

Bid Express

On-Line Bidding

When a bid is prepared in Expedite, Bid Express is used to submit the bid via the Internet. The bid is encrypted and held in a lockbox until the bid opening by the Department. The bid can be withdrawn or replaced prior to the deadline for bid submittal. Redundant power sources, file back-ups and duplicate hardware set-ups help to ensure that the bid is secure. Bid Express uses the latest digital signature and encryption technology. The system is built, maintained, and constantly monitored to ensure the reliability.

Bid Express also conducts on-line verification of bid bonds through surety agencies. When the bid is prepared in Expedite, a bid bond verification code is used instead of a paper bond. The code is embedded in the bid and backed by a participating surety bond processing agency.

Signing up for a Bid Express account

Go to <http://www.bidx.com> and click the Order tab, Select “Subscribe Now”, and follow the instructions.

Digital ID

The Expedite Bid software and an active Digital ID are required to use the internet bid submission and electronic verification of bid bond.

Downloading Expedite Bid Software:

1. Go to <http://www.dot.state.fl.us/cc-admin/Expedite/hexpedite.shtm>
2. Click on the Download Expedite Bid link
3. Follow the instructions

Note: When using Expedite the first time, enter information, such as company name, agency and bidder ID (state assigned).

To create a Digital ID:

1. In Expedite Bid, go to “Tools”, “Options”. Verify company information is filled in and correct.
2. Select “Agency ID” tab. In the left column enter FDOT. Use all capital letters.
3. In the right column enter company’s vendor number.
4. Select “Apply” and then “OK”.
5. Select “Tools”, “Digital ID’s”, and select “Create ID”.
6. Follow the instructions of the digital ID wizard. The ID must be in the name of a person who is authorized to sign bids for your company.
7. The password must be 5 characters minimum. (Write it down and secure it.)
8. Move the mouse around quickly to generate your digital ID fingerprint.
9. Complete the entire wizard process and select the “Finish” button, including printing the ID paperwork.
10. Please note it can take up to 6 business days to process and activate the ID from the date it is received by Bidx.com.

Digital ID Tips:

DO NOT CREATE A NEW DIGITAL ID FOR EACH PC IN USE.

To submit bids on multiple computers, copy the digital ID to each computer per the instructions rather than creating new digital IDs for each computer.
