**Contract Descr:** PONCE DE LEON OPS MAINT - PIPE VIDEO INSPECTION

The Improvements under this Work Document-Driven Contract consist of storm sewer video inspection, mapping of existing storm water system, desilting pipes, and box culverts as well as cleaning drainage structures (Manholes, Inlets and Junction Boxes) in Walton, Holmes, and a portion of Washington Counties. Any work requiring lane closure shall be performed at night. Maintenance of Traffic and Mobilization will be incidental to the pay items provided.

This contract has a budgetary estimate of \$100,000.00.

Needs The quantities shown on the Bid Price Proposal are approximate and only represent estimated planned requirements based on historical or specific project needs. The Department does not guarantee any maximum or minimum quantity, any range of quantities, or the exact quantities shown for each bid item. The Department estimated quantities and the Contractors bid price will be used to calculate a total bid amount. This total bid amount will then be used to determine the low bidder, however, actual payment under the awarded contract will be based on actual quantities completed. For this Contract in which specific sites are not identified at the time of letting, the Engineer will issue a Work Document. Work Documents will identify the location, description, amount of work to be accomplished, and the number of calendar days to complete the work.

A Proposal Guaranty will not be required on indefinite quantity contracts, such as work document driven contracts, with a Departments advertised estimate amount of \$150,000 or less regardless of the bid amount.
