct must include procedures for identifying and preventing real and apparent organizational conflicts of interests. An organizational conflict of interest exists when the nature of the work to be performed under a proposed third party contract or subaward, may, without some restrictions on future activities, result in an unfair competitive advantage to the contractor or subrecipient or impair the contractor's subrecipient's objectivity in performing the contract work.

Section 7. Hatch Act.

The Recipient agrees to comply, as applicable, with provisions of the Hatch Act (5 U.S.C. §§ 1501-1508 and 7321-7326), which limit the political activities of state or local employees whose principal employment is in connection with programs financed in whole or in part by loans or grants made by the United States or a Federal agency. The Hatch Act specifically exempts employees of educational institutions, and the Hatch is not applicable to private, nonprofit organizations unless the statutes through which the nonprofit organizations derive their federal funding contain a provision stating that the recipient organizations are deemed to be state or local government agencies for purposes of the Hatch Act. On December 19, 2012, Congress passed the Hatch Act Modernization Act of 2012 (the Act). The Act became effective on January 27, 2013. Now, only state, D.C., or local government employees whose salaries are paid for entirely by federal funds are prohibited from running for partisan office. All other state, D.C., and local employees, even if they are otherwise covered by Hatch Act restrictions are free under the Hatch Act to run for partisan office.

Section 8. Limitation on Use of Federal Funds for Lobbying for Grants in Excess of \$100,000.

By signing this agreement the Recipient declares that it is in compliance with 31 U.S.C. Sec. 1352, which prohibits the use of federally appropriated funds to influence a Federal employee, officer, or Member of Congress in connection with the making or modification of any Federal grant, loan, contract, or cooperative agreement. Unless the payment of funds is otherwise reported to FMCSA, signing this agreement constitutes a declaration that no funds, including funds not federally appropriated, were used or agreed to be used to influence this grant. Recipients of subawards in excess of \$100,000 must make the same declarations to the Recipient. With respect to the payment of funds not federally appropriated by the recipient and subrecipients, the Recipient must report to the FMCSA the name and address of each person paid or performing services for which payment is made, the amount paid, and the activity for which the person was paid.

Section 9. Contracting.

a. Federal Standards.

The Recipient and Subrecipients agree to comply with the Procurement Standards requirements set forth at 2 CFR §§ 200.317 through 200.326 inclusive, whichever may be

applicable, and with applicable supplementary U.S. DOT or FMCSA directives or regulations. If determined necessary for proper Project administration, FMCSA reserves the right to review the Recipient's technical specifications and requirements.

Section 10. Notification Requirement.

- a. With respect to any procurement for goods and services (including construction services) having an aggregate value of \$500,000 or more, the Recipient agrees to:
 - i. Specify in any announcement of the awarding of the contract for such goods or services the amount of Federal funds that will be used to finance the acquisition; and
 - ii. Express the said amount as a percentage of the total costs of the planned acquisition.

Section 11. Debarment and Suspension.

The Recipient agrees to obtain certifications on debarment and suspension from its third party contractors and subrecipients and otherwise comply with U.S. DOT regulations, Government-wide Debarment and Suspension (Non-procurement) and Government-wide Requirements for Drug-Free Workplace (Grants), 49 C.F.R. Part 32. This action of certification shall take place for each federal year, regardless of prior certification completed for a subrecipient or contractor.

Section 12. Notification of Third Party Contract or Subaward Disputes or Breaches.

The Recipient agrees to notify FMCSA of any current or prospective major dispute, breach, or litigation pertaining to any third party contract or subaward. If the Recipient seeks to name FMCSA as a party to litigation for any reason, the Recipient agrees first to inform FMCSA before doing so. This provision applies to any type of litigation whatsoever, in any forum.

Section 13. Participation by Small Business Concerns Owned and Controlled by Socially and Economically Disadvantaged Individuals.

FMCSA encourages the Recipient to utilize small business concerns owned and controlled by socially and economically disadvantaged individuals (as that term is defined for other DOT agencies in 49 C.F.R. Part 26) in carrying out the Project.

Section 14. Records Retention.

a. Requirement to Retain Records.

During the course of the Project and for three years after the final voucher is submitted, the Recipient agrees to retain intact and to provide any data, documents, reports, records, contracts, and supporting materials relating to the Project as FMCSA may require. Reporting and record-keeping requirements are set forth in 2 C.F.R. § 200.333.

b. Access to Recipient and Subrecipient Records.

The Recipient, and related subrecipients, will give FMCSA, the Secretary of Transportation, the Comptroller General of the United States, or any of their duly authorized representatives, and, if appropriate the State, through any authorized representative, access to and the right to examine all records, books, papers or documents related to the award and will establish a proper accounting system in accordance with generally accepted accounting standards. Access requirements to records are set forth in 2 CFR § 200.336.

Section 15. Audit and Inspection.

a. Inspector General Act of 1978.

Under the Inspector General Act of 1978, as amended, 5 U.S.C. App. 3 § 1 et seq., an audit of the award may be conducted at any time.

b. Single Audit Act Amendments of 1996.

The Recipient agrees to undergo the required financial and compliance audits in accordance with the Single Audit Act Amendments of 1996 and 2 CFR § 200.501.

c. Audit Requirements.

A Recipient that is: (a) a State, local government or Indian tribal government, an institution of higher education or nonprofit organization agrees to comply with the audit requirements of 2 CFR § 200.501, and any revision or supplement thereto; (c) a private for-profit organization agrees to comply with the audit requirements of 2 CFR § 200.501(h).

It is imperative that Recipients submit required Single Audits within the time limits specified in the Circular. The Recipient agrees to submit the data collection form and copies of the reporting package required under the Single Audit Act Amendments of 1996 and 2 CFR § 200.501 to the Federal Audit Clearinghouse Bureau of the Census, 1201 East 10th Street Jefferson, IN 47132.

The Recipient agrees to obtain any other audits required by FMCSA. Project closeout will not alter the Recipient's audit responsibilities. Audit costs for Project administration and management are allowable under this Project to the extent authorized by 2 CFR § 200.501.

The Recipient agrees to permit FMCSA, the Secretary of Transportation and the Comptroller General of the United States, or their authorized representatives, to inspect all Project work, materials, payrolls, and other data, and to audit the books, records, and accounts of the Recipient and its subrecipients pertaining to the Project. The Recipient agrees to require each subrecipient to permit the Secretary of Transportation and the Comptroller General of the United States, or their duly authorized representatives, to

inspect all work, materials, payrolls, and other data and records involving that subaward, and to audit the books, records, and accounts involving that subaward as it affects the Project.

Section 16. Responsibility for Reporting Fraudulent Activity, Waste and Abuse.

The Recipient understands that the Federal government shall pursue administrative, civil, or criminal action under a variety of statutes relating to fraud and making false statement or claims.

The Recipient is required to contact the DOT, the Office of Inspector General (OIG), if the Recipient becomes aware of the existence (or apparent existence) of fraudulent activity, waste, or abuse.

The OIG has authority within the DOT to conduct criminal investigations. The DOT OIG maintains a post office box and a toll-free hotline for receiving information from individuals concerning fraud, waste, or abuse under DHS grants and cooperative agreements. The hotline is available 24 hours a day, 7 days a week. <http://www.oig.dot.gov/Hotline>. The identity of the caller is kept confidential, and callers are not required to give their names.

Examples of fraud, waste, and abuse that should be reported include, but are not limited to, embezzlement, misuse, or misappropriation of grant funds or property, and false statements, whether by organizations or individuals. Other examples include, but not limited to, theft of grant funds for personal use; using funds for non-grant-related purposes; theft of federally owned property or property acquired or leased under a grant; charging inflated building rental fees for a building owned by the Recipient; submitting false financial reports; and submitting false financial data in bids submitted to the Recipient (for eventual payment under the grant).

Section 17. Budget and Finance.

The Recipient agrees to carry out Agreement activities and seek reimbursement in accordance with the Approved Project Budget after securing FMCSA written approval. The funding of items identified in the budget constitutes FMCSA's authorization for the Recipient to incur these costs, if they are allowable, allocable, necessary, and reasonable. Furthermore, funds cannot be spent that violate any FMCSA policy or grants manual. Costs not specifically budgeted in this Agreement may be allowable provided that prior approval is not required and costs are incurred consistently with the applicable cost principles.

Prior Approval means written permission provided by an FMCSA authorized official in advance of an act that would result in either (1) the obligation or expenditure of funds or (2) the performance or modification of an activity under the grant-supported project where such approval is required. Prior approval must be obtained in writing from the designated Grants Management Officer or FMCSA authorized official for the grant involved. Documentation of the approved budget on the Notice of Grant Award constitutes prior approval. Prior approval applies for the performance of activities and expenditure of funds as described in the grant application, unless otherwise restricted by the terms and conditions of the Agreement.

