Description:

The Improvements under this Site-Specific Contract consist of reshaping ditches, reworking shoulders, and back slopes along State Road 83 (US 331) from Rock Hill Road (Mile Post 7.404) (Section 60050000) to South Bay Grove Road (Mile Post 4.954) (Section 60040000) in Walton County. These ditches are non-typical and should be re-graded to +/- 3 inches of the original flow line to create a free and unobstructed flow of drainage water. For the purposes of this contract, the original flow line is considered to be the linear projection along the ditch bottom between the invert elevations of immediately adjacent drainage structures. Spoil material removed from ditches and shoulders shall be relocated to the FDOT storage pit in Argyle or nearest storage area. Tickets must be submitted for water application payment. Mobilization and Maintenance of Traffic shall be incidental to the bid items.
