Description:

The improvement under this Site Specific, Lump Sum Contract consists of pile preservation using pile jackets and/ or a two-part elastomeric coating system as per contract documents. There are a total of 308 piles that will be covered under this contract. There are approximately 172 piles to be coated with the elastomeric coating and approximately 136 piles that will require pile jackets and the elastomeric coating. All spalls, moderate cracking, and exposed steel “H” piles are to be repaired as per contract documents. All augmented jackets are to be removed and replaced under the guidelines of this contract. There are 20 piles with augmented jackets, 7 piles with exposed steel “H” piles, and several minor spalls to be repaired as per contract documents. There are 20 structures to be covered under this contract, see appendix for sites and location maps. EXPERIENCE IN BRIDGE REPAIR (FORM 850-070-04) MUST BE COMPLETED AND SUBMITTED WITH THE BID. BID EXPRESS MANDATORY.