In accordance with 2 C.F.R. § 200.407 and § 200.308, the Recipient must obtain prior, written approval from FMCSA before making any revisions to the approved project budget and/or project plan: (1) extending the project period of the grant beyond the project period end date specified in the most recent revision of the Agreement; (2) that would require any transfer of funds between Standard Form (SF) 424A (direct-cost budget categories) cumulatively greater than ten percent of the total approved project budget; and (3) that require the addition of expenditures for items or services not approved in the original project plan. Examples may include the increase of equipment purchased or the subawarding, transferring or contracting out of any work under a Federal award. This may also include revisions to the indirect cost rate.

The Recipient agrees to submit a request for prior approval no less than 30 days prior to the expiration of the Agreement. The FMCSA will not process requests for prior approval received less than 30 days from the Agreement expiration date. Within 30 calendar days from the date of the Recipient's request for prior approval, FMCSA will review the request and notify the Recipient whether the request has been approved. If the revision is still under consideration at the end of 30 calendar days, FMCSA will inform the Recipient in writing of the date when the Recipient may expect the decision.

The Recipient may, without prior approval from FMCSA, make any reasonable and necessary modification to the project budget provided that such deviations do not cumulatively exceed, or expect to exceed, ten percent of the total approved project amount and provided that such deviations only involve the transfer of funds between expenditure items, cost objectives or categories authorized by FMCSA in the currently approved budget. The Recipient agrees to notify FMCSA of this change.

The Recipient agrees to establish and maintain for the Project either a separate set of accounts or accounts within the framework of an established accounting system, in a manner consistent with 2 C.F.R. § 200.302, as amended, whichever is applicable. Consistent with the provisions of 2 C.F.R. § 200.305, as amended, whichever is applicable, the Recipient agrees to record in the Project Account, and deposit in a financial institution all Project payments received by it from FMCSA pursuant to this Agreement and all other funds provided for, accruing to, or otherwise received on account of the Project (Project Funds). The Recipient is encouraged to use financial institutions owned at least 50 percent by minority group members. All costs charged to the Project, including any approved services contributed by the Recipient or others, shall be supported by properly executed payrolls, time records, invoices, contracts, or vouchers describing in detail the nature and propriety of the charges. All matches shall be supported by appropriate records. The Recipient also agrees to maintain accurate records of all Program Income derived from Project implementation. The Recipient agrees that all checks, payrolls, invoices, contracts, vouchers, orders, or other accounting documents pertaining in whole or in part to the Project shall be clearly identified, readily accessible, and, to the extent feasible, kept separate from documents not pertaining to the Project.

Section 18. Payments.

a. Request by the Recipient for Payment.

The Recipient's request for payment of the Federal share of allowable costs shall be made to FMCSA and will be acted upon by FMCSA as set forth in this section. Each payment made to the Recipient must comply with Department of the Treasury regulations, "Rules and Procedures for Funds Transfers," 31 C.F.R. Part 205. To receive a Federal assistance payment, the Recipient must:

- i.** Have demonstrated or certified that it has made a binding commitment of non- Federal funds, if applicable, adequate when combined with Federal payments, to cover all costs to be incurred under the Project to date. A Recipient required by Federal statute or this Agreement to provide contributory matching funds or a cost share agrees:
 - 1.** To refrain from requesting or obtaining Federal funds in excess of the amount justified by the contributory matching funds or cost share that has been provided; and
 - 2.** To refrain from taking any action that would cause the proportion of Federal funds made available to the Project at any time to exceed the percentage authorized under this Agreement. The requirement for contributory matching funds or cost share may be temporarily waived only to the extent expressly provided in writing by FMCSA.
- ii.** Have submitted to FMCSA all financial and progress reports required to date under this Agreement;
- iii.** Have identified the source(s) of financial assistance provided under this Project, if applicable, from which the payment is to be derived; and
- iv.** Have expended any earned Program Income before requesting any federal funds for reimbursement.

b. Delphi eInvoicing System for Department of Transportation (DOT) Financial Assistance Awardees

- i.** Subject to the requirements in 2 CFR § 200.305, payments will be made after receipt of required FMCSA reporting forms and supporting documentation. Each payment request must be made electronically via the Delphi eInvoicing System.
- ii.** The following are the procedures for accessing and utilizing the Delphi eInvoicing System.
- iii.** Grant Recipient Requirements

1. Recipient must have internet access to register and submit payment requests through the Delphi eInvoicing system.
2. Recipient must submit payment requests electronically and FMCSA must process payment requests electronically.

iv. System User Requirements

1. Recipients should contact FMCSA to request access to the system. The FMCSA will provide the Recipient's name and email address to the DOT Financial Management Office. The DOT will then notify the Recipient to register for the system through an electronic invitation. The Recipient must complete online training prior to DOT giving system access.
2. The DOT will send the Recipient an email with an electronic form to verify the Recipient's identity. The Recipient must complete the form, and present it to a Notary Public for verification. The Recipient will return the notarized form to:

DOT Enterprise Services Center
 FAA Accounts Payable, AMZ-100
 PO Box 25710
 Oklahoma City, OK 73125

3. The DOT will validate the form and email a user ID and password to the recipient. The recipient should contact the FMCSA grants management office with changes to their system information.
4. Note: Additional information, including access forms and training materials, can be found on the DOT eInvoicing website:
 (http://www.dot.gov/cfo/delphi-einvoicing-system.html)

v. Waivers

1. DOT Financial Management officials may, in highly limited circumstances and on a case by case basis, waive the requirement to register and use the electronic grant payment system. Waiver request forms can be obtained on the DOT eInvoicing website (<http://www.dot.gov/cfo/delphi-einvoicing-system.html>) or by contacting FMCSA. Recipients must explain why they are unable to use or access the internet to register and enter payment requests.

c. Reimbursement Payment by FMCSA.

- i. If the reimbursement method is used, the Recipient agrees to:
 1. Complete and submit Standard Form 3881, "Payment Information Form - ACH Payment Vendor Payment System," to FAA-ESC; and

2. Complete and submit, on at least a quarterly basis, Standard Form 270, "Request for Advance or Reimbursement," to FMCSA.
3. Possess and maintain a current DUNs number and entity registration with the System for Award Management (www.sam.gov).
- ii. Upon receipt of a payment request and adequate accompanying information (invoices in accordance with applicable cost principles), FMCSA will authorize payment by direct deposit provided the Recipient: (i) is complying with its obligations under this Agreement, (ii) has satisfied FMCSA that it needs the requested Federal funds during the requisition period, and (iii) is making adequate and timely progress toward Project completion. If all these circumstances are present, FMCSA may reimburse allowable costs incurred by the Recipient up to the maximum amount of FMCSA's share of the total Project funding. FMCSA will employ a payment term of 20 days. The clock will start running for payment on receipt of the invoice by FMCSA's financial processor.

d. Other Payment Information.

The Recipient agrees to adhere to and impose on its subrecipients all applicable foregoing "Payment by FMCSA" requirements of this Agreement. If the Recipient fails to adhere to the foregoing "Payment by FMCSA" requirements of this Agreement, FMCSA may revoke the portion of the Recipient's funds that has not been expended.

e. Effect of Program Income, Refunds, and Audit Recoveries on Payment.

In accordance with 2 CFR § 200.305(b)(5) State, local government, Nonprofit organizations and Indian tribal Recipients and subrecipients shall disburse program income, rebates, refunds, contract settlements, audit recoveries and interest earned on such funds before requesting additional cash reimbursements.

f. Allowable Costs.

