Description:

The work under this Work Document-Driven Contract consists of guardrail maintenance, including repair or replacement of damaged guardrail and crash cushions along I-10 in Jackson and Washington Counties on a call-out basis. Price and payment for replacement of guardrail or guardrail components will be for removal of the item being replaced and the construction of the new guardrail or guardrail component being replaced including any miscellaneous hardware necessary for the new guardrail or guardrail component. Maintenance of Traffic and Mobilization are incidental to the pay items listed. This contract has a budgetary estimate of \$150,000.00.

The quantities shown on the Bid Price Proposal are approximate and only represent estimated planned requirements based on historical or specific project needs. The Department does not guarantee any maximum or minimum quantity, any range of quantities, or the exact quantities shown for each bid item. The Department estimated quantities and the Contractors bid price will be used to calculate a total bid amount. This total bid amount will then be used to determine the low bidder, however, actual payment under the awarded contract will be based on actual quantities completed. For this Contract in which specific sites are not identified at the time of letting, the Engineer will issue a Work Document. Work Documents will identify the location, description, amount of work to be accomplished, and the number of calendar days to complete the work.

A Proposal Guaranty will not be required on indefinite quantity contracts, such as work document driven contracts, with the departments advertised estimate amount of \$150,000 or less regardless of the bid amount.
