GENERAL NOTES:

1. Where called for in the Plans, use this inlet in conjunction with Shoulder Barrier per Index 521-001 or a Wall Coping with Barrier and Junction Slab per Index 521-610. Use of the inlet adjacent to other Concrete Barrier or Traffic Railing types requires approval of the Drainage Engineer. The inlet is suitable for bicycle and occasional pedestrian traffic, with roller bar installation (see INSET B), but should not be placed in a designated pedestrian travel way.

2. Inlets located in embankments constructed with earth anchored retaining wall shall be designed with minimum depths to reduce adverse impact on the anchorage system. Runs of pipe parallel to and rear anchored wall shall be avoided whenever practical. Special coordination must be exercised during the design and construction of storm water systems within anchored wall systems.

3. Inlet bottoms and/or tops may be either precast or cast-in-place. Whether cast as a single unit or as multiple segments, and whether precast or cast-in-place, the upper 2'-3" of the inlet shall be reinforced in accordance with sections CC, DD and EE.

4. All exposed edges and corners shall be 1/8" chamfer or tooled to 1/4" radius.

5. When Alternate C grate is specified in the plans, the grate is to be hot-dip galvanized after fabrication. Field installation of the filter bar called for in Inset B will not be permitted, thereby requiring tolerance adjustment during fabrication and/or casting, or, matching grate to structure prior to galvanizing.

6. All reinforcing is Grade 60 bars. See Index 425-001 for equivalent area of welded wire fabric.

7. All dimensions are for both precast and cast-in-place inlets unless otherwise noted.

8. For supplemental details see Indexes 425-001 and 425-010.

9. Inlets to be paid for under the contract unit for Inlets (Concrete Barrier), Ea.

For supplemental details see Indexes 425-001 and 425-010.

#4 Bars @ 12" Ctrs. (See Table 1)

Horiz. Wall Rein. (See Index 425-001)

Eybolt & Chain (See Index 425-005)

WALL REINFORCING SCHEDULE

| WALL DEPTH | SCHEDULE | AREA (IN²/Ft.) | MAX. SPACING
|------------|----------|---------------|--------------
| 0'-5       | A12      | 0.20          | 12"          |
| 5'-10      | A6       | 0.20          | 4"           |
| 10'-15     | A4       | 0.24          | 5/8"         |

INLET WITH STRUCTURE BOTTOM

Note: Alt. B Structure Bottom Only. See Index 425-010
