# Indexes 700-104 through 700-108

# Miscellaneous Signing and Pavement Marking Applications

## Design Criteria

***Manual on Uniform Traffic Control Devices*** (***MUTCD***); ***FDOT Traffic Engineering Manual*** ***(TEM)***; ***FDOT Design Manual*** ***(FDM)***

## Design Assumptions and Limitations

***Indexes 700-104*** through ***700-108*** provide typical applications of signing and pavement markings for the following situations:

- Signing for Motorist Services
- Welcome Center Signing
- Rural Narrow Bridge Treatment
- Bridge Weight Restrictions
- Typical Signing for Truck Weight and Inspections Stations

These Indexes are provided as examples of the above common applications. See the ***TEM*** and ***FDM 230*** for additional information on signs.

## Plan Content Requirements

Provide the appropriate detail in the Signing and Pavement Marking Plans for all of the typical applications noted above. See the ***FDM 940***.

## Payment

Payment for these applications is made under the individual Pay Items for signing and pavement marking. See the ***BOE***, ***Specifications 700, 706, & 711***, and the ***Standard Plans Instructions*** for ***Index 706-001***, ***Index 711-001***, and ***Indexes 700-010*** through ***700-020***; for information on payment, pay item use, and compensation.