The Recipient's expenditures will be reimbursed only if they meet all requirements set forth below:

1. Conform with the Project description and the approved Project Budget and all other terms of this Agreement;
2. Be necessary in order to accomplish the Project;
3. Be reasonable for the goods or services purchased;
4. Be actual net costs to the Recipient (i.e., the price paid minus any refunds, rebates, or other items of value received by the Recipient that have the effect of reducing the cost actually incurred);

5. Be incurred (and be for work performed) **after** the Federal Funding Period start date of this Agreement, unless specific prior authorization from FMCSA to the contrary is received **in writing** (pre-award costs);
 6. Unless permitted otherwise by Federal statute or regulation, conform with Federal guidelines or regulations and Federal cost principles as set forth below:
 - a. For Recipients that are governmental organizations, institutions of higher education, private non-profit organizations, the cost principles of 2 C.F.R. § 200 – Subpart E; and
 - b. For Recipients that are for-profit organizations, the standards of the Federal Acquisition Regulation, 48 C.F.R. Chapter I, Subpart 31.2, "Contracts with Commercial Organizations" apply.
 7. Be satisfactorily documented; and
 8. Be treated uniformly and consistently as non-federal funds under accounting principles and procedures approved and prescribed by FMCSA for the Recipient, and those approved or prescribed by the Recipient for its subrecipients and contractors.
- g. Indirect Costs.**

Indirect costs will not be reimbursed without documentation of an approved indirect cost rate from the recipient's cognizant agency; however, a Recipient or Subrecipient that has **never** had a negotiated indirect cost rate may elect to charge a de minimis rate of 10% of modified total direct costs (MTDC) which may be used indefinitely, without documentation. As described in 2 CFR § 200.403 Factors affecting allowability of costs, costs must be consistently charged as either indirect or direct costs, but may not be double charged or inconsistently charged as both. If chosen, this methodology once elected must be used consistently for **all** Federal awards until such time as a non-Federal entity chooses to negotiate for a rate, which the non-Federal entity may apply to do at any time. Except as provided above, if a recipient intends to request reimbursement of indirect costs, the Recipient must submit the proper documentation before vouchers are submitted for reimbursement. The recipient must indicate in its budget that it will be seeking indirect costs, and a placeholder indirect cost rate will suffice until a final rate can be determined.

The Recipient must obtain prior approval through formal amendment in order to recover indirect costs at a negotiated indirect cost rate higher than the place holder indirect cost rate if the cumulative amount of such transfer exceeds or is expected to exceed 10 percent of the total approved budget.

The recipient may not request additional grant funds to recover indirect costs that it cannot recover by shifting direct costs to indirect costs. After this Grant Agreement has been signed, any request for changes to the indirect cost rate requires an amendment and

must be approved by formal amendment if the change to the indirect cost rate is a new rate or would cause the cumulative amount of a budget transfer to exceed 10 percent of the total approved budget.

The cognizant agency may allow for a one-time extension of the current indirect cost rate of a recipient without further negotiation of a federally approved negotiated indirect cost rate for up to four years. If the cognizant agency permits any one-time extension, the recipient is locked in with that indirect cost rate until the end of the approved extension.

h. Pre-Award Costs.

A Recipient may be reimbursed for obligations incurred before the effective date of the award if:

- i.** The Recipient receives **prior** written approval from the FMCSA before the effective date of the grant agreement;
- ii.** The costs are necessary to conduct the project; and
- iii.** The costs would be allowable under the grant, if awarded.

If a specific expenditure would otherwise require prior approval before making the expenditure (i.e. pursuant to [2 C.F.R. §200.407](#)), then the Recipient must obtain FMCSA written approval before incurring the cost.

Recipient understands that the incurrence of pre-award costs in anticipation of an award is taken at the Recipient's risk and imposes no obligation on FMCSA to make the award or to increase the amount of the approved budget if (1) there is no award subsequently made; (2) an award is made for less than anticipated and is inadequate to cover the pre-award costs incurred; or (3) there are inadequate appropriations.

i. Disallowed Costs.

In determining the amount of Federal assistance FMCSA will provide, FMCSA will exclude:

- i.** Any Project costs incurred by the Recipient before the effective date of this Agreement, or amendment or modification thereof, whichever is later, unless otherwise permitted by Federal law or regulation, or unless an authorized representative of FMCSA states in writing to the contrary;
- ii.** Any costs incurred by the Recipient that are not included in the latest approved Project Budget; and

- iii. Any costs attributable to goods or services received under a contract or other arrangement that is required to be, but has not been, concurred in or approved in writing by FMCSA.

The Recipient agrees that reimbursement of any cost under the "Payment by FMCSA," part of this Agreement does not constitute a final FMCSA decision about the allowability of that cost and does not constitute a waiver of any violation by the Recipient of the terms of this Agreement. The Recipient understands that FMCSA will not make a final determination about the allowability of any cost until an audit of the Project has been completed. If FMCSA determines that the Recipient is not entitled to receive any part of the Federal funds requested, FMCSA will notify the Recipient stating the reasons thereof. Project closeout will not alter the Recipient's obligation to return any funds due to FMCSA as a result of later refunds, corrections, or other transactions. Nor will Project closeout alter FMCSA's right to disallow costs and recover funds on the basis of a later audit or other review. Unless prohibited by law, FMCSA may offset any Federal assistance funds to be made available under this Project as needed to satisfy any outstanding monetary claims that the Federal Government may have against the Recipient. Exceptions pertaining to disallowed costs will be assessed based on their applicability, as set forth in the applicable Federal cost principals or other written Federal guidance.

Section 19. Program Income

Recipient agrees to comply with the regulations relating to program income, located at 2 CFR 200.307 for State, local government, Indian tribal recipients, and non-profit organizations and their subrecipients.

Program income means gross income earned by the recipient, subrecipient, or contractor under a grant that is directly generated by a grant supported activity or earned as a result of the award during the award period. "During the grant period" is the time between the effective date of the award and the ending date of the award reflected in the final financial report.

Program income includes, but is not limited to, user charges or user fees, income from fees for services performed, the use or rental of real or personal property acquired under federally-funded projects, the sale of commodities or items fabricated under an award, license fees and royalties on patents and copyrights, and interest on loans made with award funds. Interest earned on advances of Federal funds is not program income. Except as otherwise provided in Federal awarding agency regulations or the terms and conditions of the award, program income does not include the receipt of principal on loans, rebates, credits, discounts, etc., or interest earned on any of them. Per 2 CFR 200.307 (c) Governmental revenues. Taxes, special assessments, levies, fines, and other such revenues raised by a non-Federal entity are not program income unless the revenues are specifically identified in the Federal award or Federal awarding agency regulations as program income.

Recipients agree to use the Program income in accordance with 2 CFR § 200.307 and 2 CFR §305 (b)(5) for State, local government, nonprofit organizations and Indian tribal recipients and subrecipients.

Section 20. Reports.

a. Performance Progress Reports.

The Recipient will submit, at a minimum, quarterly performance progress reports and a final performance progress report at the completion of the award (within 90 days after) to the agency point of contact listed in the award document. Recipient must submit all performance progress report forms required by FMCSA. These reports will cover the period: January 1-March 31, April 1-June 30, July 1-September 30, and October 1-December 31. The Recipient shall furnish one (1) copy of a quarterly performance progress report to the district office and respective Grant Manager, on or before the thirtieth (30th) calendar day of the month following the end of the quarter being reported. Each quarterly report shall set forth concise statements concerning activities relevant to the Project, and shall include, but not be limited to, the following:

- i. An account of significant progress (findings, events, trends, etc.) made during the reporting period;
- ii. A description of any technical and/or cost problem(s) encountered or anticipated that will affect completion of the grant within the time and fiscal constraints as set forth in this Agreement, together with recommended solutions or corrective action plans (with dates) to such problems, or identification of specific action that is required by the FMCSA, or a statement that no problems were encountered;
- iii. An outline of work and activities planned for the next reporting period; and
- iv. Provide status update/resolution for all outstanding findings from program reviews and/or audits.

b. Quarterly Financial Status Reports.

The Recipient shall furnish one (1) copy of a quarterly financial status report to the division, and one (1) copy to the respective Grant Manager, on or before the thirtieth (30th) calendar day of the month following the end of the quarter being reported. The Recipient shall use SF 425, Federal Financial Report, to report the status of funds for all non-construction projects or programs. The Recipient shall report outlays (federal and applicable non-federal match/cost sharing and program income, if any, on an accrual basis. However, if the Recipient's accounting records are not normally kept on an accrual basis, the Recipient shall not be required to convert its accounting system, but shall develop such accrual information through an analysis of the documentation on hand. The Recipient shall certify to the expenditure of its proposed cost share for the period being reported, in the "Remarks" block.

Section 21. Non-Discrimination.

The Recipient will comply with all Federal statutes relating to nondiscrimination. These include but are not limited to: (a) Title VI of The Civil Rights Act of 1964 (P.L. 88-352) which prohibits discrimination on the basis of race, color, or national origin; (b) Title IX of the Education Amendments of 1972, as amended (20 U.S.C. §§ 1681-1683, and 1685-1686), which prohibits discrimination on the basis of sex; (c) Sections 504 and 508 of the Rehabilitation Act of 1973, as amended (29 U.S.C. §§794, 794(d), which prohibit discrimination on the basis of disabilities; (d) the Age Discrimination Act of 1975, as amended (42 U.S.C. § 6101-6107), which prohibits discrimination on the basis of age; (e) the Drug Abuse Office and Treatment Act of 1972 (P.L. 92-255), as amended, relating to nondiscrimination on the basis of drug abuse; (f) the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act of 1970 (P.L. 91-616), as amended, relating to nondiscrimination on the basis of alcohol abuse or alcoholism; (g) the Public Health Service Act of 1912 (42 U.S.C. §290dd-2), relating to confidentiality of alcohol and drug abuse patient records; (h) Title VIII of the Civil Rights Act of 1968 (42 U.S.C. §§ 3601 *et seq.* relating to nondiscrimination in the sale, rental or financing of housing; and (i) the requirements of any other nondiscrimination statute(s) which may apply to the application.

