SPEED LIMIT ASSEMBLY

1. Standard size signs should be used whenever possible. Minimum size may be used only on low volume, low speed (less than 35 m.p.h.) streets. Specialized signs should be used on expressway facilities where special emphasis is needed.

2. The choice of the school zone speed limit shall be determined by the District Traffic Operations Engineer in cooperation with local school superintendents. In no case shall it be less than 15 m.p.h. min. or exceed 20 m.p.h.

3. See Index No. II.555 for sign details.

GROUND MOUNT STANDARD
Note:
Existing ground mount school speed limit signs utilizing a single 6" min. size beacon or two 6" min. size beacons inside the sign border are considered meeting the standard. However, replacement or upgrading of these school speed limit signs shall conform to the above standard. Numerical speed limit displayed shall be maintained by appropriate regulatory authorities.
