Description:

The work under this Work Document-driven Contract consists of the replacement of damaged guardrail and crash cushions along the state maintained roadways in Santa Rosa County. The contractor will provide labor, materials and equipment necessary to remove, install, repair and/or replace damaged guardrail to the proper condition of operation within the time frame specified on the work document. Removal and disposal of all debris from replacement of damaged guardrail will be the contractor's responsibility. Mobilization and Maintenance of Traffic are incidental to the other pay items listed.

The overall budgetary estimate for this contract will be \$75,000.00.

The quantities shown on the Bid Price Proposal are approximate and only represent estimated planned requirements based on historical or specific project needs. The Department does not guarantee any maximum or minimum quantity, any range of quantities, or the exact quantities shown for each bid item. The Department estimated quantities and the Contractors bid price will be used to calculate a total bid amount. This total bid amount will then be used to determine the low bidder, however, actual payment under the awarded contract will be based on actual quantities completed. For this Contract in which specific sites are not identified at the time of letting, the Engineer will issue a Work Document. Work Documents will identify the location, description, amount of work to be accomplished, and the number of calendar days to complete the work.

A Proposal Guaranty will not be required on indefinite quantity contracts, such as work document driven contracts, with a Departments advertised estimate amount of \$150,000 or less regardless of the bid amount.
