   C. For through bolting, countersink the nut and washer so that the bolt and nut does not extend beyond the face of the traffic railing. Do not exceed a countersinking depth and diameter of 2x.

2. New Traffic Railings:
   A. Optional Couplers are shown for slip forming; keep Anchor Nut coupler threads free of concrete.
   B. For concrete parapets less than 10" thick, through bolt 1/2" Ø Hex Head Bolts with Nuts and Washers in lieu of Adhesive Bonded Anchors. Bolt heads shall not protrude more than 1/2" beyond traffic face of railing.
   C. For through bolting, countersink the nut and washer so that the bolt and nut does not extend beyond the face of the traffic railing. Do not exceed a countersinking depth and diameter of 2x.
