

PLANS PREPARATION MANUAL

REGISTRATION

The Department of Transportation has created a new contact database that will enable the Department to e-mail important information to registered users on topics selected by each user. The database is will allow a user to update their e-mail address, topics of interest and any other information in their profile at any time. The information users provide will not be shared with any other company or agency.

All PPM users (and other Roadway Design manual users) must register their e-mail addresses in this contact database in order to receive future updates, notices, design memos, or other important information concerning the Department's design manuals. **The old database of PPM users is no longer in use, and registrations of current PPM users in the old database were not automatically imported into the new contact database.** PPM users who have not already done so must register in the new contact database at the following link:
