Question: 27057: The provided cross-sections do not appear to include all of the Excavation & Embankment/Fill locs. The approx. quantity of the shown Fill locs is only <200cy; the Reg. Excav's only 4cy. The Summary of Earthwork(SQ-9) is appreciated & useful, but knowing the characteristics, by having the complete x-sections, of the earthwork is important esp. since the the Regular Excav bid item is a 1 Lump Sum bid item. Request that the Dept., if it has this info, provide all of the project x-sections that include all of the Excavation & Fill locations.
