

Designer Interface and Basis of Estimates

Designer Interface for wT
and BOE Basics for Designers and Reviewers

June 16, 2015: Ongoing DI and BOE changes pending; see Program Management web page for details

Agenda, page 1

- **Welcome**

- Definitions and Abbreviations
- History of Designer Interface/Webgate
- Current updates to PrP, DQE, BOE, and reports

- **Designer Interface**

- Accessing the Designer Interface
- Reviewing & Updating the Header information
- Updating Category header- structures
- Exporting headers to CADD Quantity Manager*
- Importing quantities from CADD Quantity Manager*

**We will NOT be going to the CADD quantity manager software with this training. A separate webinar will be available to CADD users.*

- Adding Items and quantities

Agenda, page 2

- **Webgate Reports**
 - Project Edit Report- checking for errors
 - Project/Proposal Summary for CADD plans (.xml file)
 - Historical reports
- **Basis of Estimates- Basics**
 - Updates & Registration: Contact Database
 - Requesting Pay Items:
 - Opening Items with and existing pay item structure
 - Creating new pay item structures
 - Generic Pay Items for Utilities
 - Coordination with Specs, Design Standards, and other manuals/handbooks
 - Summary Boxes- brief review (Separate webinars are available for more detail)
- **Questions and Answers**

Definitions & Abbreviations

- **Webgate**
 - Internet web page to access Designer Interface, Reports, and other applications
 - RACF (mainframe) userID/password required
- **Designer Interface (DI)**
 - FDOT application to enter pay items and quantities into Trnsport/Preconstruction program
- **Project Preconstruction (PrP)**
 - Next generation of Trnsport, also known as web Trnsport (wT)
 - AASTHOWare Project suite of programs
- **Design Quantity Estimates (DQE)**
 - FDOT application for estimating
 - Pay Item maintenance
- **Basis of Estimates (BOE)**
 - FDOT manual for pay item guidance

Designer Interface

- **Pre-1999:** Mainframe Cost Estimating System (mainframe CES). The Summary of Quantities from this system was also known as the “CES”, or Cost Estimate Summary.
- AASHTO’s suite of programs, including the AASHTO **Project Estimating System (PES)** and **Cost Estimating System (CES)** were originally based on Florida’s mainframe system.
- The Designer Interface was developed in 1999, to facilitate the entry of pay items and quantities into PES.

Today’s Designer Interface has been updated to work with newer browsers, databases, and the web based Project Preconstruction.

Project Preconstruction

- Replaces Trnsport module known as PES
- Uses “workflows” to guide projects through various steps/phases
 - CO let Design-bid-build (pay item projects)
 - District let Design-bid-build (pay item projects)
 - Design-Build projects
 - District Maintenance
 - Others
- Allows users to view/update based on their “role” , workflow, and the current workflow phase
- Phase can be updated by FDOT Project Manager or Estimator, depending on current phase

Contact your FDOT Project Manager if you do not have a project available to update in Designer Interface. The workflow phase may need to be updated.

Designer Interface

- Accessing the Designer Interface
- Reviewing & Updating the Header information
- Updating Category header- structures

TEST: used for many of the screens shown in this presentation.

PRODUCTION: June 1 implementation.

6-16-15 update: Ongoing changes to DI and BOE

Design Quantities and Estimates (DQE)

DQE is an Estimates Application for producing Construction Cost Estimates, as well as maintaining pay items and the Basis of Estimates. Additional guidance is available on the [DQE home page](#). A RACF User ID is Required.

WebGate

Access to both Reports and Interface

The WebGate is a single point of login for access to a variety of applications and Transport reports. It resides within the FDOT secured firewall. A RACF User ID is Required.

Applications may be accessed through the WebGate or the direct links below:

- **Citrix Access to Transport Modules*** - PES, LAS, CES, and SIM
Effective June 1, 2015: PES and LAS will be replaced with AASHTO Project Preconstruction (PrP)
CES will be read only; refer to DQE for pricing.

Transport Reports*

Effective June, 1, 2015: Transport Reports will move to webgate reports

Direct access to Reports or Interface

- **Designer Interface***

The Designer Interface is a FDOT web application used by designers to load items and quantities into Transport PES. A RACF User ID is required. For help with internet browser settings, refer to [Browser Settings for Designer Interface.pdf](#)

[Interface.pdf](#)

* Authorized users only.

** Some reports may require additional security.

Browser Instructions

- **Project Preconstruction (PrP)**, also known as webTransport, is for FDOT Estimators only.

