ADDENDUM NO. 4

**To: ALL PLANS AND/OR PROPOSAL HOLDERS
FINANCIAL ITEM NUMBER: 44839515201
CONTRACT NUMBER: F3Z72
DESCRIPTION: FDOT District 3 Operations Center Building.**

If you are a PLANS and/or PROPOSAL HOLDER, this is your authorization to make the following changes to the plans package you now have for the subject project.

Notice is hereby given of the following revision to the above reference project:

- **Addendum No. 4 has been issued to provide additional information clarifying the response to RFI 0032 provided in Addendum No. 3. The following is hereby incorporated into the response for RFI 0032.**

Under Contract No. BE320, Siemens Industry, Inc. serves as the Department's enterprise provider of the Statewide Enterprise Security Access Control System, providing the Siemens SiPass Integrated access control platform and the Siemens Surveillance video management platform. This statewide environment currently supports more than ninety (90) connected FDOT locations, including the District 3 Headquarters in Chipley, encompassing more than 4,400 security devices and serving over 7,000 FDOT staff, contractors, and vendors daily. The SiPass Integrated and Surveillance platforms, and their associated software and licensing, are proprietary to Siemens Industry, Inc. Unlike some other Siemens product lines, these platforms are not distributed through a third-party authorized dealer network in North America; Siemens Industry, Inc., through its own branch and field offices, is the sole authorized source for this software and licensing and does not warrant materials or work performed outside of a direct Siemens relationship. Accordingly, any contractor supplying panels, software, or components for integration into the District 3 Chipley EOC access control system would need to procure or coordinate those components directly through Siemens Industry, Inc. to ensure compatibility with, and continued support under, the existing statewide BE320 agreement.

Contractors may contacts Joe Grant
