PRODUCTION SUPPORT MEMORANDUM 18-03

DATE: December 13, 2018

TO: District Design Engineers, District Consultant Project Management Engineers,
District Program Management Engineers

FROM: Paul Hiers, P.E., Manager, Production Support Office

COPIES: Tim Lattner, Robert Robertson, Michael Shepard, Stefanie Maxwell,
Jason Watts

SUBJECT: **Sunset of FDOT Project Management Handbook and CBT's**

DocuSigned by:
Paul Hiers
C2CB53A3814D408...

This memorandum serves as notification that the FDOT Project Management Handbook and corresponding computer based trainings (CBTs) have been removed from the Project Management web page and Learning Curve. This was done because a significant amount of the information contained in both the Handbook and CBTs do not reflect current FDOT practices and requirements.

To replace the Project Management Handbook, a new Project Management Guide will be developed over the next year. The new guide will be released January 1, 2020 and will:

- be organized into a logical (work-flow) order,
- reflect current FDOT practices and requirements,
- be web-based, and
- link to the “topic-specific” webinars being produced by the Production Support Office.

Contact Bobby Bull if there is a need to request specific information from the FDOT Project Management Handbook. The Project Management Webinar Series will remain available at the following link: <http://www.fdot.gov/designsupport/PM/WebinarSeries.shtm>
