BIDDER QUALIFICATIONS FOR GUARDRAIL AND ATTENUATOR REPAIR AND REPLACEMENT

Eligibility qualifications are required to bid on this project for the repair and replacement of guardrails (including end anchorage assemblies) and/or attenuators (crash cushions). A bid not accompanied with documentation of eligibility qualifications as required herein may result in the bid being deemed non-responsive.

In order for a bid to be deemed responsive, the bidder must provide sufficient documentation to satisfy **either** Option 1 (documentation of Experience, Record, and Equipment) **or** Option 2 (documentation of Certificate of Qualification).

Option 1

Documentation demonstrating the bidder's eligibility qualifications:

- A. Experience
- B. Record - Letter of Recommendation
- C. Equipment

Option 2

Documentation attesting to the bidders' certificate of qualification status in the work class for Guardrail.

Option 1: For eligibility determination based on Option 1, the bidder must provide all details as outlined in sections A., B., and C., of this table.

A. Experience	Provide a list of the bidder's experience in the active performance of guardrail or attenuator repair or replacement work, for work equivalent to three (3) full years. ➤ Begin the list with the most recently completed work and continue listing the work experience, for up to six (6) years, or until work is equivalent to three (3) full years of work experience. The list of relative work experience is required to include the following: - Contract or project number - Type / description of work - Location work performed (city, state) - Begin and end date of the contract / project - Number of days work performed - Contract / project amount - Contractor's performance report score for the completed contract / project
B. Record	Provide a letter of recommendation from an agency or firm having direct knowledge of the bidder's performance of guardrail or attenuator repair or replacement work. ➤ Letters of recommendation will be considered if the letter specifies verifiable details to support the bidder's ability to perform the road and bridge maintenance work. Details to be included in the letter of recommendation: - Description and location of the project including the type of work - Details regarding the bidder's responsiveness and pursuit of the work
C. Equipment	Provide a list of equipment owned by the bidder or letters of commitment from equipment rental companies that demonstrate the bidders ability to perform the work.

Option 2: For eligibility determination based on Option 2, the bidder must provide a written statement of the bidder's certificate of qualification status.

Certificate of Qualification	Provide a statement attesting that the bidder holds a valid Department of Transportation certificate of qualification in the work class for Guardrail.
