**Description:**

The Improvements under this Site-Specific Contract consist of reshaping ditches and reworking shoulders along State Road 83 (US 331) from General Bill Brown Wellfield Road (Mile Post 5.717) to Coy Burgess Loop (Mile Post 13.766) in Walton County at designated locations. These ditches are non-typical and should be re-graded to +/- 3 inches of the original flow line to create a free and unobstructed flow of drainage water. For the purposes of this contract, the original flow line is considered to be the linear projection along the ditch bottom between the invert elevations of immediately adjacent drainage structures. Mobilization and Maintenance of Traffic shall be incidental to the bid items.