The Recipient also agrees to comply with the FMCSA Title VI Assurances.

Section 22. Executive Order on Equal Opportunity Related to Contracts.

- a. The Recipient will comply with all Federal statutes and Executive Orders relating to Equal Employment Opportunity.
 - i. The Recipient agrees to incorporate in all contracts having a value of over \$10,000, the provisions requiring compliance with Executive Order 11246, as amended, and implementing regulations of the United States Department of Labor at 41 CFR 60, the provisions of which, other than the standard EEO clause and applicable goals for employment of minorities and women, may be incorporated by reference.
 - ii. The Recipient agrees to ensure that its contractors and subcontractors, regardless of tier, awarding contracts and/or issuing purchase orders for material, supplies, or equipment over \$10,000 in value will incorporate the required EEO provisions in such contracts and purchase orders.

Section 23. Employment Policies.

The Recipient further agrees that its own employment policies and practices will be without discrimination based on race, color, religion, sex, national origin, disability or age; and that it has an affirmative action plan (AAP) consistent with the Uniform Guidelines on Employee Selection Procedures, 29 CFR 1607, and the Affirmative Action Guidelines, 29 CFR 1608. The applicant/recipient shall provide the AAP to FMCSA for inspection or copy upon request.

Section 24. Property.

In general, title to equipment and supplies acquired by a Recipient with DOT funds vests in the Recipient upon acquisition, subject to the property management requirements of 2 CFR Sections 200.302(b)(4); 200.307(d); 200.310; 200.313; 200.316; and 200.344(4)..

A Recipient that is a State, local, or Indian tribal governments, institutions of higher education, and non-profits agrees to comply with the property management standards as defined in 2 CFR § 200.33 and detailed in §§ 200.312 and 200.313, including any amendments thereto, and with other applicable Federal regulations and directives . A Recipient that is a for-profit entity agrees to comply with property management standards satisfactory to FMCSA.

a. Use of Project Property.

The State Recipient agrees to use Project property for the purpose for which it was acquired under the period of performance of the Grant. State recipients acknowledge that the FMCSA may ensure that the purpose of the grant is being satisfied. State recipients acknowledge that FMCSA may request a copy of the State statute and procedures in determining whether a State is in compliance with its own State procedures, and to assist the FMCSA in determining the allocability, reasonableness, and allowability of costs.

The Non-State Recipient agrees to use Project property for appropriate Project purposes (which may include joint development purposes that generate program income, both during and after the award period, beginning on the effective date, and used to support public transportation activities) for the duration of the useful life of that property, as required by FMCSA. Should the Recipient unreasonably delay or fail to use Project property during the useful life of that property, the Recipient agrees that it may be required to return the entire amount of the Federal assistance expended on that property. The Non-State Recipient further agrees to notify FMCSA immediately when any Project property is withdrawn from Project use or when any Project property is used in a manner substantially different from the representations the Recipient has made in its Application or in the Project Description for the Grant Agreement or Cooperative Agreement for the Project.

b. Maintenance.

The State Recipient agrees to maintain Project property in accordance with State law and procedures.

The Non-State Recipient agrees to maintain Project property in good operating order, in compliance with any applicable Federal regulations or directives that may be issued.

c. Records.

The State Recipient agrees to maintain property records in accordance with State law and procedures. The Non-State Recipient agrees to keep satisfactory property records

pertaining to the use of Project property, and submit to FMCSA upon request such information as may be required with this agreement.

d. Incidental Use.

Any incidental use of Project property will not exceed that permitted under applicable Federal laws, regulations, and directives.

e. Encumbrance of Project Property.

The State Recipient agrees to maintain satisfactory continuing control of Project property in accordance with State law and procedures. The State Recipient understands that an encumbrance of project property may not interfere with the purpose for which the equipment was purchased.

The Non-State Recipient agrees to maintain satisfactory continuing control of Project property as follows:

i. Written Transactions.

The Non-State Recipient agrees that it will not execute any transfer of title, lease, lien, pledge, mortgage, encumbrance, third party contract, subaward, grant anticipation note, alienation, innovative finance arrangement (such as a cross border lease, leveraged lease, or otherwise), or any other obligation pertaining to Project property, that in any way would affect the continuing Federal interest in that Project property.

ii. Oral Transactions.

The Non-State Recipient agrees that it will not obligate itself in any manner to any third party with respect to Project property.

iii. Other Actions.

The Non-State Recipient agrees that it will not take any action adversely affecting the Federal interest in or impair the Recipient's continuing control of the use of Project property.

iv. Purpose.

The Non-State Recipient agrees that no use under this section will interference with the purpose for which the equipment was purchased.

f. Transfer of Project Property.

The State Recipient agrees to transfer Project property in accordance with State law and procedures. The Non-State Recipient understands and agrees as follows:

i. Non-State Recipient Request.

The Non-State Recipient may transfer any Project property financed with Federal assistance authorized under 49 U.S.C. chapter 53 to a public body to be used for any public purpose with no further obligation to the Federal Government, provided the transfer is approved by the FMCSA Administrator and conforms with the requirements of 49 U.S.C. §§ 5334(h)(1) and (2). Any leasing or rental of equipment purchased by federal funds or state match/cost sharing, during the period of performance will be considered program income and will be managed, expended, and reported per 2 CFR § 200.307.

ii. Federal Government Direction.

The Non-State Recipient agrees that the Federal Government may direct the disposition of, and even require the Recipient to transfer, title to any Project property financed with Federal assistance under the Grant Agreement or Cooperative Agreement.

iii. Leasing Project Property to Another Party.

If the Non-State Recipient leases any Project property to another party, the Non-State Recipient agrees to retain ownership of the leased Project property, and assure that the lessee will use the Project property appropriately, either through a written lease between the Non-State Recipient and lessee, or another similar document. Upon request by FMCSA, the Non-State Recipient agrees to provide a copy of any relevant documents. Any leasing or rental of equipment purchased by federal funds or state match/cost sharing, during the period of performance will be considered program income and will be managed, expended, and reported per 2 CFR § 200.307.

g. Disposition of Project Property.

The State Recipient may use its own disposition procedures, provided that those procedures comply with the laws of that State.

The Non-State Recipient agrees to dispose of Project property as follows:

With prior FMCSA approval, the Non-State Recipient may sell, transfer, or lease Project property and use the proceeds to reduce the gross project cost of other eligible capital public transportation projects to the extent permitted by 49 U.S.C. §5334(h)(4). The Non-State Recipient also agrees that FMCSA may establish the useful life of

Project property, and that it will use Project property continuously and appropriately throughout the useful life of that property.

- i. Project Property with Expired Useful Life.** When the useful life of Project property has expired, the Non-State Recipient agrees to comply with FMCSA's disposition requirements.
- ii. Project Property Prematurely Withdrawn from Use.** For Project property withdrawn from appropriate use before its useful life has expired, the Recipient agrees as follows:
 - 1. Notification Requirement.** The Non-State Recipient agrees to notify FMCSA immediately when any Project property is prematurely withdrawn from appropriate use, whether by planned withdrawal, misuse, or casualty loss.
 - 2. Calculating the Fair Market Value of Prematurely Withdrawn Project Property.** The Non-State Recipient agrees that the Federal Government retains a Federal interest in the fair market value of Project property prematurely withdrawn from appropriate use. The amount of the Federal interest in the Project property shall be determined by the ratio of the Federal assistance awarded for the property to the actual cost of the property. The Non-State Recipient agrees that the fair market value of Project property prematurely withdrawn from use will be calculated as follows:
 - A. Equipment and Supplies.** The Non-State Recipient agrees that the fair market value of Project equipment and supplies shall be calculated by straight-line depreciation of that property, based on the useful life of the equipment or supplies as established or approved by FMCSA. Information on straight line depreciation may be found in the Internal Revenue Code. The fair market value of Project equipment and supplies shall be the value immediately before the occurrence prompting the withdrawal of the equipment or supplies from appropriate use. In the case of Project equipment or supplies lost or damaged by fire, casualty, or natural disaster, the fair market value shall be calculated on the basis of the condition of that equipment or supplies immediately before the fire, casualty, or natural disaster, irrespective of the extent of insurance coverage.
 - B. Real Property.** The Non-State Recipient agrees that the fair market value of real property shall be determined either by competent appraisal based on an appropriate date approved by the Federal Government, as provided by 49 C.F.R. Part 24, or by straight line depreciation, whichever is greater.
 - 3. Exceptional Circumstances.** The Non-State Recipient agrees that the Federal Government may require the use of another method to determine the fair market value of Project property. In unusual circumstances, the Non-State Recipient may request that another reasonable valuation method be used including, but not limited to, accelerated depreciation, comparable sales, or established market

values. In determining whether to approve such a request, the Federal Government may consider any action taken, omission made, or unfortunate occurrence suffered by the Non-State Recipient with respect to the preservation of Project property withdrawn from appropriate use.

h. Financial Obligations to the Federal Government.

