

Index 160-001 Median Stabilizing Details

Design Criteria

FDOT Standard Specifications (Specifications), Section 160; FDOT Flexible Pavement Design Manual (FPDM); and FDOT Rigid Pavement Design Manual (RPDM)

Design Assumptions and Limitations

Index 160-001 provides minimum limits for stabilizing the subgrade at median openings for crossovers, turn lanes, and traffic separators.

For additional information about stabilized subgrade, refer to the *Flexible Pavement Design Manual (FPDM)* and *FDOT Rigid Pavement Design Manual (RPDM)*.

Plan Content Requirements

Provide the limits and bearing requirements of stabilized subgrade on the roadway Typical Sections.

Payment

Item number	Item Description	Unit Measure
160-4	Type B Stabilization	SY

See the *BOE* and *Specification 160* for additional information on payment, pay item use and compensation.