Export Header: Sends the category headers to a .xml file

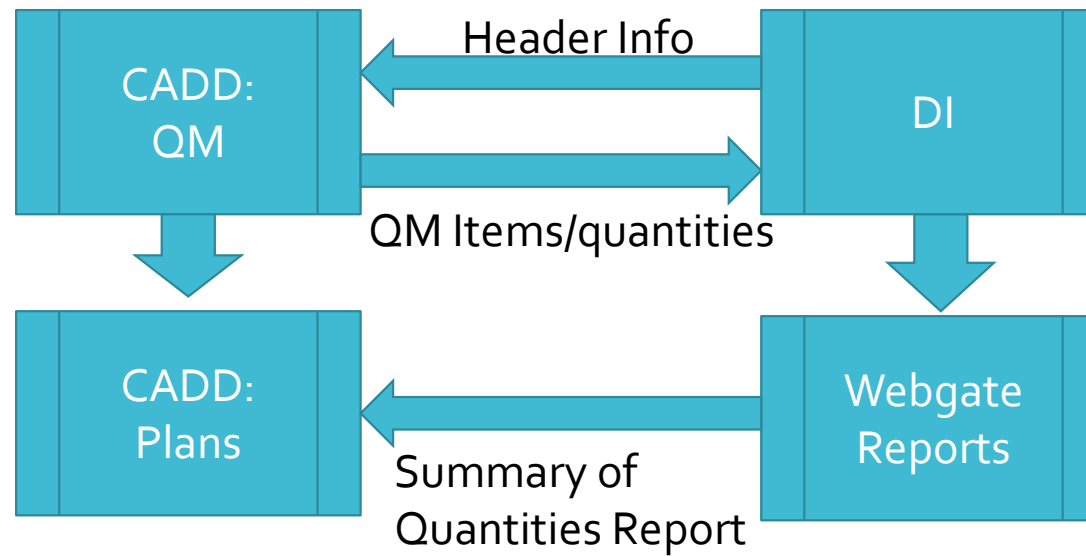

Import: Brings in the items/quantities from CADD .xml file

[Contact the Service Desk](#)

[Web Policies & Notices](#)

Designer Interface- Working with CADD Quantity Manager

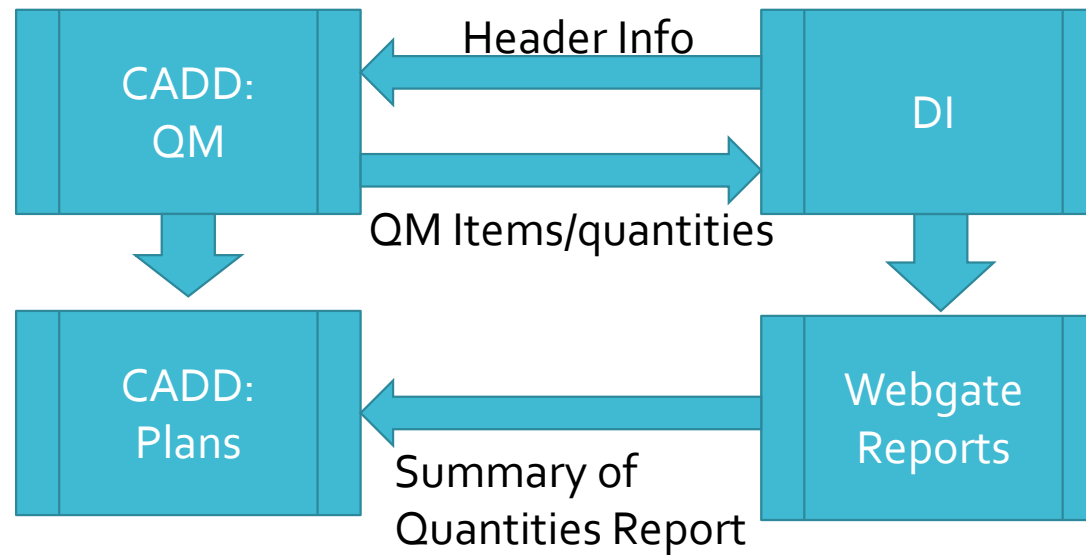

- 1. Review/update category header in DI
- 2. Export/Save category headers to .xml
- 3. Update QM information
- 4. Export/Save QM information to .xml
- 5. Import .xml to DI
- 6. Update other pay items/quantities

Step 3: A separate webinar is available for CADD/QM users. See ECSO web page for details.