The Recipient agrees to remit to the Federal Government the Federal interest in the fair market value of any Project property prematurely withdrawn from appropriate use. In the case of fire, casualty, or natural disaster, the Recipient may fulfill its obligations to remit the Federal interest by either:

- i. Investing an amount equal to the remaining Federal interest in like-kind property that is eligible for assistance within the scope of the Project that provided Federal assistance for the Project property prematurely withdrawn from use; or
- ii. Returning to the Federal Government an amount equal to the remaining Federal interest in the withdrawn Project property.

i. Insurance Proceeds.

If the Recipient receives insurance proceeds as a result of damage or destruction to the Project property, the Recipient agrees to:

- i. Apply those insurance proceeds to the cost of replacing the damaged or destroyed Project property taken out of service, or
- ii. Return to the Federal Government an amount equal to the remaining Federal interest in the damaged or destroyed Project property.

j. Transportation of Hazardous Materials.

The Recipient agrees to comply with applicable requirements of U.S. Pipeline and Hazardous Materials Safety Administration regulations, "Shippers - General Requirements for Shipments and Packagings," 49 C.F.R. Part 173, in connection with the transportation of any hazardous materials.

k. Misused or Damaged Project Property.

If any damage to Project property results from abuse or misuse occurring with the Recipient's knowledge and consent, the Recipient agrees to restore the Project property to its original condition or refund the value of the Federal interest in that property, as the Federal Government may require.

I. Responsibilities after Project Closeout.

The Recipient agrees that Project closeout by FMCSA will not change the Recipient's Project property management responsibilities as stated in these Grant Provisions and Assurances, and as may be set forth in subsequent Federal laws, regulations, and directives, except to the extent the Federal Government determines otherwise in writing.

Section 25. Davis-Bacon Act Requirements.

The Recipient agrees to comply, as applicable, with the provisions of the Davis Bacon Act (40 U.S.C. §3145 and 18 U.S.C. §874), and the Contract Work Hours and Safety Standards Act (40 U.S.C. §§3701 *et seq.*) regarding labor standards for federally-assisted construction sub-agreements.

Section 26. Environmental Requirements.

The Recipient agrees to comply, as applicable, with environmental standards which may be prescribed pursuant to the following: (a) institution of environmental quality control measures under the National Environmental Policy Act of 1969 (P.L. 91-190) and Executive Order (EO) 11514; (b) notification of violating facilities pursuant to EO 11738; (c) protection of wetlands pursuant to EO 11990; (d) evaluation of flood hazards in floodplains in accordance with EO 11988; (e) assurance of project consistency with the approved State management program developed under the Coastal Zone Management Act of 1972 (16 U.S.C. §§ 1451 *et seq.*); (f) conformity of Federal actions to State (Clean Air) Implementation Plans under Section 176(c) of the Clean Air Act of 1955, as amended (42 U.S.C. §§ 7401 *et seq.*); (g) protection of underground sources of drinking water under the Safe Drinking Water Act of 1974, as amended (P.L. 93-523); and, (h) protection of endangered species under the Endangered Species Act of 1973, as amended (P.L. 93-205).

Section 27. Government Rights (Unlimited).

FMCSA shall have unlimited rights for the benefit of the Government in all other work developed in the performance of this Agreement, including the right to use same on any other Government work without additional cost to FMCSA. The rights to any inventions made by a recipient under an FMCSA financial assistance award are determined by the Bayh-Dole Act, Pub. L. 96-517, as amended, and codified in 35 U.S.C. § 200, *et seq.*, except as otherwise provided by law.

a. Patent Rights.

If any invention, improvement, or discovery of the Recipient or any of its third party contractors is conceived or first actually reduced to practice in the course of or under this Project, and that invention, improvement, or discovery is patentable under the laws of the United States of America or any foreign country, the Recipient agrees to notify FMCSA immediately and provide a detailed report. The rights and responsibilities of the recipient, third party contractors and FMCSA with respect to such invention, improvement, or

discovery will be determined in accordance with applicable Federal laws, regulations, policies, and any waiver thereof.

If the Recipient secures a patent with respect to any invention, improvement, or discovery of the Recipient or any of its third party contractors conceived or first actually reduced to practice in the course of or under this Project, the Recipient agrees to grant to FMCSA a royalty-free, non-exclusive, and irrevocable license to use and to authorize others to use the patented device or process for Federal Government purposes.

The Recipient agrees to include the requirements of the "Patent Rights" section of this Agreement in its third party contracts for planning, research, development, or demonstration under the Project.

b. Data Rights.

The term "subject data" used in this section means recorded information, whether or not copyrighted, that is developed, delivered, or specified to be delivered under this Agreement. The term includes graphic or pictorial delineations in media such as drawings or photographs; text in specifications or related performance or design-type documents; machine forms such as punched cards, magnetic tape, or computer memory printouts; and information retained in computer memory. Examples include, but are not limited to: computer software, engineering drawings and associated lists, specifications, standards, process sheets, manuals, technical reports, catalog item identifications, and related information. The term does not include financial reports, cost analyses, and similar information incidental to Project administration. The following restrictions apply to all subject data first produced in the performance of this Agreement:

- i. Except for its own internal use, the Recipient may neither publish or reproduce such data in whole or in part, or in any manner or form, nor may the Recipient authorize others to do so, without the written consent of FMCSA, until such time as FMCSA may have either released or approved the release of such data to the public.
- ii. As authorized by 2 CFR § 200.315(b), FMCSA reserves a royalty-free, non-exclusive and irrevocable license to reproduce, publish or otherwise use, and to authorize others to use, for Federal Government purposes:
 1. Any work developed under a grant, cooperative agreement, sub-grant, sub-agreement, or third party contract, irrespective of whether or not a copyright has been obtained; and
 2. Any rights of copyright to which a Recipient, subrecipient, or a third party contractor purchases ownership with Federal assistance.

When FMCSA provides assistance to a Recipient for a Project involving planning, research, or development of a system, program, document, enforcement concept, or any other activity provided for in the terms of this grant, it is generally FMCSA's intent to

increase the body of knowledge, rather than to limit the benefits of the Project to those parties that have participated therein. Therefore, unless FMCSA determines otherwise, the Recipient understands and agrees that, in addition to the rights set forth in preceding portions of this section of this Agreement, FMCSA may make available to any FMCSA Recipient, subrecipient, third party contractor, or third party subcontractor, either FMCSA's license in the copyright to the "subject data" derived under this Agreement or a copy of the "subject data" first produced under this Agreement. In the event that such a Project which is the subject of this Agreement is not completed, for any reason whatsoever, all data developed under that Project shall become subject data as defined herein and shall be delivered as FMCSA may direct.

Unless prohibited by State law, the Recipient agrees to indemnify, save and hold harmless FMCSA, its officers, agents, and employees acting within the scope of their official duties against any liability, including costs and expenses, resulting from any willful or intentional violation by the Recipient of proprietary rights, copyrights, or right of privacy, arising out of the publication, translation, reproduction, delivery, use, or disposition of any data furnished under this Agreement. The Recipient shall not be required to indemnify FMCSA for any such liability arising out of the wrongful acts of employees or agents of FMCSA.

Nothing contained in this section on rights in data, shall imply a license to FMCSA under any patent or be construed as affecting the scope of any license or other right otherwise granted to FMCSA under any patent.

The requirements of this section of this Agreement do not apply to material furnished to the Recipient by FMCSA and incorporated in the work carried out under this Agreement, provided that such incorporated material is identified by the Recipient at the time of delivery of such work.

Unless FMCSA determines otherwise, the Recipient agrees to include the requirements of this section of this Agreement in its third party contracts for planning, research, development, or demonstration under the Project.

c. Acknowledgment or Support and Disclaimer.

