**I-95 Asset Management Treasure Coast**

Asset Maintenance contract that consists of roadway sections and subsections of I-95 in Martin, St Lucie, and Indian River Counties and includes Rest Areas and Weigh Stations. This performance-based contract requires diligent inspection, effective management, and efficient performance of maintenance on all components of the transportation facility as identified herein. The Department is entrusting the Contractor to care for and maintain select roadways, structures, and facilities of Florida state roads and expects the Contractor to take pride in performing a high level of maintenance. The continual quality of the maintenance of the roadways, structures, and facilities will be a direct reflection, under public scrutiny, of the quality and integrity of the Contractor.

The Department will evaluate the Contractors level of maintenance and quality of work performed both randomly and systematically.

The roadways, structures, and facilities included in this scope of this Contract are as follows:

This project is for all the roadway sections and subsections of state road corridors outlined in the table below of I-95, in Martin, St. Lucie, and Indian River Counties.
