14.2 Presenting the Technical Proposal

Construct the Technical Proposal using 8½" x 11" paper), plus up to four (4) larger foldout pages. Use a type size of twelve (12) point or larger Times New Roman font. Use margins no less than 1" at top and 1/2" at bottom and sides. In the language of the Technical Proposal, do not use ambiguous words such as may, might, should, etc.; use only definitive statements of what the Proposer will or will not accomplish. The entire Technical Proposal is limited to a maximum of 35 total pages, not counting bindings and covers. Sequentially number all pages. It is recognized that existing financial reports, documents, or brochures, such as those that delineate the Proposer's general capabilities and experience, may not comply with the prescribed format. It is not the intent to have these documents reformatted and if used, they will be acceptable in their existing form. Include all relevant material for each section with the appropriate sections; do not include any appendices, exhibits, resumes, or information in any form outside of the Section appropriate for that information.

Also provide the Technical Proposal in digital format on a CD, DVD or USB. Acceptable formats include Microsoft Word, Adobe PDF, and HTML.