- i. An acknowledgment of FMCSA support and a disclaimer must appear in any recipient publication, whether copyrighted or not, based on or developed under the Agreement, in the following terms:
 - 1. "This material is based upon work supported by the Federal Motor Carrier Safety Administration under a grant/cooperative agreement/subaward, dated ____."
 - 2. *(fill-in appropriate identification of grant/cooperative agreement);*
 - 3. All Recipient publications must also contain the following:

- A. "Any opinions, findings, and conclusions or recommendations expressed this publication are those of the author(s) and do not necessarily reflect the view of the Federal Motor Carrier Safety Administration and/or the U.S. Department of Transportation."
- B. The Recipient agrees to cause to be erected at the site of any construction, and maintain during construction, signs satisfactory to FMCSA identifying the Project and indicating that FMCSA is participating in the development of the Project.

Section 28. Drug Free Workplace.

By signing this agreement, the Recipient certifies that it is in compliance with the Drug-Free Workplace Act (41 U.S.C. Sec. 701 et seq.) and implementing regulations (49 CFR Part 32), which require, in part, that recipients prohibit drug use in the workplace, notify the FMCSA of employee convictions for violations of criminal drug laws occurring in the workplace, and take appropriate personnel action against a convicted employee or require the employee to participate in a drug abuse assistance program.

Section 29. Background Screening.

FMCSA reserves the right to perform individual background screening on key individuals of organizational units associated with the application at the effective date and at another interval thereafter for the life of the award. If in performance of a grant award requires recipient organization personnel to have unsupervised physical access to a federally controlled facility for more than 180 days or access to a Federal information system, such personnel must undergo the personal identity verification credential process under Homeland Security Presidential Directive 12.

Section 30. Site Visits.

FMCSA, through its authorized representatives, has the right, at all reasonable times, to make site visits to review Project accomplishments and management control systems and to provide such technical assistance as may be required. If any site visit is made by FMCSA on the premises of the Recipient, subrecipient or contractor under this Agreement, the Recipient shall provide and shall require its subrecipients or contractors to provide, all reasonable facilities and assistance for the safety and convenience of FMCSA representatives in the performance of their duties. All site visits and evaluations shall be performed in such a manner as will not unduly delay work being conducted by the Recipient, subrecipient or subcontractor.

Section 31. Liability.

The Recipient acknowledges it is responsible for any act or omission of Recipient or Subrecipient, its officers, contractors, employees, or members, participants, agents, representatives, as appropriate arising out of or in any way connected to activities authorized pursuant to this Agreement. The Recipient acknowledges that FMCSA is not responsible for any act or omission of Recipient or Subrecipient, its officers, contractors, employees, or

members, participants, agents, representatives, as appropriate, arising out of or in any way connected to activities authorized pursuant to this Agreement. This provision shall survive the expiration or termination of this Agreement.

Section 32. Right of FMCSA to Terminate Agreement.

a. General Right to Suspend or Terminate Assistance Agreement.

Upon written notice, the Recipient agrees that FMCSA may suspend or terminate all or part of the financial assistance provided herein if the Recipient has violated the terms of the Grant Agreement or these Provisions and Assurances, or if FMCSA determines that the purposes of the statute under which the Project is authorized would not be adequately served by continuation of Federal financial assistance for the Project. Any failure to make reasonable progress on the Project or other violation of this Agreement that significantly endangers substantial performance of the Project shall provide sufficient grounds for FMCSA to terminate this Agreement. The recipient agrees to give the Federal Motor Carrier Safety Administration at least 90 days' notice of its intention to terminate this agreement.

b. Financial Obligations of the Government.

In general, termination of any financial assistance under this Agreement will not invalidate obligations properly incurred by the Recipient and concurred by FMCSA before the termination date; to the extent those correctly accrued obligations cannot be cancelled. However, if FMCSA determines that the Recipient has willfully misused Federal assistance funds by failing to make adequate progress, failing to make reasonable use of the Project property, facilities, or equipment, or failing to adhere to the terms of this Agreement, meet required match/cost sharing or MOE levels, FMCSA reserves the right to require the Recipient to refund the entire amount of FMCSA funds provided under this Agreement or any lesser amount as may be determined by FMCSA.

c. De-obligation of Funds.

FMCSA reserves the right to unilaterally de-obligate any remaining grant or cooperative agreement funds due to the time elapsed since the effective date, lack of payment vouchers from the Recipient, lack of plans to expend funds based on this grant, failure to provide quarterly progress reports, or other such determination made by FMCSA. If FMCSA takes action to deobligate funds, a grant amendment/modification must be in place.

Section 33. Project Completion, Settlement, and Closeout.

a. Project Completion.

Within 90 days of the Project completion date or termination by FMCSA, the Recipient agrees to submit a final SF 425, Federal Financial Report, a certification or summary of Project expenses, and third party audit reports, as applicable.

b. Remittance of Excess Payments.

If FMCSA has made payments to the Recipient in excess of the total amount of FMCSA federal funding due to cover accumulated expenses, the Recipient agrees to promptly remit that excess and interest as may be required by the "Payment by FMCSA" section of this Attachment.

c. Project Closeout.

Project closeout, as defined in 2 CFR § 200.16, occurs when all required Project work and all administrative procedures described in 2 CFR 200.343, as applicable, have been completed, and when FMCSA notifies the Recipient and forwards the final Federal assistance payment, or when FMCSA acknowledges the Recipient's remittance of the proper refund. Project closeout shall not invalidate any continuing obligations imposed by allowable, allocable, and reasonable costs on the Recipient by this Agreement that supports the project plan(s) or by the FMCSA's final notification or acknowledgment, if it occurs within the period of performance.

Section 34. Severability.

If any provision of this Agreement is held invalid, all remaining provisions of this Agreement shall continue in full force and effect to the extent not inconsistent with such holding.

Section 35. Entire Agreement and Amendments.

This Agreement constitutes the entire agreement between the parties. All prior discussions and understandings concerning such scope and subject matter are superseded by this Agreement. **Any** modification not specifically permitted by this agreement requires an Amendment. These modifications may be made only in writing, signed by the each party's authorized representative, and specifically referred to as an Amendment to this Agreement. Electronic signatures are binding. However, retroactive modifications to the project plan(s) or any aspects of the budget will not be approved.

Section 36. Use of Information Obtained.

Information obtained under this agreement may only be used by the recipient in order to accomplish the project plan under this agreement.

Any information obtained or exchanged between FMCSA and the grant recipient, in order to carry out each party's responsibility under this agreement and project plan, shall not be released by the recipient to any third party without the written permission of FMCSA.

Recipient shall ensure that all of its employees authorized to access FMCSA data and information systems sign and submit information technology user agreements provided by FMCSA.

Section 37. Miscellaneous Provisions.

a. Prohibition on Human Trafficking.

The Recipient agrees to comply, as applicable, with the provisions of Section 7104(g) of the Trafficking Victims Protection Act of 2000, 22 U.S.C. § 7104 as amended.

b. Wild and Scenic Rivers Act of 1968.

The Recipient agrees to comply, as applicable, with the Wild and Scenic Rivers Act of 1968 (16 U.S.C. §§1271 et seq.) related to protecting components or potential components of the national wild and scenic rivers system.

c. Fly America Act.

The Recipient shall comply with the provisions of the Fly America Act, 49 U.S.C. § 40118.

d. Criminal and Prohibited Activities.

The Recipient will adhere to the Program Fraud Civil Remedies Act, 31 U.S.C. § 3801-3812, which provides for the imposition of civil penalties against persons who make false, fictitious, or fraudulent claims to the Federal Government for money. Recipient will also adhere to the False Statements Act, 18 U.S.C. §§ 287 and 1001 which provides that whoever makes or presents any false, fictitious or fraudulent statements, representations, or claims against the United States shall be subject to imprisonment of not more than 5 years and shall be subject to a fine in the amount provided by 18 U.S.C. § 287. Recipient shall also adhere to the False Claims Act, 31 U.S.C. § 3729, which provides that suits under this act can be brought by the Government or a person on behalf of the Government, for false claims under the Federal assistance programs. Recipient shall also adhere to the Copeland “Anti-Kickback” Act, 18 U.S.C. § 874 and 40 U.S.C. § 3145, which prohibits a person or organization engaged in a federally supported project from enticing an employee working on the project from giving up a part of his compensation under an employment contract.

Section 38. Laptop Encryption.

All laptops used by Recipients, subrecipients, and contractors in carrying out the Recipient’s project plan, which contain FMCSA-related data, including sensitive information and Personally Identifiable Information (PII), must be encrypted to the same standards utilized by FMCSA. The FMCSA encryptions standards prescribe whole disk encryption (FDE), which requires software or hardware to encrypt all data on a disk, including the partition tables, whole physical disk, master boot record, and available files. FMCSA requires that each Recipient who utilizes FMCSA sensitive information or PII complete installation of FDE on all laptop computers as soon as practicable, but no later than thirty (30) days from the execution of this agreement and prior to using the laptop to access FMCSA data systems or store FMCSA-related data.

