Index 141-T01 Settlement Plate

Design Criteria

***FDOT Soils & Foundations Handbook** (**S&FH**)*

Design Assumptions and Limitations

Index 141-T01 includes the details for the Department standard settlement plate assembly for settlement monitoring. For additional information on settlement monitoring and use of this Index, refer to the ***S&FH**, Chapter 7*

The use of ***Index 141-T01*** requires a Technical Specifical Provision. Refer to the ***Specifications Handbook*** for development of Technical Special Provisions. For an example of a *T141 Specification*, see the Geotechnical Engineering, Technical Special Provisions website:

https://www.fdot.gov/geotechnical/documents/specialprovisions/index.shtm

Plan Content Requirements

Coordinate with the District Geotechnical Engineer.

Payment

Payment for the Settlement Plates must be clearly defined in the Technical Special Provision. See the *Basis of Estimates Manual* (***BOE***) and ***S&FH**, Chapter 7* for additional information.
