Description:

The work specified in this Work Document-driven Contract consists of correcting vertical misalignments or grade changes in pedestrian sidewalks along the primary roads of Gadsden and Leon County. Pedestrian accessible concrete sidewalks, landings, and curb ramps with vertical misalignments between ¼, and 1 inch, averaged across the joint width, will be corrected by grinding or lifting. Acceptance of the completed work will be dependent on compliance with the Americans with Disabilities Act (ADA). Vertical alignments of sidewalks exceeding these tolerances or not correctable by these methods, will be replaced by others under a separate Contract. Work locations will be identified and authorized on individual Work Documents, issued by the Department. Maintenance of Traffic and Mobilization will be incidental to the pay item shown in the Bid Proposal.

The overall budgetary ceiling on this contract shall not exceed \$200,000.00

The quantities shown on the Bid Price Proposal are approximate and only represent estimated planned requirements based on historical or specific project needs. The Department does not guarantee any maximum or minimum quantity, any range of quantities, or the exact quantities shown for each bid item. The Departments estimated quantities and the Contractors bid price will be used to calculate a total bid amount. This total bid amount will then be used to determine the low bidder; however, actual payment under the awarded contract will be based on actual quantities completed. For this Contract in which specific sites are not identified at the time of letting, the Engineer will issue a Work Document. Work Documents will identify the location, description, amount of work to be accomplished, and the number of calendar days to complete the work.