Section 39. Adaptability to Climate Changes

If the grant is to be used to place equipment or temporary facilities, modify structures, or to alter existing infrastructure, the recipient is required to assess the ability for the equipment, modifications, or alterations to withstand current and future climatic conditions, including potential changes in climatic conditions. The recipient shall use the best-available peer-reviewed studies and science to determine the potential climatic conditions the equipment, modifications or alterations may experience over the life-cycle of the equipment, modification or alteration funded by the grant. The recipient can rely on existing Federal Highway Administration suggestions or guidelines for placing infrastructure, or on other federally-issued guidance on assessing potential impacts of climate change.

Section 40. Commercial Vehicle Information Systems and Networks (CVISN) provisions.

The following provisions apply where applicable.

a. Compliance with the National ITS Architecture.

The recipient will ensure that CVISN Core and Expanded deployment activities, such as hardware procurement, software and system development, infrastructure modifications, etc., are consistent with the National ITS and CVISN Architectures and available standards and shall promote interoperability and efficiency to the extent practicable and required by law.

b. Interoperability.

For implementing CVISN Core capabilities, the recipient will complete interoperability tests and ensure architectural conformance throughout the life of the project. Perform pairwise and end-to-end tests to demonstrate conformance with the standards and interoperability, verify that interfaces between selected products/systems meet the applicable standards, verify dataflow and data usage among the products/systems.

c. Independent Evaluation.

The FMCSA may conduct an independent evaluation of the effectiveness of the project in achieving Federal and State program goals. The independent evaluation will be conducted using existing Federal resources. Participants of projects that are selected for independent evaluations shall cooperate with the independent evaluators and participate in evaluation planning and progress review meetings to ensure a mutually acceptable, successful implementation of the independent evaluation. The FMCSA may contract with one or more independent evaluation contractor(s) to evaluate the projects.

d. Dedicated Short Range Communications.

If applicable, the State shall also require that its contractors only install Dedicated Short Range Communications (DSRC) equipment that is interoperable and compatible at layers 1

and 2 of the Open Systems Interconnect Reference Model with equipment in operation on the North American Preclearance and Safety System and the Heavy Vehicle Electronic License Plate Inc.'s PrePass™ System deployments as well as the International Border Crossing Operational Tests, based upon on ASTM Draft 6, dated February 23, 1996.

Section 41. Federal Funding Accountability and Transparency Act

The Federal Funding Accountability and Transparency Act (FFATA) of 2006 (Public Law 109-282) requires for each Federal award of \$25,000 or more that OMB create a searchable, no cost, publicly accessible website(<http://usaspending.gov/>) that includes basic information about the recipient and the project being funded. The Government Funding Transparency Act of 2008 (Public Law 110-252) amended FFATA, requiring recipients to report certain information about themselves **and** their first tier subrecipient awards obligated as of October 1, 2010. Prime grant recipients/awardees of new non Recovery Act federally funded grants and cooperative agreements of \$25,000 or more awarded on or after October 1, 2010 are subject to FFATA reporting, sub-award reporting requirements and executive compensation reporting requirements as outlined in the Office of Management and Budgets guidance issued August 27, 2010. The prime awardee is required to file a FFATA sub-award report by the end of the month following the month in which the prime recipient awards any sub-grant greater than or equal to \$25,000.

Section 42. Executive Order 13513

Executive Order 13513 (E.O. 13513) requires each Federal agency to encourage contractors, subcontractors, and grant and cooperative agreement recipients and subrecipients to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or Government Owned Vehicles, or while driving Personally Owned Vehicles when on official Government business or when performing any work for or on behalf of the Government. To further the requirement of encouraging such policies, the FMCSA encourages recipients to consider new rules and programs, reevaluate existing programs to prohibit text messaging while driving, and conduct education, awareness, and other outreach for employees about the risks associated with texting while driving. These initiatives should encourage voluntary compliance with the recipient agency's text messaging policy while off duty. For the purposes of these Grant Provisions and Assurances and pursuant to E.O. 13513, the following definitions apply:

"Texting" or "Text Messaging" means reading from or entering data into any handheld or other electronic device, including for the purpose of SMS texting, e-mailing, instant messaging, obtaining navigational information, or engaging in any other form of electronic data retrieval or electronic data communication.

"Driving" means operating a motor vehicle on an active roadway with the motor running, including while temporarily stationary because of traffic, a traffic light or stop sign, or otherwise. It does not include operating a motor vehicle with or without the motor running when one has pulled over to the side of, or off, an active roadway and has halted in a location where one can safely remain stationary.

Section 43. Certification.

The Recipient certifies that the statements it made in the grant application are true and correct and Recipient understands that any false statements made as part of these certifications can be prosecuted.

1. DEPLOYMENT PROJECT 1: PERMIT APPLICATION SYSTEM GIS ROUTING AND DATA CLEANSING

1.1 Introduction

Florida Department of Transportation (FDOT) is requesting a grant for completion of the GIS routing and data cleansing of Permit Application System (PAS). The goals are to hire a vendor to complete the GIS routing and data cleansing for PAS and deliver a 100% accurate dataset.

1.2 Problem Statement

Currently, it has been determined, that the PAS system is not accurately providing routing instructions, and has errors in node data. The inability for PAS to provide accurate routing limits FDOT's ability to release a fully automated version of the application to Industry. This affects Industry's ability to obtain routine permits 24/7 and is costing FDOT an additional estimated contract amount of \$300,000 annually. Until the GIS routing and data cleansing is 100% accurate and complete, industry will continue to be limited to obtaining most routine permits during business hours and FDOT will continue to be contractually obligated to pay its vendor to provide services that will eventually be automated.

1.3 Performance Objective

FDOT intends to hire a consultant to complete the GIS routing and data cleansing of PAS.

1.4 Program Activity Plan

The consultant which is hired will be required to provide FDOT with the following:

- Complete and accurate roadway network for routing with correct bridge placement. This also includes routing connectivity, "blocking" restricted bridges, turn-by-turn directions and exit numbers;
- Tools and functionality built into PAS for FDOT management of the application;
- Route testing to prove the accuracy of the GIS routing data;
- Written documentation of procedures for data cleansing and testing;

1.5 Performance Measurement Plan

The consultant will be required to provide FDOT with monthly files and demonstrations which show the consultant's progress. FDOT will allow the consultant 12 months to complete the GIS routing and data cleansing for PAS. The consultant will also be responsible for providing weekly QC reporting and a monthly QA will be performed by FDOT. At the end of the 12 month period, the consultant will have delivered a complete and accurate dataset for PAS.

1.6 Budget Narrative

PAS GIS Routing and data cleansing (SF-424A, Line 6f)	
Description of Services	Total Costs
Contractual Cost for GIS routing and data cleansing	\$300,000
Total Costs	\$300,000
The contractual costs are for: – Hiring a consultant to cleanse the PAS GIS routing and data	

2. NON-DEPLOYMENT PROJECT 1: CVISN PROGRAM MANAGEMENT

2.1 Introduction

CVISN Program Management is key to maintaining forward progress in Florida's CVISN initiatives that are ongoing and those that are included in the planned Expanded CVISN initiatives. This project includes administrative management as well as technical management.

2.2 Problem Statement

Florida has limited internal resources to support CVISN Program Management during this time of increased project activity and the 2015 Expanded CVISN grant will allow FDOT to provide the oversight and coordination necessary to ensure CVISN Program success.

2.3 Performance Objective

The CVISN Program Management project goals and objectives include the effective management and coordination of the Florida CVISN Team during these times of limited resources and increasing workloads. Effective program management will ensure continued interest and participation in the CVISN program as the members continue to recognize that project support is available, their participation on the team continues to be valued and expected, and that each agency understands their important role in making the Florida CVISN Program a success for the state and the nation.

2.4 Program Activity Plan

Proposed activities under the Program Management project include travel to FMCSA sponsored workshops designed to train state personnel and further the national CVISN Program as well as industry related workshops that will provide state personnel with further knowledge of technology and best practices. Also included under this Program Management project is funding for consultant support. The consultant supports the FDOT on all CVISN projects. Duties include RFP development and support for individual project management. This also includes assistance in managing and supporting individual CVISN projects, providing overall program coordination, updating Expanded CVISN PPTLD documentation, providing program administrative support, conducting CVISN related research and briefings, and other duties as assigned by the FDOT CVISN Program Manager.

