**Description:**

The Improvements under this Work Document-driven Contract consist of cutting and trimming of trees and clearing underbrush to maintain an open clear zone within the right of way along all State maintained roads in Gadsden and Leon Counties. The height of the cut shall be a minimum of twenty (20) feet measured vertically from the ground line. The trim line shall be the right of way line or clear zone plus an additional 5 feet, whichever is less. Mobilization will be incidental to items of work included in the current Bid Price Proposal.

This contract has a budgetary ceiling of \$400,000.00.

The quantities shown on the Bid Price Proposal are approximate and only represent estimated planned requirements based on historical or specific project needs. The Department does not guarantee any maximum or minimum quantity, any range of quantities, or the exact quantities shown for each bid item. The Departments estimated quantities and the Contractors bid price will be used to calculate a total bid amount. This total bid amount will then be used to determine the low bidder; however, actual payment under the awarded contract will be based on actual quantities completed. For this Contract in which specific sites are not identified at the time of letting, the Engineer will issue a Work Document. Work Documents will identify the location, description, amount of work to be accomplished, and the number of calendar days to complete the work.
