Index 000-510 and 000-511 Superelevation Transitions

Design Criteria

FDOT Design Manual (***FDM***); ***AASHTO A Policy on Geometric Design of Highways and Streets***

Design Assumptions and Limitations

Indexes 000-510 and 000-511 provide requirements for installation of superelevation transitions on both low and high-speed highways. For superelevation criteria, see ***FDM 210***.

Plan Content Requirements

See ***FDM 915***.

Payment

No separate payment is made for superelevation.