2.5 Performance Measurement Plan

Florida's CVISN Program Manager is responsible for evaluation and monitoring of the various CVISN project deployments. The method by which he does this is three-fold. One is the reports which are required at the quarterly CVISN meetings. Each agency is responsible for reporting on the performance of their previous deployments and also the progress of their agency's current project deployments. The second is the requirement for each of the agency partners to submit a quarterly CVISN grant report for their project(s) which are being funded with CVISN funds.

FY 2015 Expanded CVISN Project Plan Application

Included in the quarterly reports are any updated schedule/milestone activities, issues that have arisen and plans to mitigate these issues. The third is personal communication with the respective project managers to assure that schedules are being met and any issues are being dealt with to keep the project on schedule. Also, as invoices for CVISN projects are submitted for payment, the project manager is required to attest that all deliverables that are being billed have been done so to their satisfaction. Before the final invoice is paid that project manager must attest that the required system testing has been performed and passed and that they have accepted the system and approve payment of the final invoice.

Success for CVISN deployments is measured in terms of adherence to schedules, realization of project milestones, delivery of equipment and systems that meet the project plan as presented in the CVISN grant application, and the ability to deploy the project for the approved budget. All of this information is provided to the CVISN program manager through the methods outlined above. Project budget expenditures are monitored by CVISN support staff to assure that no projects go over budget. FDOT procurement procedures require that all expenditures are preceded by an approved purchase order (PO). Project budgets are monitored by the CVISN support staff and a PO is never issued unless there is remaining budget to support the PO.

2.6 Budget Narrative

CVISN Program Management (SF-424A, Line 6f)	
Description of Services	Total Costs
Contractual Cost for CVISN Program Management	\$200,000
Total Costs	\$200,000
The contractual costs are for: – Hiring a consultant to support the CVISN Program	

FY 2015 Expanded CVISN Project Plan Application

CVISN Program Management (SF-424A, Line 6c)				
Purpose	# of staff	Method of Travel	# of Days	Total Cost
CVISN Workshop	2	Air	5	\$2,600.50
Total Cost for Travel:				\$2,600.50
CVISN Workshop – These costs represent the necessary travel funds for 2 state personnel to attend the annual CVISN Workshop presented by FMCSA. Reimbursement is based upon the current state per diem rates and rules. The airfare and hotel costs are based on previous travel to workshop.				

3. NON-DEPLOYMENT PROJECT 2: CVISN OPERATIONS & MAINTENANCE

3.1 Introduction

This project is for ongoing support of the operations and maintenance (O&M) activities necessary to keep Florida CVISN systems functioning. Costs would include support for necessary O&M, necessary system upgrades and enhancements to Florida Core and Expanded CVISN Systems. Upgrades and enhancements would apply to both hardware and software.

3.2 Problem Statement

Florida has made a substantial (multi-million-dollar) investment in the State's CVISN program Core and Expanded project deployments. Once systems are deployed they require continued funding in order to provide the intended function or service. In addition to routine operations costs, such as monthly internet connectivity charges, annual software licensing fees, etc., CVISN project deployments also require maintenance of the hardware/ equipment components and enhancements or upgrades to the software components of the various CVISN sub-systems. Additionally, it is well known that equipment has a product life cycle at the end of which the equipment should be replaced. To ignore this fact would greatly decrease the reliability of the system. Also, with the ever increasing speed at which knowledge and technology advance, what was the state of the art when deployed, quickly becomes outdated (and many times no longer supported by the manufacturer). The only way to assure the continuation of the current CVISN functionalities is to provide an ongoing source to fund the required O&M costs. Failure to plan for, and provide funding for, these costs would be short-sighted and jeopardizes the continuation of Florida's Core CVISN certification and participation in the National CVISN program.

3.3 Performance Objective

The goal of Florida's CVISN Program O&M project is to plan for and fully fund the ongoing costs for O&M; to understand when upgraded software or newer technology should be deployed to provide the best system functionality for the best price; and to manage this process to maximize Return on Investment (ROI) for all suggested/requested system upgrades or enhancements. The objectives of this project are to assure 100% uptime of the CVISN sub-systems and to provide full CVISN core and expanded capabilities to regulatory and industry stakeholders. Uptime of 100% is defined as the requisite CVISN systems being available 100% of the time that they are required by the various stakeholders (weight inspectors, permits office, motor carriers, and commercial vehicle enforcement officers). Core CVISN capabilities to be measured are electronic credentialing and electronic screening. Expanded CVISN systems uptime to be measured are LPR capability, USDOT reader capability, Container Number Data Base functionality, permit application system availability, LPR/PRISM system capability, and Electronic Freight Theft Management system availability.

3.4 Program Activity Plan

Currently there are three known major O&M project that has been requested.

1. The first is to fund the maintenance and operations to ensure that all GIS routing and data in the PAS application remains up to date and accurate. Since FDOT does not currently have the expertise nor the resources to perform the complete GIS routing and data cleansing for PAS, FDOT will face significant issues when updates to the routing and data are required. If FDOT does not receive funding for maintenance and operations, the completed product (data set) will eventually become obsolete. FDOT needs operations and maintenance budget to hire a consultant to continue to update the GIS routing and data in PAS with the most current roadway and bridge data.
2. The second is to fund the preventative maintenance costs of the weigh-in-motion (WIM) sites. This will include preventative maintenance for systems such as sensors, loops, cameras, etc.
3. The third project under O&M will provide maintenance and upgrades to four virtual weigh-in-motion (VWIM) sites. The will include maintenance of traffic, replacing sensors, mobilization and loop installation along with replacement for three cameras at each location. The sites will be prioritized with the oldest equipment being replaced first. The locations will be included in the quarterly report updates.

3.5 Performance Measurement Plan

1. Updates to the GIS routing and data will be performed on a quarterly basis. This information will then be QCd by FDOT staff to ensure that the information is accurate and complete.
2. Monthly updates will be provided to the project manager for verification and included in the quarterly reports
3. FDOT staff will be on-site while maintenance and upgrades are occurring along with the vendor providing monthly updates that will also be included in the quarterly reports.

3.6 Budget Narrative

CVISN Operations & Maintenance (SF-424A, Line 6f)	
Description of Services	Total Costs
Contractual Cost for GIS routing and data maintenance	\$100,000
Contractual Cost for preventative maintenance at WIM locations	\$23,795
Contractual Cost for maintenance and upgrades to four VWIM locations	\$61,960
Total Costs	\$185,755
The contractual costs are for: – Hiring a consultant to maintain the PAS GIS routing and data – Hiring a vendor to perform preventative maintenance at WIM locations for one year – Hiring a vendor to perform maintenance and upgrades at four VWIM locations (\$15,490 per location)	

CVISN Operations & Maintenance (SF-424A, Line 6d)			
Item Name	# of Items	Cost per Item	Total Costs
LPR Camera	4	\$29,134.00	\$116,536.00
USDOT Camera	4	\$28,400.00	\$113,600.00
Overview Camera	4	\$4,390.00	\$17,560.00
Total Cost for Equipment:			\$247,696.00
Each of the cameras above will be installed at the four highest priority locations. These cameras provide a great deal of information to the weight inspectors such as running the license plate and USDOT number through the container number database system to verify that the carrier is not out-of-service and is not on Florida's overdue citation list.			

4. FINANCIAL PLANS AND STATE AGENCY CERTIFICATION

Table 4.1: Sources of Matching Funds for Projects in FY 2015 Expanded CVISN Project Plan

FY 2014 Expanded CVISN Project Plan Project Title	Non-Federal Funding Source (i.e., State operating fund, Named Agency development fund)	Type of Funds (cash, equipment or facilities, personnel services)	Match Amount
Projects/Expenditures Contributing Matching Funds			
Permit Application System GIS Routing and Data Cleansing	State FDOT Funds	Cash	\$150,000.00
CVISN Program Management	State FDOT Funds	Cash	\$101,300.50
CVISN Operations & Maintenance	State FDOT Funds	Cash	\$216,725.50
Total Matching Funds			\$468,026.00

State Agency CVISN Certification

The Florida Department of Transportation certifies that the State applying for Federal Fiscal Year 2015 Commercial Vehicle Information Systems and Networks funding meets the conditions for participation under Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU), Pub. L. No. 109-59, §4109 (a)(3). This section requires CVISN program organizations to certify that CVISN deployment activities, including hardware procurement, software and system development, and infrastructure modifications:

1. Are consistent with the national intelligent transportation systems and CVISN architectures and available standards;
2. Promote interoperability and efficiency to the extent practicable;
3. Certify to execute interoperability tests developed by the FMCSA to verify that systems conform with the national intelligent transportation system architecture, applicable standards, and protocols for CVISN; and
4. I am an Authorize Signatory Official, designated by the Florida Department of Transportation to make this certification.

Signature of Authorizing Official: _____

Date: _____
