Description:

The work under this Push-button Contract consists of night-time removal, replacement and/or repair of driveways, sidewalks, detectable warning surfaces (DWS), curbs, gutters and inlet tops in urban locations of Leon County, as described in the Appendices. Other services required to achieve this work include Maintenance of Traffic (MOT), adjusting utility features (e.g. manhole rings, water meter boxes, valve risers, etc.), providing erosion control features, borrow material and hot-mix asphalt, maintaining pedestrian and driveway access, sodding and watering disturbed areas. Coordinate work with owners of nearby affected utilities. Contract services will be requested on a call-out basis; one call-out per calendar month is anticipated. Mobilization is incidental to other items listed.

This contract has a budgetary ceiling of \$300,000.00.

The quantities shown on the Bid Price Proposal are approximate and only represent estimated planned requirements based on historical or specific project needs. The Department does not guarantee any maximum or minimum quantity, any range of quantities, or the exact quantities shown for each bid item. The Departments estimated quantities and the Contractors bid price will be used to calculate a total bid amount. This total bid amount will then be used to determine the low bidder; however, actual payment under the awarded contract will be based on actual quantities completed. For this Contract in which specific sites are not identified at the time of letting, the Engineer will issue a Work Document. Work Documents will identify the location, description, amount of work to be accomplished, and the number of calendar days to complete the work.