Designer Interface- Working with CADD Quantity Manager

- 7. Exit DI. Go to Webgate Reports
- 8. Run Project Edit Report to check for errors.
 - Resolve errors before proceeding
- 9. Run Summary of Pay Items (CADD) report for Project or Proposal
 - Save report as .xml
- 10. Import .xml into plans (after key sheet)

Webgate Reports: Summary of Pay Items (CADD)

- **Project Summary**
 - used for phase reviews, or until proposal is available
 - Does NOT combine quantities for “strung” projects to be let together
 - Available in .pdf or .xml format
- **Proposal Summary**
 - Used for 100% plans reviews, or whenever proposal number is available
 - Combines quantities for “strung” projects to be let together, similar to the bid blank
 - Available in .pdf (for informal summary) or .xml (for exporting to plans sheet)

The Chapter Index is similar to the BOE Table of Contents.

Basis of Estimates- Basics

- Updates & Registration
- Requesting Pay Items
 - Opening Items with and existing pay item structure
 - Creating new pay item structures
 - Generic Pay Items for Utilities
- Coordination with Specs, Design Standards, and other manuals/handbooks
- Summary Boxes- brief review
 - Separate webinars are available for more detail
 - See ECSO for CADD/QM webinars
 - See Program Management for BOE/Pay Item webinars

BOE Update Training will be offered at the FDOT Training Expo in June.

Basis of Estimates- Updates and Registration

- Updates and Registration are completed through the Contact Database
- Free to Register
- Used by Construction, Roadway, and others
- <http://www.dot.state.fl.us/projectmanagementoffice/contactdatabase.shtm>

Basis of Estimates- Requesting Pay Items

- **Opening Items with and existing pay item structure**
 - Allow 24 hours
 - Requested at phase 2 (60% plans)
- **Creating new pay item structures**
 - Specifications?
 - Standards?
 - Handbooks, Manuals (PPM, CPAM, etc.)?
 - Unusual project conditions?
- **Generic Pay Items for Utilities**
 - Great for Utility category/JPA projects
 - DO NOT USE for other work
 - Refer to conditions in Chapter 6

Watch for “special” items with a monitor, developmental specs, or unusual conditions. These may require additional time for review/approvals.

Basis of Estimates- Coordination with others

- **Pay Item Numbers correspond to the Spec Section!**
- **350-2-abb**
 - 350= Specification Section 350
 - 2= pay item group
 - abb= variables for operation, size, shape, etc.
- **Developmental/Special Pay Items**
- **915-350-1**
 - 9= Special
 - 15= year initiated
 - 350= Specification Section 350

Basis of Estimates- Coordination with others

- **Coordination with Specs, Design Standards, and other manuals/handbooks**
 - Description
 - Materials
 - Construction or Acceptance Criteria
 - Method of Measurement
 - Basis of Payment
- **Pay Item Notes**
 - Quantity details: use the Summary Box, Design Notes Column
 - Materials details: coordinate with specifications
 - Manufacturer/Supplier details: coordinate with Product Evaluation before restricting products

Basis of Estimates- Coordination with others

What Goes Where?

- **Instructions to the Designer**
 - Plans Preparation Manual
 - Instructions for Design Standards (IDS)
- **Instructions to the Contractor**
 - Design Standards
 - Specifications
- **Other Handbooks & Manuals**
 - Basis of Estimates (BOE)
 - Structures Design Guidelines
 - Manual of Uniform Traffic Control Devices (MUTCD)
 - Traffic Engineering Manual (TEM)
 - Approved Products List (APL)

Basis of Estimates- Summary Boxes (Chapter 8)

Originated by the State Construction Office, Summary Boxes provide documentation of pay items and quantities by location. They also meet the Department's goal of Consistent, Predictable, Repeatable practices.

- *Separate webinars are available for CADD/QM coordination*
- *Separate webinars are available for Pay Item/Plans coordination for Estimators and Reviewers*

CADD contact: Denise.Broom@dot.state.fl.us
Estimates contact: Melissa.Hollis@dot.state.fl.us

Basis of Estimates- Summary Boxes (Chapter 8)

- Use the provided Summary Boxes; do NOT create your own
- Add/Delete columns or rows, only for pay items intended on that summary box
- Every pay item must be shown on a Summary Box; no more comp books
- Summary Box order- shown in Chapter 8 is in pay item order
- Items are summarized by location; do NOT delete locations, sub totals, or construction notes
- PENDING: Populated examples of all tables
- Call or e-mail for project specific situations; additional details and examples are added as needed.

CADD contact: Denise.Broom@dot.state.fl.us
Estimates contact: Melissa.Hollis@dot.state.fl.us

Thank You

for your time and participation.
We appreciate your feedback.
