**Description:**

The Improvements under this Contract consist of signalization of an unsignalized intersection, modifications to an existing signalized intersection, repairs or adjustments to an existing signalized intersection, variously including steel mast arms and aluminum signal poles with pedestrian and vehicular detectors, new lighting at crosswalks, signing and pavement markings, concrete curb and gutter, concrete sidewalk and driveways, detectable warnings, paves, and sod, in the City of Boca Raton, the Town of Palm Beach, and in unincorporated areas of Palm Beach County.

Pre-Qualified: Contractor must be pre-qualified

WORK DRIVEN CONTRACT: The award amount shall be based on the budgeted amount of \$1,000,000.00 and not the contractors bid total. The quantities shown on the Bid Price Proposal are approximate and only represent estimated planned requirements based on historical or specific project needs. The Department does not guarantee any maximum or minimum quantity, any range of quantities, or the exact quantities shown for each bid item. The Department's estimated quantities and the Contractor's bid price will be used to calculate a total bid amount. This total bid amount will then be used to determine the low bidder; however, actual payment under the awarded contract will be based on actual quantities completed. For this Contract in which specific sites are not identified at the time of letting, the Engineer will issue a Work Document. Work Documents will identify the location, description, amount of work to be accomplished, and the number of calendar days to complete the work.
