Description:

The Improvements under this Site-Specific Contract consist of reshaping ditches, reworking shoulders, and back slopes along State Road 83 (US 331) from South Bay Grove Road (Mile Post 4.954) (Section 60040000) to Sherwood Road (Mile Post 10.005) (Section 60050000) in Walton County. These ditches are non-typical and should be re-graded to +/- 3 inches of the original flow line to create a free and unobstructed flow of drainage water. For the purposes of this contract, the original flow line is considered to be the linear projection along the ditch bottom between the invert elevations of immediately adjacent drainage structures. Mobilization and Maintenance of Traffic shall be incidental to the bid items.

Description:

The work specified in this Work Document-Driven Contract consists of reshaping ditches and reworking shoulders along State Road 8 (Interstate 10) on a call out basis in Holmes, Walton, and a portion of Washington Counties. These ditches are non-typical and should be re-graded to +/- 3 inches of the original flow line to create a free and unobstructed flow of drainage water. For the purposes of this contract, the original flow line is considered to be the linear projection along the ditch bottom between the invert elevations of immediately adjacent drainage structures. Spoil material removed from ditches and shoulders shall be relocated to FDOT storage pit in Argyle. Mobilization and Maintenance of Traffic are incidental to the pay items listed.

This contract has a budgetary ceiling of \$600,000.00.

The quantities shown on the Bid Price Proposal are approximate and only represent estimated planned requirements based on historical or specific project needs. The Department does not guarantee any maximum or minimum quantity, any range of quantities, or the exact quantities shown for each bid item. The Departments estimated quantities and the Contractors bid price will be used to calculate a total bid amount. This total bid amount will then be used to determine the low bidder; however, actual payment under the awarded contract will be based on actual quantities completed. For this Contract in which specific sites are not identified at the time of letting, the Engineer will issue a Work Document. Work Documents will identify the location, description, amount of work to be accomplished, and the number of calendar days to complete the work.
