

**STANDARD PLANS INSTRUCTIONS
FY 2024-25 REVISION LOG**

<i>Standard Plans Index</i>	<i>Description</i>
102-100	<i>Added details for trailer mounted barriers.</i>
110-100	<i>Updated Payment Items. Deleted obsolete payment item.</i>
440-001	<i>Updated all instances of "filter fabric" to "geotextile".</i>
450-010	<i>Changed the Example problem strand pattern.</i>
455-400	<i>Updated "plastic filter fabric" to "geotextile".</i>
455-440	<i>Updated "plastic filter fabric" to "geotextile".</i>
458-100	<i>Fixed standard reference typo. 548 should have been 458.</i>
509-070	<i>Added "For details of the Railroad Dynamic Envelope pavement markings, refer to Index 711-001." to Design Assumptions and Limitations.</i>
521-001	<i>Design Assumptions and Limitations, Part J: Added this new guidance for shoulder rocking or minor grade separations; Plans Content Requirements, Part A: Added new guidance for shoulder rocking or minor grade separations.</i>
521-426	<i>Adjusted the language for the 3 bars 5S so that it was more clear how and when they can be used.</i>
521-511	<i>Changed Pay Item numbers to match BOE.</i>
546-001	<i>Added "Raised rumble strip limits encroaching into curves and resulting in limited site distance, can be extended in 200' increments to provide a prolonged Alert/Reaction Zone when specified in Plans. Additional signage can also be considered in this scenario." in Design Limitations.</i>
550-011	<i>Changed title to match newly changed title of the index. Also added a reference to the FDM for using the index.</i>
550-013	<i>Changed the title to match the newly changed title of the index. Also removed some language limiting use to railroads and instead refer the reader to the FDM.</i>
649-030	<i>Page 11: Added Mast Arm Tabulation Sheet Example.</i>
676-010	<i>Updated Plan Content Requirements for clarity. Added new pay items.</i>

**STANDARD PLANS INSTRUCTIONS
FY 2024-25 REVISION LOG**
